TENSE MOMENTS AT MEETING OF THE  
CITY COUNCIL LAST NIGHT

Bomb Shell Explodes When Acting Superintendent of Police Says Ex-Service Men Volunteer to Serve as "Spotters" in Liquor Law Enforcement Work--Vigorous Debate on Ordinance Creating Director of Employment--Other Matters

Startling revelations regarding the employment of former service men as "spotters" in liquor law enforcement work which included a statement by W. C. MacBrayne that veterans have applied to him for this kind of work and further statement that one ex-soldier thus employed left town on a \$50 bribe, sufficed to create a storm in the aldermanic chamber at city hall last night at the regular meeting of the city council.

The acting superintendent of police came before the council to discuss his

departmental estimates for 1922 and was subjected to a cross fire of questions for nearly an hour. Councilor Sadler was most insistent in his efforts to obtain information about the department, particularly the liquor law enforcement phase of it and it was in answer to questions by the councilor from Ward 4 that Capt. MacBrayne made the statements concerning the employment of ex-service men.

"Do you mean to say, Mr. MacBrayne, that ex-soldiers volunteer for

## Attempt to Rob Train Fails

GALESBURG, Ill., March 17.—An attempt was made to rob Atchison, Topeka & Santa Fe train No. 17, near Williamsfield, Ill., 25 miles from here last night when robbers threw several packages from the express car. The packages were recovered by the agent at Williamsfield.

TRUSTEES FOR  
NEW AUDITORIUM

Mayor Says He Will Be Guided in Choice by Suggestions of Commission

Does Not Consider Building Entirely Military Affair--Is for the Public

Says He Will Find Money to Pay Mackenzie and O'Dowd

Mayor George H. Brown said today that he will be guided to a large extent in his appointments to the staff of the Memorial auditorium, particularly as to the personnel of the board of trustees, by recommendations and suggestions of the present auditorium commission.

It might be said, in passing, that it is understood that no member of the building commission cares to become a trustee.

The mayor also stated that while he appreciates the connections between veterans of all wars and the auditorium, he does not consider it a military proposition in entirety. He does say, however, that probably there will be more veterans than civilians among the employees of the building.

This latter statement was made when questioned as to whether or not he had received a formal letter of protest from Lowell post, American Legion, on the appointment of any but veterans of one of the wars in which this country has been engaged, to the auditorium staff.

Such a letter of protest was voted last night at a meeting of the executive committee of Lowell post. The mayor did not receive it this morning.

The mayor stated that he will find money with which to pay Collin H. Mackenzie and Paul O'Dowd after Contractor Drapreau leaves the building. The former is now serving as custodian, while the latter's title is keeper of records.

Some 45,000 stitches are required to make the ordinary suit of clothes.

IRISH NIGHT  
HELD BY K. OF C.

Historical Address by Hon. William H. O'Brien of Boston

Refuted Senator Williams' Charge That Irish Had no Part in Revolution

Hon. William H. O'Brien was the principal speaker at the Irish Night conducted by the Knights of Columbus at the council rooms in Associate building last evening. His address was quite scholarly and of great historic value as he quoted high authorities for everything he said. He traced the emigration from Ireland from the earliest days of the colonies down to the Revolution, showed the part played by the Irish in that struggle, the distinction attained by Irish immigrants in all the activities which led to the establishment of the republic and its defense in all the trials and struggles that have since occurred, including the war of 1812.

He was followed by Rev. Fr. Hefferman, chaplain of the council in speech setting forth the reasons why the Irish in America should be proud of their ancestry and aid in striking the shackles from the limbs of Mother Erin.

The observance was planned by the lecture of the council and carried out in a fitting manner. Grand Knight John E. Hart opened the meeting and introduced the lecturer, who, in turn,

Senators Lodge, Underwood and Borah Call for Payment of \$241,000,000

Underwood Also Urges Appointment of American on Reparations Commission

WASHINGTON, March 17.—Declaration that the United States should insist upon payment of its bill of \$241,000,000 for keeping Americans on the Rhine were made in the senate today by both party leaders—Senators Lodge and Underwood—and by Senator Borah.

Mr. Underwood also urged appointment of an American representative on the allied reparations commission.

Spectacular Raid Just Before Dawn;  
Most Important in New York  
Since Advent of Prohibition

John McHenry Hanged for Murder  
of Detective and Auto Dealer

John McHenry, 18, kisses his mother good-by in the district jail, Washington, D. C., just before execution.

WASHINGTON, March 17.—John McHenry, aged 24, formerly of New London, Conn., was hanged today for the murder of a Washington city detective and an automobile dealer.

An attempt to prevent the hanging today was made by the local branch of the Friends of Irish Freedom, whose

officers said the taking of McHenry's life today would amount to a degradation of the Feast Day of Ireland's patron saint.

It was brought out at the trial that McHenry had served sentences in several New England reformatories, and other penal institutions.

## Smallpox Epidemic Sweeps Costa Rica

SAN SALVADOR, Republic of Salvador, March 17.—A serious epidemic of smallpox is sweeping Costa Rica. A despatch from San Jose says 22,000 persons have the disease.

## BIG PARADE IN BOSTON

146th Anniversary of Evacuation of Port by British Forces Celebrated

BOSTON, March 17.—The 146th anniversary of the evacuation of this port by British forces was celebrated as usual today in South Boston.

Thousands of persons went to the peninsula district to take part in the observance, the chief feature of which was a parade of 10,000 troops and war veterans.

A reviewing stand was provided for Senator Stanley of Kentucky, Governor Cox, Mayor Curley and others.

FULLER ENDS  
HIS TESTIMONY

Lieutenant Governor Had  
Been on Witness Stand  
Since Wednesday

Again Questioned Relative to  
Partnership Between Warner  
and Hathaway

TAUNTON, March 17.—Lieut. Gov. Alvan T. Fuller, who had been on the witness stand since Wednesday afternoon in his own defense in the \$100,000 slander suit brought by former Speaker Joseph B. Warner, of the Massachusetts house of representatives, completed his testimony today.

He was subjected to a brief redirect and re-cross examination.

Attorney John L. Hall, chief counsel for Warner, again asked Fuller as to his knowledge of a partnership between the plaintiff and Harold F. Hathaway, an attorney of this city, whose name had figured prominently in the testimony. Fuller, raising his voice, said that he had been in business 25 years and never had known of a case where the names of two men appeared together in advertisements and on a sign without their being partners.

City directories for 1910 and 1912 containing an advertisement associating the two men as attorneys, have been offered in evidence, and Fuller has testified that he saw their names on a sign outside an office building.

Witnessed Temple of Marlboro, an attorney called for the defense, said he had met Warner at a republican rally in Marlboro in July, 1920, and that when introduced to the plaintiff, the witness said:

"I have the pleasure of knowing your partner, Harold F. Hathaway, as I appeared in a case against him at Worcester."

Temple said Warner replied that he did not recall the case, which was in probate court, as he had not kept in as close touch with the office as he would have wished to.

**\$6,000,000 BOND ISSUE**  
MONTREAL, March 17.—The government of Newfoundland has sold to the Dominion securities syndicate an issue of \$6,000,000, five and one-half per cent 20-year bonds, payable in New York at \$8.75, American funds. It was announced today.

Venice is built on 80 islands and has 400 bridges.

LOWELL IRISH HISTORICAL SOCIETY  
HOLDS FIRST ANNUAL BANQUET

St. Patrick's Day Eve Observance in Lincoln Hall Is Big Success--Prominent Speakers From Various Walks in Life Eulogize Work of Ireland's Patron Saint--Stirring Irish Music Adds to the Spirit of the Occasion

Never before in the annals of the Irish race in Lowell has the eve of St. Patrick's day been more fittingly observed than at the first annual banquet of the American Irish Historical society of Lowell, held in Lincoln hall last evening. Prominent speakers representing different walks of life, including the ecclesiastical, educational and political, voiced their admiration and respect for Ireland's patron saint, eulogizing his work in the cause of Christianity, and spoke in glowing terms of the historic episodes in which Irishmen of every generation had leading parts. The men of Irish birth and ancestry now living came in for a share of praise as the exponents of their ancestors' principles. Stirring Irish music was rendered by a splendid quartet.

After a reception lasting over an hour, the gathering of about 400 persons

NEW HAVEN RESTAURATEUR VICTIM  
OF \$2500 SWINDLE HERE

Story Told the Local Police of Bunco Game Is Substantiated by Them--Man Alleged to Have Taken the Money Makes Quick Getaway

Claiming to have lost \$2500 through a Lowell restaurant deal, a man giving the name of Charles Vincent of New Haven, Conn., who stated that he owned a restaurant at 15 Broadway street, that city, told a story to the local police Wednesday afternoon, which, according to the criminal investigating bureau, is the last act of an out and out bunco game.

Accompanied by a man named Edward Baker, Vincent applied to the police for aid and unfolded his story, the truth of which, the police say, is substantiated by an investigation of the case.

Vincent said that Baker and another man named Tomlin came to him at his restaurant in New Haven and said that they wanted to buy a restaurant in Lowell and asked if he could loan them some money. Vincent claimed that he has known Baker and Tomlin for a long time and trusted them. The New Haven restaurant owner told the police that he procured \$2500 in cash and put the same in an envelope which he gave to Tomlin.

The story goes on that while the three were talking a man named Cundall joined the party.

ARE WILLING  
TO ARBITRATE

Pres. McMahon Denies Rumors of Refusal on Part of  
Workers to Arbitrate

Unfounded Reports Circulated for Purpose of Alienating Public Opinion

PAWTUCKET, R. I., March 17.—Thos. P. McMahon, international president of the United Textile Workers of America, issued the following statement relative to arbitration of the textile strike today:

"From several sources it has come to my attention that the representatives of the striking textile workers have refused to arbitrate the question of wages. These unfounded rumors are for the purpose of alienating public opinion.

"I wish to state as president of the United Textile Workers of America that, at no time since this battle started have the representatives of the workers, by word or act, taken the position that these rumors would indicate, but, on the other hand, we have been from the beginning willing to arbitrate wages before any public tribunal because we feel confident with the facts in our possession as they relate to the textile industry both here and in the south that we have nothing to fear from such public hearing.

"If the employers feel so confident of their case and continue to maintain they cannot operate their mills at a profit on account of southern competition, why do they not come out in the open and prove their case before a public tribunal."

JULES CAMBON  
ACCEPTS NEW POST

PARIS, Mar. 17.—Jules Cambon, who was French ambassador to Germany at the outbreak of the war and who has held important posts in the foreign office since that time, has resigned to accept the vice presidency of the Banque de Paris et des Pays-Bas, according to the Echo de Paris. Mr. Cambon recently has presided over the Council of Ambassadors, which deals with questions touching on the execution of the peace treaties.

## ASSAULT AND BATTERY

Man Charged With Assaulting Storekeeper Fined \$20 in District Court

Costas Cazanias was found guilty of assault and battery on George Senekunotos and fined \$20 in first district court this morning. According to the story told by the complainant Cazanias entered his store on the night of March 4 and complained that he was not receiving enough attention and started to break up some furniture. The complainant reinstated and the assault followed.

## NO. CAMBRIDGE WOMAN SAYS RECOVERY DUE TO WELDONA

Claims Pain Stiffness of Chronic Rheumatism of Joints Quickly Disappeared

In an interview given to the Weltona representative, relative to her

recovery, Mrs. R. Hensler, whose ad-

dress is 2584 Massachusetts Ave., No. Cambridge, Mass., and who is proprietor of a delicatessen store, said: "I suffered from rheumatic neuritis and pains in my arms, shoulders and knees for seven years. The pain was severe at night and it was difficult to get to sleep, or find a comfortable position. My knees were stiff and sore, and it was very hard for me to get up from a chair after sitting any length of time. It was hard for me to get my hand to my head because of the pain in my shoulder. Weldonia was recommended and after taking this preparation a short time the pain and stiffness left me, the swelling disappeared, and by continuing the treatment every sign and symptom of rheumatism completely disappeared." "Weldonia is full of results for those who suffer from rheumatism. One test proves it. \$1000 is offered if testimentals are other than genuine or have been purchased. Get Weldonia now, today, from your druggist. Send to Weldonia Co., 121 Daylinton St., Boston, Mass., for free book, "Terms of Rheumatism." Get Weldonia now, today, from A. W. Downs and all reliable druggists.

THIRD FLOOR **WALL PAPER SHOP** TAKE ELEVATORS

### Value in Wall Paper

True value in Wall Paper is found only when you pay a fair price for well made paper. Cheap Wall Paper is an abomination. It's hard to hang, often has a very disagreeable odor when wet with paste, and lasts but a few months. It costs as much to hang as it does good paper.

Long wear in Wall Paper is a result of good materials used in its manufacture. Papers made to sell at a price are cheaply made. But the papers we sell are made by big reliable mills which have a good reputation to uphold.

No other local dealer buys from as many good mills as we do. And none buys at a lower price.

Instead of buying from only two or three cheap mills we buy from a dozen of the best. We select the best from their combined offerings. Is it any wonder we show the largest and best line of Wall Papers in Lowell?

## Half of All Students Work Way Through College in United States

ANTONIO FRESNEDA AT HIS STUDIES. AND (BELOW) AT WORK; LEFT, TUTORING ANOTHER PUPIL; RIGHT, DOING STENOGRAPHIC WORK.

By N. B. A. Service  
NEW HAVEN, Conn., Mar. 17.—Young men, do you want to go to college? Say Yale or Harvard or Columbia or the big American colleges?  
"Yes," you say, "that would be fine. But I haven't the money."  
You don't need the money!  
Make the money as you go along. Half the college students in America are earning their way through college, at least in part, government experts have found.  
A trip to Yale shows you how they do it.  
A questionnaire was sent out by the Bureau of Appointments of Yale to determine how many students were paying their own way by working.  
President Angell of Yale says that half of the students of the college

answered, and of these 52 per cent were working their way through.

Under Handicap

One of them is Antonio Fresneda. He is a Cuban, and he started under a great handicap.

Fresneda is now in his junior year. He says it is a cinch for a young man to work his way through college.

"My freshman year was the hardest," says Fresneda. "The only thing I knew was manual labor."

"I waited on table for my board, took care of a furnace and shoveled snow from sidewalks for my room. I sold Sunday papers, acted as agent for a laundry and at various other jobs, made enough to pay for books and clothes."

Vacations I worked as section hand on the railroad and carried bricks.

Struck to it

"But I stuck to it—while other fellows were hanging about the bar and taking part in social affairs."

"It is easier now. Tutoring and typewriting furnish me with enough to get by on."

"I pay \$3 a week for my room. My board costs me \$11 a week, tuition \$3.50, books and papers \$2, clothing \$1, laundry \$1.50, incidentals \$2. This totals \$33 and I find no difficulty in earning it."

"The experience has been valuable to me. It has taught me that if I believe in a thing, I can do it."

Yale is not an exclusive school for the sons of rich men. It counts its self-supporting students by the hundreds.

However, exceptional qualities are demanded of the student who works his way through. The leisure time exempted from classes and studies, that more fortunate students spend in making pleasure, the self-supporting man must spend in earning his way.

Bureau Aids Students

A bureau of appointments whose chief aim is the aid of needy students is maintained.

The bureau works in two ways: by granting beneficiary college scholarships and acting as a clearing house for work.

Where the bureau, after careful investigation of the applicant, deems that a youth's character and secondary earnings are of sufficient standing to warrant an allowance of \$100 of total tuition fee of \$150 for the first term may be made. The allowance for the second term of the school year and for succeeding terms depends on the student's academic standing.

For the first two years these allowances are made with the understanding that no obligation of repayment is incurred.

After the first two years, non-interest bearing notes are taken for the remaining tuition, payment on which is due five years after graduation.

Sahama, An active volcano in the Andes, is about 26,054 feet high.

### WOMEN AND MEDICINE

In Europe years ago, a woman named Hildegard wrote a notable book on medical plants. In those days the men were too busy hatching about dogmas of religion and medicine, and the study of herbs was thought beneath their notice.

It was the women, however, who mostly conducted the hospitals and earned much of the credit, and thus they learned much of great value. They let the men fight out the questions of theories.

Lydia E. Pinkham's Vegetable Compound, prepared almost fifty years ago by a woman, Lydia E. Pinkham, did then, and does now, relieve the ailments peculiar to women. It is a vegetable compound and of great value for this purpose. This is proven day after day, and in your own neighborhood, by grateful women who have used it.

## \$20,000 LOSS

### Palmyra, Maine, General Store Destroyed by Fire

PALMYRA, Me., March 17.—The general store of J. W. Frost was completely wiped out by a fire, which broke out in the basement yesterday forenoon and spread so rapidly that but little could be saved. The store contained the postoffice, in which everything was burned, the town public library of 8000 volumes and the telephone pay station. Mr. Frost, who is town treasurer, could not save his books and records. Loss on store and stock amounts to about \$15,000, partially insured. The town library was valued at \$1200 and was not insured. The fire also spread to the brick residence of Sidney Weeks, which was burned with a loss of \$8000, insured for \$1000. A barn across the street owned by G. W. Mills was burned with a loss of \$500. A bucket brigade, the only fire protection, saved the house.

## FIRE CHIEFS MEET

Chief Edward F. Saunders of the fire department attended the annual meeting of the Massachusetts Fire Chiefs club, which was held at the Parker House, Boston. The chief topic of discussion at the meeting was "Fire protection afforded to communities which do not maintain fire departments." Chief Saunders said in the course of the meeting it was brought out that Framingham is the only city that ever charged surrounding towns for fire protection and service. There is only one town in the vicinity of Lowell that has no fire apparatus and that is Tewksbury, which depends almost wholly on the department of the state infirmary for protection.

Pill of the albatross is a pale pink color, shading to yellow at the tip.

WHEN?  
Dignified Washingtonians are turning up their noses at the pet of Yvette, vandyke star. It's a skunk! Here she is at the White House with it.

### LOWER CAR STEPS OR BLINDERS FOR MEN

CHICAGO, March 17.—Longer skirts for women, lower steps for street cars.

or blinders for men—Chicago must have one of the three in order to prevent a steady increase in accidents. Alderman Leo Klein declared in introducing an ordinance before the city council providing for lower street car steps.  
The women wear such short skirts that when they start to climb up the high street car steps—well, the men can't seem to keep their eyes to the front and many accidents occur, particularly among motorists, explained Mr. Klein.  
The proposed ordinance was referred to a committee.

### EXTRA DAY'S REST FOR PRESIDENT

ST. AUGUSTINE, Fla., March 17.—(By the Associated Press)—President Harding has an additional day of vacation as a result of his decision to delay his departure for Washington until tomorrow. The plan is to obtain as much benefit as possible from his rest here.

Inhabitants of Anam are said to be the ugliest of the Mongolian race.

## SHOE MEN TO ASK FURTHER WAGE CUT

BROOKTON, March 17.—Deploring that a 10 per cent revision downward in factory cost of shoe production does not sufficiently meet the clamor of the shoe consuming public throughout the country for quality shoes at lower prices and it is not commensurate with the reduced cost of living, the Brockton Shoe Manufacturers' association in notices signed by Secretary Frank M. Bump notified the several locals of the Brockton & Shoe Workers' union in Brockton today that at the expiration of 60 days it will request the state board of arbitration to reopen the wage revision case decided by the board March 13, when a 10 per cent general reduction was ordered effective from that date in 44 factories in Brockton and towns of the Old Colony district, employing in all more than 10,000 operatives.

The employers in giving notice of intention to ask the state board to reopen the entire general issue, will press for a further general reduction.

There are approximately 60,000 club-women in Pennsylvania.

## MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys If Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

## Camden Man's Amazing Message to Rheumatics After Suffering Intense Agony for Many Years—He Wants to Tell Others.

Dr. Brigadell: I simply had to write and tell you what your wonderful Camphorole has done for me. For many years I suffered the tortures of Rheumatism as only those who have it know. At the same time I had a terrible itch and, covered with sores, the sharp pains were so severe, I could not sleep. I had to get up to rub and scratch. It almost drove me crazy. I tried doctor after doctor and all kinds of medicine, but I told you which only left me worse. I could not bend my knees. I am a steamfitter by trade and had to give up my work. Seeing your advertisement in a paper, I thought I would take another chance and told my daughter to get me a package of Camphorole. You can imagine my surprise after using Camphorole, I started to get better right away. After using two jars of Camphorole I am well and happy and have gone back to work. I shall never forget the day I took a chance on Camphorole. After all the years I suffered, it feels so good to be well again. Robert W. Teedale, 2317 High St., Camden, N. J.

## DRASTIC CUTS IN AIR FORCE ESTIMATES

LONDON, March 17.—(By the Associated Press) Drastic reductions in the estimates for the air force for the coming year were announced today. The estimates provide £2,335,500 for normal services and £259,500 for war liabilities. Last year's figures were £16,050,000 for normal services and £1,471,000 for war liabilities. A reduction in force equal to two squadrons is proposed.

Since 1870 the death rate in England has declined nearly 50 per cent.

## AMUSEMENT NOTES

By Theatres' Own Press Agents.

### H. F. KEITH'S THEATRE

The drollness with which "Black-face" Eddie Ross approaches his story subjects at the H. F. Keith theatre this week is his biggest asset. One can never tell just how Ross is going to surround his subject, but he invariably does hit the mark for a bullseye. His work is without a parallel. And his lamp slinking is also first rate. He is just a natural player of the African harp. Bobby Bernard and his lively hands and shoulders has a specially good sketch in "A Regular Guy." It is played in admirable fashion by a wholly competent cast. Holmes and LaVero, who are making their initial appearance here, have a vaudeville act which is different, always good and filled with originality. The eccentric dancing of Miss LaVero is especially good. Other acts on the bill are: Ja Du Trio, singers; Kay Nelson, singing comedienne; the Seabacks, bag punchers; and the Kitars, Japanese jugglers.

### RIALTO THEATRE

But two days more remain in which to see "Turn to the Right," which has been drawing capacity audiences to the Rialto theatre all this week. The picture is Rex Ingram's very latest and is reputed as his best yet. It is booked for a glowing and successful Boston theatre next week so if you want to see it you should plan on doing so before Saturday night. As an additional feature for the week-end the Rialto has a snappy comedy, also an attractive story, "David and Jonathan," which, with the Kingmans, makes an appropriate program. Don't fail to see it.

### MERRIMACK SQUARE THEATRE

Only a few opportunities remain for admirers of Anna Q. Nilsson, the famous star who recently visited Boston, to see her in her latest production, "Three Live Ghosts," at the Merrimack Square theatre. George Arliss

## SPECIAL NO. 2 BLUE SERGE AND UNFINISHED WORSTED

Made by the Wausau Worsteds Co. of Rhode Island, 12 and 14 ounces in weight. A close weave for dress wear. Absolutely wool and warranted fast color. One year guarantee for wear or a new suit free. I have a limited amount at this special price while they last.

SUIT TO ORDER \$22.50  
EASTER SPECIAL

## For a Limited Time Only—YOUR CHOICE

I have been asked, oh, so many times, how I do the volume of business. The answer is simple. I have, what I believe, the largest stock of woollens of any tailoring store in New England. I am a jobber as well as a retailer, selling the small tailor plus 10 per cent. mill discount. I own my merchandise at the low market. I operate my own workshops. I have plain fixtures. No dovetailed floorwalkers. I have tremendous spot cash buying power. I do a strictly cash business—no credit losses for you to share. I sell from weaver to wearer. I am a wholesale tailor—not an agent, and the greatest asset or all—I own my own building, and no gouging landlord can tell me the price I must pay for a given street floor space, and I am proud to say I have over 12,000 satisfied customers on my books.

## SUIT TO ORDER \$35.00 TO \$40.00 VALUE

# \$25.00

## MITCHELL, the Tailor

21 Central St.  
—LOWELL—  
FORMERLY HARRISONIA HOTEL

In "The Ruling Passion" is the feature booked for Monday, Tuesday and Wednesday.

### SUNDAY AT MERRIMACK SQUARE

Manager Nelson has arranged an exceptionally attractive program for the Sunday performances at the Merrimack Square theatre. The featured attractions will be Wallace Reid in "House My Dust," and Johnny Walker and Edna Murphy in "Live Wires." The usual excellent surrounding program will also be carried out.

### CROWN THEATRE

When the new Conway Tearle feature, "Shadows of the Sea," begins a two-day engagement at the Crown theatre today, local patrons of the screen will see one of the most perfectly and impressively cast pictures ever produced. "Shadows of the Sea" is a Selznick picture which was produced under the direction of Alan Crosland. Frank Dazey wrote the story.

In addition to the cast of principals appearing in support of the star, there are some of the most remarkable collections of marine "types" ever seen in a motion picture, including practically everything from the jolly young tar to the solemn old salt. Some idea of the care which has been exercised in the selection of the people to play parts in the picture is indicated by the fact that Frankie Mann, whose stage career is practically every branch of the amusement profession has made her name known in practically every town and hamlet in the country, appears in one of the minor roles.

"Shadows of the Sea" is a maritime adventure story replete with thrills and love interest. Lovely Doris Kenyon herself a star of the screen, plays the leading feminine role, and Jack Drummer, as "Shivering Sam," is responsible for one of the best comic characterizations ever seen. Crawford Kent, Arthur Houseman, J. Barney Sherry, Harry J. Lane and other prominent players complete the cast.

### OPERA HOUSE

Miss Layne's interpretation of the music in "The Two Orphans," the play for the week by Miss Marguerite Flood and her company at the Opera House, is a reflection of the real capabilities of this clever young woman. She and Miss Field, Miss Hill and Miss Frost and Miss Crawford, help

very materially in the successful presentation. Of course the male members contribute their share. Next week "Slippery Meek," a story that has been read by millions, will be the play for the coming week. It's new. You've read it, now see it in play form. The advance sale of tickets indicates a big business. Better order early.

### THE STRAND

Montagu Love, who is making a personal appearance twice daily at the Strand, will hold a complimentary dancing party in the lobby of the theatre tonight after the regular performance. All patrons who attend the performance are cordially invited to attend and enjoy the pleasure to be had. Mr. Love will be present to exchange personal greetings with his many friends here, and who knows but what he will have a dance or two with some favored young women. Mr. Love is appearing in an original act of his own, the name of which won him merited recognition at the opening of "The Strand" in Boston earlier in the week.

Heaven this special feature there is the usual big double-feature picture program with "The Grim Comedian" as the headliner. In this offering Jack Holt is the star, and he received the

assistance of a capable cast. Gareth Hughes in "The Hunch" is the other feature and this too is one of exceptional value.

FILED STAR AT THE STRAND  
Montagu Love, a film star favorite in this city, appeared in person at the Strand theatre yesterday afternoon and

evening and at both performances he was given an ovation. Mr. Love was scheduled to present his original act, but owing to the failure of his trunk to arrive, he gave a series of imitations and a brief address, which were greatly enjoyed. At the close of the entertainment the visitor held an informal reception in the lobby of the theatre.

## Get Your Free

If you are thin and emaciated  
and wish something to help you  
put on flesh and increase  
your weight

Yeast Vitamin Tablets should be used in connection with organic Nuxated Iron. Without organic iron, both food and Vitamins are absolutely useless, as your body cannot change inert lifeless food into living cells and tissues unless you have plenty of organic iron in your blood. Organic iron takes up oxygen from your lungs. This oxygenated organic iron unites with your digested food as it is absorbed into your blood just as fire unites with coal or wood, and by so doing it creates tremendous power and energy. Without organic iron in your blood your food merely warms your body without doing you any good.

Arrangements have been made with the druggists of the city to give every reader of this paper a large \$1.00 package of Genuine Yeast Vitamin Tablets absolutely free with every purchase of a bottle of Nuxated Iron.

## 12 KILLED, 30 WOUNDED

### Fighting Follows Demonstrations Over Arrest of Indian Agitator

LONDON, March 17.—(By the Associated Press).—Twenty natives were killed and 30 wounded at Nairobi, British East Africa, yesterday, in fighting which followed demonstrations over the arrest of the Indian agitator, Thuku, says a belated Central News despatch.

Thuku was arrested on Wednesday and trouble immediately followed. When the situation became menacing, the riot act was read and the demonstrators were ordered to disperse. Instead, they advanced toward the police palisade, waving flags and shouting. Women were used as shields by the men.

Meanwhile military forces had arrived and upon the mob attempting to rush the palisade, were ordered to fire, killing 10 of their number cut down by the bullets, the remainder of the mob stampeded.

Following this occurrence the demonstrations ceased, and at the time

the despatch was filed, the situation was normal.

**Rebel Leaders Ended Own Lives**  
JOHANNESBURG, Union of South Africa, March 17.—(By the Associated Press).—Joe Thompson, president of the Augmented Executive board of the South African Industrial Federation, has been arrested in connection with the mine strike.

The rebel leaders, Fisher and Spindoff, who were found dead in Trades hall at Fordsburg, after the bombardment of the city by government forces, committed suicide, according to an official statement. Their bodies bore shrapnel wounds, but it is thought these came after their deaths.

### MAID CARRIED TWO CHILDREN TO SAFETY

SWAMPSCOTT, March 17.—Miss Grace Hudson, a maid in the home of Mr. and Mrs. John W. Webber, saved the lives of Ruth and Bruce Webber, aged 9 and 3, respectively, by carrying them from the Webber home, which was destroyed by fire late last night. Mr. and Mrs. Webber were returning home from Boston at the time.

Collecting costly snuff boxes was once a fashionable fad in England.

To see a rabbit brings ill luck in the belief of Scottish fishermen.

## 50 DRIVEN FROM HOMES BY FIRES

### Two Early Morning Fires in South End, Boston, Caused Property Loss of \$50,000

### Fire Chief Alarmed by Sparks Showered by Wind Orders People to Street

BOSTON, March 17.—Two early morning fires in the South End district today, drove 50 persons from their homes and caused property damage estimated at \$50,000. Three persons were wounded for a fire in the old Davis stables on Northampton street. Alarmed by sparks, showered by a high wind on nearby tenement houses, Fire Chief Tabor ordered the occupants to the street. The fire was confined to the big stable. At the same time two stores in a chain of stores on West Canton street, a short distance away, caught fire. Occupants of adjoining lodging houses went to the street in the biting cold.

A third fire damaged a building on Boylston street at about the same time.

### CHILDREN STRUCK BY AUTOMOBILES

Laura Morin, aged 12 years and residing at 10 Middlesex place, off Middlesex street, is at the Lowell Corporation hospital. The little girl was struck and knocked down by an automobile at the corner of Middlesex street and Grand street yesterday afternoon shortly after 4 o'clock. The

### STOKOWSKI WINS PHILADELPHIA AWARD

Leopold Stokowski, Philadelphia orchestra leader, is holding \$10,000 and a gold medal in that little ivory casket. That is for the greatest civic service during 1921. The Philadelphia Award was founded last year by Edward Bok, publisher. Photo shows Governor Sprout congratulating Stokowski.

driver and owner of the machine, Frank Caron of Biddeford, Me., removed the child to the hospital.

Peter Budkuna, aged 6 years and residing at 4 Corbett place, was struck by an automobile driven by Undertaker Amodeo Archambault in Goshen street late yesterday afternoon and received slight injuries. He was taken to St. John's hospital.

### IN CHELMSFORD CENTRE

A St. Patrick's day party will be held this evening in the Chelmsford Centre town hall under the auspices of the Chelmsford Catholic club. The

hall decorations will be in green. Favors will be distributed to the guests. In the early part of the evening concert numbers will be given and inter general dancing will be started and enjoyed till a seasonable hour. A truck will leave the North village at 7.30 o'clock for those of that district who wish to attend the party. There will be an electric car for Lowell after the dance.

## PUBLIC NOTICE

A certain brand of Liquid Stove Polish has made its appearance in the stores of Lowell, Lawrence and vicinity, bearing the following label:—

"Distless, Dazzle Liquid Stove Polish, manufactured by J. L. Prescott Company, New York, N. Y. Warning:—Do not use on a hot stove. Keep away from fire."

The following statement also appears on the label of the bottles.

"This polish has all the virtues of a naphtha or benzine stove polish and conforms fully to the Massachusetts Laws regulating the manufacture and sale of stove polish."

THE PUBLIC IS HEREBY WARNED that the foregoing statement is misleading and untrue. Several samples of the said stove polish have been tested by the Official Chemist of this department and found to contain gasoline or naphtha in dangerous proportion; therefore the manufacture, storage, transportation and sale of the said stove polish constitutes a violation of section 58, chapter 148 of the General Laws of this Commonwealth.

The publication of this notice is for the purpose of preventing fires and accidents which may result from the use of the said stove polish.

GEO. C. NEAL, State Fire Marshal.

### MISSING

Walter A. Unger, 27, assistant treasurer of the Thomas W. Evans Dental Institute of Philadelphia, recently disappeared. Police are making a nationwide search for him. Institute officials say negotiable securities valued at \$100,000 are missing.

## TO WED WEALTHY WOMAN

Ex-Bus Boy in "Strong Arm"  
Lunch Room and Miss  
Walton to Marry

BOSTON, March 17.—The astonishing love story of a Rumanian musician, descended from Austrian royalty, who three years ago was a bus boy in a "strong arm" lunch room, has been revealed in the filing in Boston of his intention to marry the sister of a Brookline millionaire.

The parties to this most unusual romance are Alexander G. Romanesque, aged 26, now of 78 Oxford street, Cambridge, and Miss Bessie A. Walton, 43, of the Franklin Square House, Boston. Mr. Romanesque is the great-grandson of a Princess of Austria who renounced her title to marry a court violinist.

Miss Walton is a sister of David H. Walton of 310 Kent street, Brookline, millionaire owner of the chain of restaurants which bear his name. She is also related to Mrs. Larz Anderson, according to Mr. Romanesque.

The couple are planning to be married on Sunday, March 26, at Trinity church, Boston.

## Tells of His Romance

Seated last evening in his office at Oxford hall, Cambridge, where he conducts a dining-room for Harvard students, Mr. Romanesque reluctantly told the story of his romance.

According to his story, Mr. Romanesque was born in Rumania. His father and grandfather were renowned violinists, and the boy had everything he wished. He had heard much of American opportunities, and a great ambition drove him from the comforts of his native land to this country, nine years ago, when he was 17 years old.

He was well educated, according to the standards of Rumania, but he was refused admittance to American colleges because of his lack of knowledge of English. He was refused admittance to Harvard.

About three years ago he obtained employment in the Walton lunchroom, Massachusetts avenue, Cambridge. "There I picked up dishes, washed them and scrubbed and swept the floor," said Mr. Romanesque. "It was very hard work and the hours were long."

He had been working for the Walton system about a year, according to his story, when one day Miss Walton came to the lunchroom. Young Romanesque asked a fellow employee who the lady was and when he was told she was the sister of his employer, he said, "I am going to marry that lady."

## Opens Own Restaurant

Inspired by the old ambition and the new incentive, young Romanesque gave up his position with the Walton company and enrolled as a student of the violin at the New England Conservatory of Music, where he is now a third-year pupil.

"I realized, however, that few musicians make much money," said Mr. Romanesque. "So I decided that, as Mr. Walton had become a millionaire in the restaurant business, so might I. Accordingly I opened this dining-room for Harvard students in Oxford hall. I have been very successful and besides the students my regular patrons include a nephew of the late ex-President."

## FEW FOLKS HAVE

## GRAY HAIR NOW

Druggist Says Ladies Are Using  
Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Adv.

## Bilious Attacks

Are Usually Due to Constipation

When you are constipated, there is not enough lubricant produced by your system to keep the food waste soft. Doctors prescribe Nujol because its action is so close to this natural lubricant.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

## "INAUGURAL" BY HAYS

Movie Chief Says Motion  
Picture Industry Accepts  
Challenge of Public

NEW YORK, March 17.—The motion picture industry looks upon the demand made upon it by the American public as a challenge, declared Will H. Hays, the new chief of the industry, here, last night. A gathering of more than 1000 persons heard Mr. Hays deliver what was regarded as his "inaugural address."

"The industry accepts the challenge," said Mr. Hays, "in the demand of the American youth that its pictures shall give the right kind of entertainment and instruction. It accepts the challenge to the rightous demand of American mothers that the entertainment and amusement of that youth be worthy of their value as the most potent factor in the country's future. The opportunity is great and so in like measure, is the responsibility. That responsibility is accepted."

## HUSTLE FOR TRADE IS APPEAL TO AMERICA

CONSTANTINOPLE, March 17.—All chambers of commerce in the United States will be asked by the American chamber of commerce here to co-operate in a campaign to educate the American public in the importance of foreign trade. The project was set forth at the annual meeting of the American chamber.

Rear Admiral Mark L. Bristol, the American high commissioner, declared in an address:

"All far-sighted business men at home and abroad must turn to educating public sentiment in America to a knowledge that foreign markets are essential to the prosperity of the country."

This campaign of education must be pushed with the last possible delay because other countries are already forging ahead and are making distinct progress in spite of the handicaps which large armies and unfavorable exchange rates have been to them.

"How to do business in foreign countries must be learned by Americans as a new lesson in commerce and trade. It will take time for our business men to train their foreign agents, yet we cannot afford to wait very long."

"Our competitors are playing a game in which they have been trained for generations. We are almost novices, but we have never admitted any possibility of failure and we shall not admit it now."

"The greatest factor in overcoming all obstacles is a concerted campaign of education and inspiration by chambers of commerce in every country."

"For successful American competition in foreign markets, it is essential that we should have abroad at least seven activities in every market: Banks, trading firms, steamship agencies, steamship lines, direct parcel post service, insurance companies and efficient and aggressive chambers of commerce that will bring about union of action for the common good of all business."

Rear Admiral Bristol urged that increased emphasis be placed on the study of languages in the American schools and colleges as Americans must speak the tongues of the countries in which they seek markets if sound and permanent business connections were to be established.

## ANNUAL "BOYS" DAY AT THE Y. M. C. A.

The boys of the Y.M.C.A. will observe tomorrow as the annual "boys" day during which subscriptions will be collected from the many helpers of that organization. Each year the boys make an appeal for funds with which to carry on their work.

"Boys" day is observed throughout the state by the boys of the various Y.M.C.A.s. Last year the local boys picked up \$1200 which was more than that collected by any other boys' club in any city. Seventy per cent of the money is used for local aid while the remainder is sent to other parts of the country to help where money is not so plentiful.

The committee in charge of the campaign includes: General manager, Guy Butler; district managers, Albert J. Ryan, Jr., Robert Simpson and Edward Lamson; team captains, A. Donald Alexander; B. Edward Holden; C. Harold Bishop; D. Louis Yaff; E. Olat Myler; F. John Mountford; G. Amos Fleming; H. Samuel Gray; I. Ralph Butler; J. Evangelos Bleekedis; K. Wallace Sweet.

## JOINS THE G. O. P.

Theodore A. Bell Was Former  
Democratic Leader

SAN FRANCISCO, March 17.—Theodore A. Bell for many years a leader of the democratic party in California, has registered as a republican. He gives as his reason "because I believe that the present foreign policy of the republican administration makes a long stride towards the maintenance of the world's peace."

He has served as a democratic congressman from California and was democratic candidate for governor in 1918.

Allegheny river is navigable for 150 miles above Pittsburgh.

dent Grover Cleveland as well as many members of the Harvard faculty. I also intend to open a fine restaurant in the fall."

According to Mr. Romanesque's story, his proposed marriage to Miss Walton to whom he has been engaged since last August, was met with opposition by Mr. Walton and by Mrs. Larz Anderson. Mr. Walton, however, according to Mr. Romanesque, is not now opposed to the match, although Mrs. Anderson, he says, has not changed her views.

Mr. Romanesque said he was proud of the fact that only three years ago he was a bus boy. He is also proud of his family, which is distinguished and honored one in Rumania. His mother, Mrs. Catherine Romanesque, is now a resident of North Groverdale, Conn.

The disparity between him and Miss Walton's age is not considered unusual by the young man. "Our ages need not be considered," he said. "Miss Walton is a fine, a splendid woman, and we love each other."

The couple plan to honeymoon in New Hampshire and then to make their home in either Cambridge or Brookline.

## Banker's Daughter Runs Unique Dancing School

NEW YORK, March 17.—Beatrice Wanger, daughter of a house of bankers, is devoting her life to teaching working girls self-development.

## REMOVES PINS AND FALSE TEETH FROM STOMACH

PHILADELPHIA, March 17.—Publicity attached to the recent successful operation on a little Kansas City girl here for the removal of a pin from her stomach, has drawn attention to a curious surgical instrument, invented for such a purpose. While the instrument, the bronchoscope, as it is called, is little known to the lay public, physicians and its use for the removal of foreign objects from the lungs and stomach is quite common and that clinics are held throughout the country.

The bronchoscope appears simple enough to the eye. Roughly, it is a straight metal tube, more than one-quarter of an inch in diameter and about 13½ inches long. A tiny wire runs down the tube and there is an electric light at the bottom which enables the surgeon to see into the interior of the lungs, bronchus or stomach. The foreign object is first located by means of X-rays, and then the tube is inserted through the mouth into the lung or stomach. An especially de-

One was a little waitress of 19, who got a \$12 a week; another a young stenographer; others were similarly employed.

"These girls have the same right to beauty as those who can afford to go to fine schools," said Beatrice Wanger.

"If you could only see the change in them! I am not a teacher of the dance, but of self-development. I merely use aesthetic expressions of harmony to demonstrate that co-ordination of mental work is as necessary for strengthening the mind as physical work for building the body.

"Rhythm is the first expression of feeling. A right sense of values—balance—leads to creative freedom and broader individuality. It means the right relation to the world, to the right relation to the world.

"These girls want nice minds in nice bodies; they aspire to be of service in the world.

"Some of these girls are of the age to feel the lure of jazz and dance halls—yet, tired out from their work, they prefer to come here. Two just refused \$50 a week to go to South American chorus girls—and now they make \$12 a week!"

Two thousand girls have passed through Miss Wanger's studio doors to better living in the past six years. Miss Wanger's work is not a commercial one—it is rather a co-operative group demonstrating the spirit of service in daily life as well as through art expression. Each girl pays a bit, in accordance with her income.

signed pair of forceps is then inserted through the tube into the part affected and the object removed. The operation is often bloodless and requires but a few minutes. It has been known for a patient to leave the hospital within a few minutes after the operation, and when he had entered his life was in jeopardy from the introduction of a foreign substance into vital parts of his body.

Among various objects that have been removed from the lungs or stomachs of patients in this city are safety pins, common pins, hat pins, false teeth, tacks, sewing needles, staples, hypodermic needles, coins and watch chains.

## COALITION UNIONISTS WIN IN BYE ELECTION

LONDON, March 17.—(By the Associated Press) The Coalition Unionists won by a plurality of 2845 in the recent Cambridge bye-election against a divided opposition.

The election was for a successor to Sir Eric Geddes coalition Unionist, former minister of transport, resigned. The successful candidate was Sir Douglas Newton.

At the general election in 1918 Sir Eric Geddes defeated the labor candidate by a majority of 7784.

## PRES. GRIFFITH BARS ARMY CONGRESS

DUBLIN, March 17. (By A. P.)—Arthur Griffith, president of the Dail Eireann, has addressed the following note to the ministry of defence:

"It is quite evident to the unanimous Dail cabinet that at the army convention contemplated for March 26 it is proposed to endeavor to remove the army from the control of the government elected by the people, which is the Dail Eireann.

"Such purpose is illegal, and you are hereby instructed that the holding of the convention is forbidden."

Carson Plays Coalition

LONDON, March 17. (By A. P.)—During yesterday's debate on the Irish Free State bill in the house of lords, Lord Carson, bitterly attacked the coalition government, declaring it had abolished constitutional government and had laid down the principle that by executive action could be brought about not merely constitutional changes but revolution.

Lord Carson declared that in effect the government had told South and West Ireland: "You have known how

to bring the British government to its knees; surely you can do the same with Ulster."

Lord Carson denounced the Free State bill, but said he was not going to argue that the lords ought to reject the bill. But he hoped they would not be so lacking in courage as not to insist that they should never allow, without consent, one acre of land to be taken from Ulster.

After Lord Carson's speech the house passed the second reading of the bill without division.

Lord Birkenhead said it was preferable that the maintenance of order should be in the hands of Irishmen themselves, and he instanced an existing parallel in the Rand, pointing out that if South Africa had not been under self-government the imperial government would have been compelled to hurry troops to the scene, instead of the South African authorities themselves suppressing the revolt.

## TWO BOYS DROWNED

Boy of 9 Made Hard Fight to Save Himself and Older Brother by Clinging to Ice

BOSTON, March 17.—After a desperate struggle on the part of the younger boy to save both his brother and himself by clinging to the crumbling ice, Charles Mackey, aged 9, and John Mackey, aged 11, of 13 Kensington street, Roxbury, were drowned yesterday in Scabro pond, Franklin

park. The bodies were recovered an hour later.

The boys drowned with help almost within reach. Henry T. Farquharson of 18 Almont street, Dorchester, saw the two boys struggling in the water. Scabro pond is nine feet deep at that point and Mr. Farquharson realized that he could do no good by jumping in through the weak ice, although the boys were only 10 feet away.

At that time John had just given up the struggle and was slipping back into the water.

Charles, however, kept screaming for help and, with one hand grasping the ragged edge of ice, he held his brother's head above the water with the other.

## Life Preserver Falls Short

Mr. Farquharson threw a life preserver across the ice. It turned over once or twice, and then rolled toward the struggling boy, but stopped a few inches from his hand.

Charles' strength meantime was rapidly failing. His brother, unconscious from the cold and the struggle, became too heavy for his hand and the older boy disappeared into the water. Charles made a last attempt to reach the life preserver but failed, and he, too, went down.

Mr. Farquharson's shouts for help brought Charles Hogan and other employees of Franklin Park to the edge of the pond, but both boys were out of sight.

## Bodies Recovered

Patrolman John J. McGovern of the Franklin Park sub-station summoned the police ambulance, Sergts. Fitzpatrick and Gilman, with several patrolmen, waded out through the breaking ice until the water was above their

hips. Grappling irons were thrown out by them. One of the irons caught the body of John and it was pulled ashore.

A boat was carried to the spot and the other body was recovered.

The boys, pupils at St. Joseph's parochial school, had a holiday yesterday and left home at 10 o'clock to play. They reached the pond about 1 p.m. and were discovered struggling in the water about 1.30.

They were the only children of Mr. and Mrs. Henry J. Mackey.

## PLEAD FOR AMNESTY FOR POLITICAL PRISONERS

WASHINGTON, March 17.—In the face of abundant and outspoken opposition, lawyers and representatives of various liberal organizations pleaded with the house judiciary committee yesterday to report a resolution asking the president to give "careful consideration" to the propriety of granting immediate amnesty to 113 political prisoners, serving long terms for violation of the Espionage Act.

Committeemen indicated that the resolution never would pass, insisting that congress has no right to direct the president in such matters, especially because of the lack of opportunity to review the cases.

Gilbert E. Roe, an attorney of New York, who advocated the general principle of amnesty, said when questioned that he says no improperly in requesting the president, the attorney general and the secretary of war to look into the appeals because "the resolution seems harmless as the four-power treaty."

Speaking for the American Federation of Labor, Edgar Wallace declared that war laws were necessary, that they should have been enforced, but now in peace time there was no good reason for keeping wartime offenders in jail.

Another verbal clash centered around Harry Weisberg, a New York lawyer, one time counsel for Grover Cleveland Bergdoll, the draft dodger, who added that he had "nothing whatever to do with Bergdoll's escape." In a tilt with Representative Reavis, republican, Nebraska, Weisberg said he would express his "opinion on political and economic questions at any time and in any place, despite the supreme court of the United States."

Miss Caroline Lewis of Kansas City, counsel for a number of I.W.W. members tried at Wichita, charged the men arrested in the famous Oklahoma case "were all workers and that the animus back of their arrest" was the determination on the part of all operators to crush any attempt on the part of the workers to organize."

## OHIO TO COMMEMORATE GRANT'S BIRTHDAY

COLUMBUS, O., March 17.—Ohio will celebrate the centenary of the birth of General U. S. Grant, in the counties of his birth and youth, April 27, 28 and 29.

Grant was born at Point Pleasant, Clermont County, O., a "huddle of houses, 25 miles east of Cincinnati on the Ohio river."

If plans are carried out, a distinguished body of men will travel up the Ohio river from Cincinnati April 27 in the steamers Island Queen and Morning Star, to do homage to the memory of one of the most illustrious men born on Ohio soil.

President Harding, who is to deliver the commemorative address, will be on the Island Queen, as will General Pershing and most of the descendants of General Grant.

Exercises that day will be held on the plot of ground on which formerly stood the little cabin in which Grant was born. The cabin is on the state fair grounds here now, enclosed in a glass house, covering a detachment of soldiers from Fort Thomas, Ky., are to accompany the president, as well as a military band. Four hundred survivors of the Civil war also will go on the boats as guests.

The following day there will be a celebration at Bethel, Clermont county, a village of about 1500 persons, where was born the mother of General Grant, Hannah Simpson, and where the general lived from 1841 to 1848. His two oldest children, Frederick D. and Nellie Grant, were born there. The chief orator that day is to be Senator Frank B. Willis of Ohio.

On the day following, the final event will take place at Georgetown, Brown county, where the boy Grant was taken at the age of one and a half years, and where his entire youth was spent. He went to West Point from there. United States Senator Alice Pomeroi is to be the chief speaker.

The counties of Clermont and Brown now are constructing with state aid, a highway from Cincinnati to Georgetown, about 28 miles in length, at a cost of nearly \$1,000,000. This road has been officially designated as the Grant highway, and is along the route traversed by him on horseback in going from Georgetown to Cincinnati when a boy.

The two souvenir coins, issue of which has been authorized by congress, a silver half dollar and a gold dollar, will be sold at a premium, and the funds used to erect a memorial county house in Bethel, and Georgetown, and in the construction of a road from New Richmond to Point Pleasant, a distance of five miles, to be known as the Grant Memorial road.

JAMES J. McGUIGAN, Mgr.

# President of Dail Eireann Sends Greetings to America

BY ARTHUR GRIFFITH

President of Dail Eireann

(Copyright, 1922, Lowell Sun)

DUBLIN, Ireland, March 17.—Ireland sends greeting to America on this St. Patrick's day, for her the brightest for many centuries. The new Ireland acknowledges and appreciates the steadfast sympathy and support she has received from the American people through all the years of struggle.

And she reaffirms the long-standing amity existing between the two countries.

On St. Patrick's Day last year Ireland was in the grip of terror, but she was sustained by the fundamental justice of her cause and by the sympathy of the people of the world and pre-eminently of the American people.

ARTHUR GRIFFITH

This year the terror is gone and Ireland takes control of her own destiny and place among the nations of the world.

The American people will now realize her faith in justice, and that Ireland was justified.

We have a great work before us to rebuild a nation oppressed for centuries.

We, the Irish people, take up the work joyfully.

Our friends in America will find that Ireland restored to the Irish people is also Ireland restored to the world.

The close friendship existing between Ireland and America is built on love of right and justice.

Ireland stands for those ideals now as heretofore.

Friendship built upon these ideals is built upon enduring foundation.

## Irish Historical Society

Continued

ple ascended to the hall, where many long tables were spread with snowy white in preparation for the banquet. At the head table were Joseph Carroll, Patrick O'Hearn, Jeremiah J. O'Sullivan, Rev. James A. Supple, D.D., A. Tighe, Dr. William P. Lawlor, Rev. Appleton Granniss, rector of St. Anne's church, Hon. W. T. A. Fitzgerald, Hugh J. Molloy, George P. O'Dwyer, Mayor George H. Brown and Rev. Francis J. Mullin of St. Michael's church.

The invocation was delivered by Rev. Dr. Supple, in the absence of Rev. Dr. Molloy, Monsignor William O'Brien, who was absent on account of illness. After the invocation the diners sat down to an appetizing feast of hot roast, turkey, cranberry sauce, and olives, grapefruit, lettuce, and potato, bluepoint sauce, hot mashed potato, green peas, banana fritters, sauce, harlequin ice cream, frozen pudding, sultana roll, sauce, assorted cakes, rolls, butter and coffee. Between the courses there was assembly singing, led by James A. Murphy, and "Believe Me If All These Endearing Young Charms," "Come Back to Erin" and "The Harp That Once Thro' Tara's

registrar of deeds in Suffolk county and president of the American Irish Historical society of New York city.

Mr. Fitzgerald began in a happy vein, speaking of the familiar faces in the audience, Supt. Molloy, Hon. Dennis J. Murphy, Edward J. Tierney, the last named pair his former classmates, and others, including Messrs. James O'Sullivan and Humphrey O'Sullivan. He said that he was scheduled to be in Baltimore last night, but had been persuaded by Mr. James O'Sullivan and his delegation that he must come to Lowell.

Entering upon his address, in response to the toast, "The Commonwealth of Massachusetts—Leader Among States in Civil and Religious Liberty," Mr. Fitzgerald spoke in part as follows:

"Massachusetts needs no encomium from me; there she stands, all the world knows her history, there is Concord and Lexington and Bunker Hill." Thus spoke the great Webster in his memorable speech in the United States senate nearly a century ago. Tonight we can amplify the great statesman's reference to Massachusetts towns by adding "There is Boston and Lowell, and Cambridge and Lawrence, and Fall River and Worcester, and Springfield and Holyoke, and many other thriving cities which have become centers of industry, education and American patriotism, due largely to the efforts of honest, law-abiding Irish immigrants, and their sons and daughters."

"Since Webster's day there is not a Massachusetts city or town that has not been benefited by the rugged honesty and labors of men and women of the Irish race. Our race has furnished its cities with able chief executives, the bench with learned judges and every honorable business and professional position with leaders in their respective lines. The city of Boston has supplied Patrick Donohue, John Doyle O'Reilly, Patrick A. Collins, Jeffrey Roche and Thomas B. Fitzpatrick. Worcester has furnished the commonwealth with an able governor and the nation a brilliant U. S. senator in David I. Walsh, and your own city claims as its son the prince of the church, one of the world's leading prelates, the Most Reverend William Cardinal O'Connell. You have given the O'Sullivans and the name of Molloy, the educator."

"The citizens of this commonwealth who are of Irish origin have just cause to be proud in the part the Irish people have played in the past history of Massachusetts and in the history and progress of our great nation."

"With no desire to detract from the credit due to the people of other races, but with a sole object of seeking and publishing the facts, our society undertakes its work in a broad and patriotic spirit, and its accomplishments during the past quarter of a century have amply justified the necessity for its existence. This historiography of the society, Michael J. O'Brien of New York city, has put into cold type the indisputable evidence and records showing that, instead of being a comparatively new race on the shores of the western hemisphere, the Irish were pioneers in the work of colonization and extending civilization and Christianity into the wilderness."

"The first school teacher in New England was Mary Beale of Cambridge, the wife of William Beale, described in the Massachusetts records of the year 1640 as 'German'."

"The first settlement within the territory of the present state of New England was made by a mixed Irish and Scotch company which sailed from Carrickfergus in Ireland."

"The first naval battle of the American Revolution was fought and won by the five sons of Mary O'Brien from Cork at Machias Bay, Maine, May 11, 1775, and the last naval battle in the Revolution was fought and won by Capt. John Barry from Wexford."

"The first all-Ireland appointment by the British government was Joseph Rodd, who was the son of an Irish immigrant, and the second, third, fourth and fifth all-Ireland appointments were also the sons of Irish immigrants."

"From the earliest colonial days in Massachusetts friendly feelings existed

## Hail! Mother Erin

(Air—Erin, the Dear)

Hail! mother Erin thy bondage is o'er  
Hail! to the Freedom that lights up thy shore;  
Radiant the sunburst dawn,  
Clouds of oppression gone,  
Struggle of ages won—  
Free as of yore.

Wake thy proud harp in its old bardic strain,  
Send a wild cheer over mountain and plain,  
Hailing thy victory grand,  
Won by thy patriot band,  
Ever our Ireland  
Free to remain.

Ireland a nation, our greetings to thee,  
Glorious thy destiny, Isle of the Sea;  
Proudly thy cause of right,  
Vanquished the power of might—  
Now for the future bright  
Of Ireland Free.

—E. J. G.

between the colonists and the people of Ireland to whom the early Massachusetts records refer significantly as the Irish nation. People of Ireland were always ready to extend relief in the time of need. When the Massachusetts colonists were in dire need during King Philip's war, Ireland was the only European nation that sent relief to the colonists. The relief ship Katherine sailed from Dublin for Boston on August 23, 1676, with a full cargo to relieve the needs of the colonists. It is recorded that in Massachusetts 47 towns and 2551 persons were aided by this timely Irish relief that was distributed by three commissioners sent by the lord mayor of Dublin to take charge of the distribution of the Irish donation, as it is called in the official records of the colony of Massachusetts.

The speaker next gave a series of names and dates which refuted, he said, the charges of John Sharp Williams, that not over three per cent of the Revolutionary army were Irish.

"Our Irish ancestors and predecessors have left us a wonderful record of loyalty and self-sacrifice," he continued, "and it should be our constant aim to live up to the high standard that they have set for us."

"Let us all here tonight pledge our undivided allegiance and loyalty to Massachusetts as our commonwealth, and to the United States as our nation, reserving however a deep and abiding love and veneration for Ireland, the land of our fathers, and fondly cherishing the hope that God in His infinite wisdom will guide the people of Ireland along the path that will lead in the near future, if not immediately, to freedom and independence, so that the Emerald Isle may once again be known as the Irish nation and speed the day when the epitaph of Robert Emmet may be written as his country takes its place among the nations of the world."

### The Fourth Commandment

Joseph Smith, publicity officer of the port of Boston and a former Lowell resident, was next in order. He selected for his topic the fourth commandment, "Honor Thy Father and Thy Mother," and after a few preliminary remarks he entered upon the discussion of his topic.

Mr. Smith said that the commandment on which he was to speak was embodied in the Decalog, most ancient of moral codes. "It existed in

Babylon and Nineveh and in the buried cities beneath them; the Decalog is a set of fundamental laws found in the religious and jurisprudence of every ancient people who established a civilization. Without these laws, peace and progress, integrity of society, and security and happiness in the home would be impossible."

"Our fathers and mothers," said Mr. Smith, "owe obedience and reverence in life and honor and remembrance in death; and a society which bases its purposes and activities on the age-old commandment should grow in usefulness and numbers with the passage of the years. Any society which is not organized for the benefit of its members, and which is not organized for the benefit of the community at large, is not a society."

Rev. Appleton Granniss said that he had always felt that everyone should be in touch with every element in the city. He spoke of the long intimacy between Fr. John O'Brien and Dr. Edson, saying that they had one thing in common—the combat with the opponents of episcopacy. He said that he had been much interested in the speeches he had heard during the evening, and had learned much, particularly from Mr. Fitzgerald's address. Although he possesses but a small strain of Irish blood, everything said had been of interest to him.

Mr. Granniss said that he should liken this country to a great orchestra, rather than a melting-pot. Each group is doing its part, and although, naturally, there is some discord, time will bring perfection. Ireland's sons and daughters are doing their full share. He paid tribute to the warmth of heart shown him by Irishmen in everyday life, and said that this

was one of their best characteristics. He felt that he could forgive a man for a mistake committed through this characteristic, where it would be hard to find forgiveness for other men not possessed of the same quality.

### Other Speakers

Jeremiah J. O'Sullivan responded to the toast, "The United States—Our Country—Haven of the Oppressed of Every Land." In celebrating the anniversary of Ireland's patron saint, the speaker's attention might be called to the fact that in the composite nature of our country there is no greater factor than the Irish love of human liberty. He followed with a glowing tribute to the country, apostrophizing it as the land which extended a welcome to the oppressed nations of the world, and the hand of friendship to the refugees from political and religious oppression.

Hugh J. Molloy, superintendent of the Lowell public schools, then delivered an eloquent and scholarly address on the purpose of the society and the record of the Irish race in America. He recited many instances in which records exist to refute the assertions of those who belittle the achievements of the Irish in this country, concluding with the statement that if the Irish of today can serve the cause of historical truth along the lines established by the society, and emulate the work of the men and women long dead, they, themselves, will be better Americans.

Mayor George H. Brown was the last speaker, and spoke briefly because of the lateness of the hour. The topic assigned him was, "The City of Lowell—Famed From Coast to Coast For the products of her mills," but Mr. Brown said he did not wish to keep the audience longer than five minutes at that time of night, and that the preceding speakers had said all that was necessary, probably more appropriately than he could have done. He felt that he could not do justice to the race of his traditions. He felt that the race owes the success it has achieved to its heart. He had associated with Irishmen in daily life in the city, also in the Spanish war and the Philippine insurrection, and has come to believe that they have attained their success in life to the Christian training and strength of character inherited from their ancestors. He thanked the society sincerely for the honor conferred upon him, and extended the greetings of the people of the city as they may.

He expressed his best wishes for their success in the future as in the past. The Lyceum concert contributed many beautiful musical numbers during the evening, all of Irish music, and led the assembly in singing "The Star Spangled Banner" at the close of the exercises.

The officers of the American Irish Historical society of Lowell, which had charge of the affair, were as follows: President, Mr. Michael A. Tighe; vice president, Hugh J. Molloy; secretary, George P. O'Dwyer; treasurer, Patrick O'Leary; Miss Frances Masterson and Joseph E. Carroll. The members of the banquet committee were as follows: James O'Sullivan, chairman; Frank M. Brogan, secretary; Miss Frances Masterson; Dr. William P. Lawlor and John J. Green.

The banquet was served by the John Catering Co.

Those who attended last night's banquet are requested to send their names to Secretary O'Dwyer for historical records.

### Irish Night by K. of C.

Continued

presented Mr. O'Brien as the speaker of the evening.

Mr. O'Brien's address was a lack of space prevents more than a cursory sketch of Mr. O'Brien's address. He referred to the statement recently made by Senator J. Sharp Williams of Mississippi that it was the "Scotch-Irish" who aided in the revolution and that the Irish that now aid and Dr. James McFadden, afterwards secretary of war in Washington, the credit had nothing to do with it. He proceeded to explode the

Scotch-Irish claim by showing that the Scotch who migrated to the north of Ireland were of Celtic origin and that many of the men who attained distinction in the War of the Revolution were either born in Ireland or were the sons of men born there. He referred to the claims recognized by historians that St. Brendan reached these shores before Columbus. He further showed that in the garrison left by Columbus at San Domingo after his first voyage was one William Byres, a native of Galway.

In tracing the early immigration from Ireland, the speaker said President Polk was descended from Robert and Magdalen Pollock of Donegal, who came here with six sons and two daughters. The settlements in Maryland, led by the Charolls of Carrollton, one of whom signed the Declaration of Independence, were described.

Among the other noted colonists mentioned as coming from Ireland in those early days were James Logan of Lurgan, Ireland, who came with William Penn to Pennsylvania in 1699 and became governor of that colony after Penn's death.

The first settlers in the Shenandoah valley were from Ireland and the region of the Blue Ridge mountains has over half a dozen towns named after Irish emigrants. The speaker continued the record of colonization by Irish emigrants from the earliest days of the colonies up to the outbreak of the Revolution. Even in Massachusetts, he said, they took a prominent part in making the colony.

In 1634 the general court of Massachusetts Bay granted lands on the Merrimack river for an Irish settlement and there were several hundred Irishmen who served in the King Philip's war as indicated by official records. Irish settlers were found in Newbury, Mass., in Worcester, and various other cities. In 1737 they formed what is now known as the charitable Irish society in Boston.

The speaker described the course of Irish emigration leading to New York and New England as well as to southern states in the latter part of the 18th century fully establishing the claim that it was the real Irish and not a mythical race that helped in the upbuilding of this republic. Quoting the historical Harrold, he said: "They brought to America a subsistence love for England, and we find a first voice publicly raised in America to dissolve all connection with Great Britain, came not from the Harrold of New England or the Dutch of New York, or the planters of Virginia, but from the Irish Presbyterians."

The Boston massacre was the first spark in the great blaze that came five or six years later and among the victims of that collision was an Irishman named Patrick Carr. While several Irishmen among the invited guests to that tea party helped in flogging the tea overboard.

On May 10, 1775, congress in session declared that the Irish nation has produced many patriots who have nobly distinguished themselves in the cause of humanity and America. The first act of hostility against the British was the capture of Fort William and Mary by John Sullivan on Dec. 11, 1774. This has been termed the first blow struck in the cause of independence and it was struck by the son of an Irishman from Limerick.

Lexington and Concord were the next witnesses of this valor, while an Irish company under John Stark performed the noble services at the battle of Bunker Hill. Here the speaker read a long list of others including colonists and captains all of distinctive Irish names who participated in the battle of Bunker Hill.

When Washington reached the camp at Cambridge in July of that year, he had with him two men of Irish birth, Colonel John Fitzgerald, whom Washington described as his most efficient aide, and Dr. James McFadden, afterwards secretary of war in Washington's cabinet.

## FLAHERTY SEES IRISH SUCCESS

By JAMES A. FLAHERTY

Supreme Knight, Knights of Columbus. St. Patrick's Day this year augurs more happiness for Ireland than any St. Patrick's Day I have ever known. With all its defects, the present system of autonomy which England was obliged to grant Ireland has merits sufficient to be given a test. Admitted that it does not give the Irish people the extent of their just claim—absolute independence. But it must be considered that the English mind has undergone a marked conversion to common sense when it can go back on its old Tory traditions to the degree it has.

**Praised for Leaders**  
Naturally, those who have suffered and fought for complete independence for Ireland feel disappointed. Many of the best and most unselfish leaders of the Irish people are identified with the administration of the Irish Free State.

Certainly, the cause of Ireland throughout the world has been aided and the prestige of the cause immeasurably increased by the demonstration of statesmanship and military courage of the Irish leaders. Weak and feeble they were yet able to bring the heads of the world's mightiest empire to terms.

The Knights of Columbus rejoice that the slaughter in Ireland has been halted, and they look forward to the common sense that England has shown being shown also in Ulster—where there the seat of the Irish trouble lies.

Of over 1400 soldiers selected from the frontiers of Virginia, fully three fourths were of Irish parentage and they were commanded by Col. Thompson, a native of Ireland.

The speaker described the events leading up to the evacuation of Boston and the parts played therein by men of Irish birth or extraction. When Washington crossed the Delaware he had by his side Irishmen named Sullivan, Green, Know, Fawcett and Hand, while Bennington and John Stark still live in the annals of the nation as among her foremost heroes. From Irishmen and the descendants of Irishmen, he said, there has ever been one answer:

"Americans we are, first, last and all the time, but Americans proud of our ancestry and insistent upon the rights to have that pride for the work that it has done. For we know that the Irish race in America has a glorious past, a fruitful and loyal present, and the prospect of a glorious future."

The speaker quoted from English authorities who said America was lost by Irish emigrants. He also told of the work of the Irish in the navy and referred to the exploits of Captain Jack Barry, father of the American navy. Mr. O'Brien was given a great ovation in closing.

It was Charles Thompson, the Irish-born secretary of congress, who was called upon to read the Declaration of Independence on its adoption at Philadelphia July 4, 1776; and among the signers of that immortal document are the following names of Irishmen or the sons of Irishmen: Matthew Thornton, James Smith, George Taylor, George Reed, Thomas Keen, George Ross, Charles Carroll, Edward Rutledge and Thomas Lynch.

Rev. Fr. Heffernan delivered a stirring address.

During the evening a program of entertainment was carried out with the following members of the council contributing: Daniel P. Brennan, Patrick Grady, John P. Roane, Thomas A. Deane, John Doyle, Timothy Finnegan, John Broderick, T. A. D. Sullivan, William Lomey and Broderick's orchestra. Luncheon was served after the entertainment.

## HIGH SPOTS IN THE HISTORY OF IRELAND

## STARTS TO REBUILD LOST FORTUNE AT AGE OF 101

BAKU, Azerbaijan, March 17.—At the age of 101 years, Hadji Tagiev, Baku's former oil king, who was ruined by soviet nationalization of his property, has started to rebuild his fortune where he began—as a stone mason.

Hadji Tagiev is an optimist. "A man isn't old so long as he can work," he declared and, like a true Mussulman, he continues to dye his white beard brown.

He is using his spare moments in learning to write. For more than 50 years he had signed his name to business papers by making his mark with a blunt stick, dipped in ink.

"One must keep up with the times," he explained to curious friends when the centenarian began to take lessons. Tagiev is known to Americans through his reputation in the Baku palace two and a half years ago of the General James H. Harbord mission. He was and is known throughout Russia and the middle east as an example of a poor man who became immensely wealthy first as a house

builder and then, 60 years ago, through the purchase of a piece of oil land that yielded abundantly. This was in the days when oil was gathered close to the surface and taken from wells in buckets.

When the Azerbaijan republic was converted into a children's orphanage and its treasures of art and tapestry scattered. While trying to take some of his silver plate and paintings to the country in ox carts apparently laden with straw, a red sentinel at the outskirts of the city discovered and seized the escaping wealth. Tagiev was beloved by the workmen of Baku and was not harmed in person.

He is now living in the village of Marda Khani, near here.

ENTERTAINMENT IN CHURCH VESTRY

The Up-Streamers of the First Congregational church presented the three-act comedy, "All Ranged Up," in the vestry of the church last night before an appreciative audience. Mrs. L. D. Haskell directed the presentation.

The cast of characters is as follows: Maj. Hollis Halliday, Edward Abbott; Mrs. Halliday, Elmer Trotter; Clara, Clarence Barrows; Lester McVey, Robert Burns; Kitten Plantum, Roy Cockburn; Verlo, Edward Smetts; Lieut. Rapley, Robert Kinsworthy; O'Toole, Joseph Hollingsworth.

## OUR BOARDING HOUSE

## SALE OF CHILDREN AT HONG KONG DENOUNCED

LONDON, March 17.—The sale of boys and girls at Hong Kong has been denounced as "an abominable scandal in a British possession" at a meeting of the Anti-Slavery Abolition Society here.

St. Leo Sirroney, editor of the Spectator, wrote that if the facts were as represented, the state of affairs in Hong Kong represented the vilest form of slavery in existence when young people were deliberately sold and subjected to the cruel lust and greed of their purchasers.

A resolution was passed declaring that continuance of the system amounted to the continuance of slavery under the British flag.

It was estimated at the meeting that those held in bondage under this system numbered 50,000.

A score of societies were represented at the conference which was held to determine what steps should be taken to stop the sale of children.

Viscountess Gladstone, who presided, declared that the system ought to be abolished. She said she did not think that any British man or woman could have believed it possible that anywhere under the British flag children four years of age and upward could have been openly sold and handed over as chattels to their purchasers to become drudges or victims of prostitution.

She said, however, that the matter was not so simple as it looked because "the adoption" system was not a wrong thing in itself.

Charles Roberts, formerly under-secretary for India and president of the Anti-Slavery society, said it was an established fact that Chinese girls and boys were sold and bought in Hong Kong from \$10 to \$15 per year of age and it was a significant fact that higher prices were obtainable when girls were sold for purposes of prostitution. Yet they could not get the colonial office to admit that the system was one of slavery. It was enough for him that it constituted traffic in

## Has Used Allen's Lung Healer For Six Years

And found it an untailing remedy for lung colds.

If everybody would follow Mr. McKenzie's example the mortality from pneumonia and consumption could be greatly reduced.

Read His Letter  
West Lynn, Aug. 22, 1919.

Having used Allen's Lung Healer for the past six years I can honestly say it has proven an untailing remedy for a cold or cough on the lungs. If I neglect a cold for a few days it goes down into my lungs and I have a bad cough. Then I get a bottle of the Lung Healer and in a few days the cough is gone. It is the only medicine I ever used that reaches my lungs and cures the cough so quickly. I am sure it has saved me from a great deal of suffering and sickness and I heartily recommend its use to anyone suffering with a lung cough or cold.

## PLAN TO PUBLISH FACTS OF THREATENED STRIKES

NEW YORK, March 17.—A plan which the government is working out to supply the public with disinterested information when strikes threaten industry, was described yesterday by Labor Davis at a meeting yesterday of the women's department of the National Civic Federation.

It consists of maintaining specialists trained in each of 32 "key" industries in the nation, he said, thus enabling the government to have on hand a complete file of accurate information and data concerning conditions in any given line.

"If we had 32 such key men," he said, "it would be a simple matter to appoint a government board or com-

## Stroheim Plans Another Picture —But No Million Dollar Stunt

GREGORY SCOTT, AN ENGLISH MOVIE HERO, WHO CORRESPONDS TO WALLIE REID.

LEATRICE JOY, WHO WILL BE LEADING WOMAN IN CECIL DEMILLE'S "MANSLAUGHTER."

BY JAMES W. DEAN  
NEW YORK, March 16.—Eric Von Stroheim soon will start work on another picture. It will not cost a million dollars and it will be his own story. Therefore it promises to be a remarkably fine photoplay.

From a technical standpoint no photoplay better than "Foolish Wives" ever has been projected on the screen. Its chief fault was the nature of Stroheim's story. Given a million dollars to spend on its making, Stroheim would have the manner of a little boy who is allowed to knock his own apples from the tree.

Stroheim's new photoplay will be based on a Viennese stage play. An Austrian with high poetic sense, Stroheim will probably create an opus of rare merit. That is, if someone sits on the safety valve and holds the purse strings to mix the metaphors.

A German-made film, "The Mistress of the World," is now having its American premiere.

It is presented in installment form. When Stroheim filmed "Foolish Wives" it was his intention to present it in a similar manner.

After working on it a year with that ideal in mind it was presented in 12 reels.

I recently saw it for the second time. It had been cut to a two-hour run. It had been improved by the elimination of several silly sequences.

However, Stroheim's film was far

worldier of installment presentation than its German contemporary—and it would have given America the honor of being first in the industry with the idea.

"The Mistress of the World" started its first run simultaneously as the principal feature at the Rialto and Rivoli on Broadway, New York. Now the second installment is running as a secondary feature at the Rialto only.

On the other hand, "Foolish Wives" ran seven weeks at \$2 a seat and then moved to the Capitol for a week at popular prices.

John Drew's reminiscences of his half-century career on the stage will be published soon by E. P. Dutton and Company. They should prove a valuable contribution to the history of the theatre in the United States.

The only thing of similar nature I can think of that would prove more interesting will be Charlie Chaplin's memoirs after he has spent half a century on the screen.

Taking figures of three dimensions in color photography will probably be a fact then.

An attorney in the Arbuckle case says movies today are in the same position as the saloons 20 years ago.

He probably means that a movie now occupies the place occupied by saloons 20 years ago, as Will Rogers said specifically of the law theatres.

Aside from any moral or economical features, the big difference between the movies and the old-fashioned saloon is that husbands take their wives and children to the movies.

And movies will hardly be legislated out of existence so long as several million women enjoy the franchise.

"Snow Shoo Trail," starring Jane Novak, has been started.

Jackie Coogan's next will be "Oliver Twist."

EAST BILERICA  
Residents of East Bilerica are very much pleased with the additional train service between Lowell and East Bilerica which was inaugurated yesterday.

Train No. 131 leaving Lowell at 10.55 p. m. on signal to conductor, will stop at East Bilerica to leave passengers. The train arrives at East Bilerica at 11.15 p. m. and will be a great convenience.

DYE OLD DRESS OR DRAPERY IN DIAMOND DYES

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade or run.—Adv.

## EMPLOYMENT SITUATION BETTER, SAYS WOOD

WASHINGTON, March 17.—Reports from widely separated states from Michigan to Texas and from New York to Kansas show a nimprovement in the employment situation, according to Colonel Arthur Woods, chairman of the emergency committee of the president's conference on unemployment.

Referring to the "unprecedented" amount of winter outdoor work and the added improvement to be expected with the approach of spring, Colonel Woods said: "There seems to be a slight falling off in the number of applicants for work at the employment bureaus, coupled with a corresponding increase in the number for whom work is found by these same bureaus."

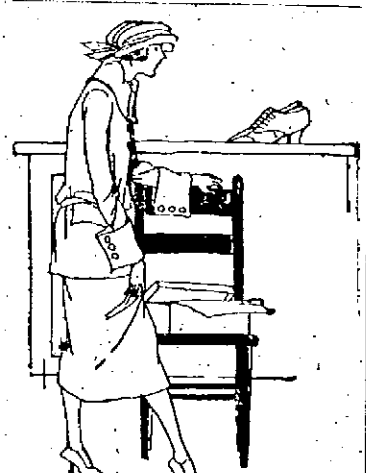

**NEPHEW CLUB BANQUET**  
Last night the members of the Nelsonian club gathered in their club to enjoy their annual banquet. The table was decorated attractively for the occasion, with flowers and green favors, while each member was adorned with a green souvenir hat. A toast was given by Manager N. J. Marcotte, after which a delightful supper was served. Following the supper the members were favored by a brief musical program, including a solo, "Mother Machree," by Mrs. M. J. Marcotte; a solo, "Little Town in the Old County Down," by Miss Gertrude Eastman; a comedy, "Nelson's Special," with a selection of Irish lues by Miss May Stone, assisted by Miss Grace Mevis. General dancing followed until late hour, with all present enjoying themselves to the utmost. The very successful affair was under the supervision of President J. Wrenn, Secretary A. L. Stone, Mrs. Payette and Mrs. Sturtevant.

From earliest days bath and bathing have been known in Japan.

## 6,000,000 PUPILS IN U. S. HAVE FAULTY VISION

BOSTON, March 17.—Six million school children in the United States have faulty vision, according to R. C. Augustine of New York, president emeritus of the American Optometrical association. In an address at the annual convention of the association he said 50,000 school children in New York city last year failed of promotion from this cause.

## FOUR WOUNDED Shots Exchanged in Clash in Cork, Ire., Last Night

CORK, March 17.—Four persons were wounded in a clash at midnight between a number of persons following a brass band and the republican police. The members of the procession ignored orders to disperse and shots were exchanged. One of the wounded was a policeman.

## THREE FIRE ALARMS THIS FORENOON

The alarm from box 144 at about 10:30 o'clock this morning was for a blaze in a tar kettle owned by St. Geoffroy, the roofer, and located in Ward street near the corner of Tucker street. There was no damage.

At 10:57 o'clock an alarm was sent in from box 126 for what was believed to be a blaze at 24 Lewis street, but which proved to be smoke issuing from a stove.

At 8 o'clock this morning a telephone alarm was sent in for a slight blaze in an automobile truck owned by Max Katze and located at the corner of Highland avenue and Wedge street.

## KIDNAPPERS ON HUNGER STRIKE

BELFAST, March 17.—(By the Associated Press)—The men sentenced recently at Enniskillen to long terms of penal servitude in connection with the kidnapping raid have begun a hunger strike in the Londonderry jail.

In Belfast the protest of the Sinn Fein prisoners against their confinement has taken a novel form, the men refusing to exercise.

**UNWILLING BRIDE**  
Julia Mahanna, 21, Newark, N. J., six-day bride of Rev. M. Simon Yonan, 67, New Britain, Conn., is seeking annulment of the marriage, claiming it was made under duress.

**BOY MILLIONAIRE**  
Francis Francis, student at Rugby, England, has just inherited an estate estimated at \$5,000,000 from his grandmother, Mrs. H. C. Bostock, who died in the United States. Much of the estate is in Standard Oil stock.

## TODAY'S CASES IN THE DISTRICT COURT

Probable cause to hold John Pille for the grand jury on a charge of incest was found by Judge Enright in district court this morning. Pille was set at \$3000.

A lengthy juvenile session preceded the regular court session and delayed it for more than an hour. Francis P. Donohoe caused a bit of a stir in court by certain utterances. Donohoe was arrested yesterday by Officer Aldrich. He was booked on a drunkenness charge, to which he pleaded not guilty when arraigned this morning. The case was continued until tomorrow as the government's witnesses were not present. According to Aldrich, Donohoe is a deserter from the United States navy.

Donohoe arose and declared that he was not a deserter and that he was not drunk when arrested but that he was merely booked on the charge so he might be held over. The court inquired of Aldrich as to who had charge of the booking. Donohoe replied, "Lieut. Petrie said to Aldrich to put a drunkenness charge against him and that will hold him until tomorrow."

The court declared that there was no charge of desertion made against the man to date. Officer Aldrich said that Donohoe enlisted in the navy in December, 1917, and that his time would not be up until December, 1922. The officer declared that Donohoe deserted in Wales, England, on March 10, 1919, and that the police here were notified on April 2, 1919. He also said that Donohoe stated that his discharge papers were at his sister's home but that investigation there failed to reveal them. Donohoe promised to appear in court tomorrow and was taken at his word by the judge.

## Other Offenders

In sentencing Thomas Garland to four months to the house of correction, but which sentence was later suspended for one year, the court said: "You have work and make good money and are spending it on worthless moonshine. Hundreds of men are begging for work in this city. You better take this chance to behave yourself or you will be given something to remember."

George F. McGuire was found guilty of being drunk and fined \$15. Irving G. Moore was adjudged guilty of non-support and sentenced to two months in the house of correction with sentence suspended for one year. He was ordered to contribute to the support of his wife when able to do so.

Frank Carroll was fined \$10 for operating an auto without a license. His machine is said to have struck a child in Merrimack street yesterday. It was brought out that Carroll had a Maine license last year but had made no renewal on it this year.

## CAPT. AMUNDSEN ON WAY TO SEATTLE

CHRISTIANIA, March 17.—Captain Ronald Amundsen, the Norwegian explorer, left here today for New York on his way to Seattle. He plans to leave there about June 1 on his long expedition into the ice-bound Arctic regions.

Pansy is the official flower of the city of Butte, Mont.

## THE LEAGUE OF CATHOLIC WOMEN

The monthly meeting of the League of Catholic Women, scheduled for next Sunday, has been postponed until Sunday, March 26. At the postponed meeting, however, a splendid stereopticon lecture on Rome and the Vatican will be given by Rev. Joseph Murphy, D. D., of the seminary at Brighton. Rev. Dr. Murphy returned a few months ago from a visit to Rome, and has a wealth of information to impart to the league members, as well as a number of beautiful slides. All who attend will be amply repaid for the time spent in listening to Rev. Fr. Murphy.

This afternoon at the league rooms in Central street, Mrs. Frank T. Morrissey, leader of the social service department, gave a tea for the ladies who have been associated with her in the winter's work. A great deal has been accomplished during the season, with Mrs. Morrissey and her assistants busy every Friday afternoon, leaving for some needy cause, and at Christmas time, particularly, some excellent work was carried out for the benefit of poor families in the city. The employment feature of the program, which permitted women and girls to register at the league quarters and secure the aid of the members in finding situations, has been another source of gratification.

The president of the league, Mrs. J. T. Donohoe, reports that the music appreciation class now being conducted on Wednesday evenings in high school hall is a big success. More than 100 pupils are enrolled, making quite a large class for the first season in which the movement has been instituted.

**TITLED BEAUTY**  
Hon. Lettice Digby, daughter of Lord Digby, is considered one of the most beautiful of England's titled women.

Parents of Florida contain 175 varieties of wood.

## NOTHING MYSTERIOUS ABOUT THE FLAPPER

CHICAGO, March 17.—There is nothing mysterious about the flapper—she is just a female who has lived down thousands of years of hypocrisy and now has become what she most desired to be for ages, a human being. Dr. Lee A. Stone, head of the Chicago department of health, said yesterday in an address before a health conference: "Flappers—or modern femininity—is just the revolt of youth," added Dr. Stone. "It is the reclamation of the original status of mankind."

## PROBE DEATH OF BOSTON WOMAN

BOSTON, March 17.—An investigation into the death of a young woman whose body was found in the Back Bay district was undertaken today by Medical Examiner Magrath. All details concerning the case, as well as the woman's name, were withheld by Dr. Magrath pending completion of his inquiry. At police headquarters, it was said that no report of the death had been made.

## HEAR EVIDENCE ON VICE CHARGES

ST. LOUIS, March 17.—Several witnesses to support his charges that vice clubs exist among the student body of Selden high school, were to be presented to a committee of parents of students of that school in a afternoon by Victor J. Miller, president of the board of police commissioners. Committee members said today's hearing probably would be the last for the purpose of taking testimony. Unless Miller represents that he is unable to produce all his witnesses, Committee members last night said they would make a formal statement regarding their inquiry when they had completed their investigation.

## DISCUSS NEW HAVEN R. R. FINANCES

NEW YORK, March 17.—Informal discussions concerning the New Haven railroad financial situation are being held in Boston today by J. P. Morgan and Boston bankers. The nature of the discussions was not made public here.

## 13,000,000 PARTICIPATED IN GERMAN STRIKES

BERLIN, March 17.—Thirteen million workers participated in strike movements in Germany during the last 12 months. 6,000,000 of them members of socialist labor unions. The strikers include 2,500,000 women.

Strikes and threats of strikes numbering 28,000 affected 612,000 businesses. Except in 247 cases the strikes were for higher wages and shorter hours.

These movements resulted in a loss of 12,716,993 work days and cost labor 95,000,000 marks a week during the periods of idleness.

The workers secured weekly increases of wages amounting to 608,159,333 marks (equivalent to about \$27,000,000) an average weekly increase of 53 marks and 53 pfennigs per workman. Double pay for overtime was also secured.

Employers in almost every strike promptly agreed to arbitration and nearly all were settled with no other damage than loss of time and temporary suspension of business.

Demand for higher wages brought about by the increased cost of living

is considered an unpleasant necessity by the labor union. A statement recently from union officers said: "Incessant demands for more pay are regrettable from the workman's standpoint. Unfortunately more wages are necessary. There seems to be a rather hopeless race between wages and prices, in which prices so far have been leading."

The statement added that the wage and labor troubles were only another evidence of the "unhealthy" condition of the German state.

## GOVERNMENT URGED TO EXTERMINATE RATS

STOCKHOLM, March 17.—Sweden has been asked to declare war of extermination on rats and mice. The millerists behind this project are the members of the Medical Board of Sweden.

The board has submitted to the government a memorandum proposing that a bill be introduced in the present Riksdag to finance the war on rodents and points out the huge economic damage wrought by them.

It is proposed to impose compulsory obligation on towns, villages, municipalities and rural communities to take steps for the killing of rats and mice and that the law extend to all ships and ship owners. A state appropriation is asked to cover the cost of investigating the most effective means of killing rodents.

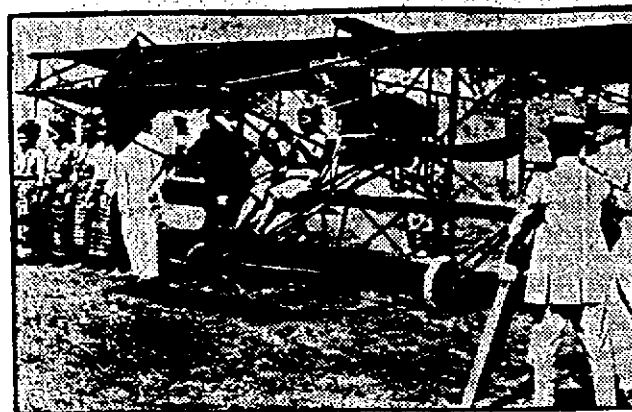

It is further proposed by the Medical Board that the government should require that new buildings shall be made rat and mice proof or at least difficult of access to these pests and that old buildings be repaired to meet this requirement.

## U. S. ARCHITECTURE TO BE SHOWN IN EUROPE

NEW YORK, March 17.—The exhibit of American architecture organized by the American Institute of Architects and displayed in Paris and London last year, has aroused so much interest abroad that plans are now being made for showing it in other European cities.

The Royal Institute of British Architects has cabled Julian Clarence Levi, secretary of the committee of the American Institute of Architects, proposing a series of exhibitions in the larger English cities.

Should this prove feasible there is a strong probability that the exhibits will then be sent to Italy and shown in Rome.

HIGH LIFE FOR IGORROTES

Igorrotes, the former headhunters of the Philippines, are becoming highly civilized. This native has mastered the air in an old-fashioned airplane.

The exhibit comprises a large number of photographs of the most notable buildings in the United States and represents many American cities, New York, Philadelphia, Washington, De-

troit, Indianapolis, Denver, state capitals in Connecticut, Wisconsin and Missouri and examples of the architecture of American ecclesiastical and educational institutions.

It was shown at the annual exhibition of the Société des Artistes Français in Paris last spring and afterward under the auspices of the Royal Institute of British Architects in London.

## Best Cough Mixture Is Home Made

Acts With Speed—Loosens the Phlegm—Stops the Irritation and Coughing Ceases

Fine for Chest Colds Too and Is Cheaply Made at Home.

When you can make, in two minutes, a world beating remedy that acts directly on the membrane and often overnight causes stubborn coughs and even hard chest colds to disappear, why trifle with things that will probably disappoint?

Hawking and sneezing and also soreness of the mucous membrane go and you will feel fine in almost no time. Just get one ounce of Peppermint (double strength) add to it a little sugar, and enough hot water to make a half-pint and you've got an inexpensive remedy better than you can buy ready mixed.

Its soothing, healing action on the membrane is the reason so many people use it for Catarrh and acute nasal colds—cure.

## TINY PIMPLES ON FACE BODY

And Arms. Very Itchy. Cuticura Healed.

"For some time I was bothered with an irritation of the skin. Later tiny pimples broke out on my face, body and arms. They were very itchy and caused me great discomfort during the night. I used different remedies without success. I began using Cuticura Soap and Ointment and was completely healed in six or seven weeks, after using two boxes of Cuticura Ointment, together with the Cuticura Soap." (Signed) Victor C. Cantor, 299 New Main St., Yonkers, N. Y.

**BONUS LEGISLATION**

House Leaders Hope to Reach Final Decision on Question of Procedure

WASHINGTON, March 17.—House leaders hoped to reach a final decision today with the return from Florida of Speaker Gillett, regarding the question of procedure in calling up the bonus bill on the floor. The speaker has indicated that he is disposed to rule adversely on a motion to bring up the bonus legislation Monday under a suspension of the rules. Chairman Fordney of the ways and means committee, who favors the rules suspension program, said that if the speaker held against it at today's conference, he would proceed with plans to bring the measure up under a special rule next Tuesday, if such a rule could be obtained. A conference of house republicans to consider the whole question may result from today's discussions.

**Berry Acts Like Find**

HOWARD BERRY FORMER COLLEGE STAR

Manager McGraw of the New York Giants hopes to make a brilliant first sack out of Howard Berry.

Berry is the former University of Pennsylvania star who was a whale

on the gridiron as well as the ball field. Recently at the Giants' training camp at San Antonio, Berry won the plaudits of the natives of that city by rescuing an aged woman from a burning house.

**ULSTER WILL NOT YIELD**

To Ignore Boundary Commission Provided for in Anglo-Irish Treaty

30,000 Orangemen Will Have to Be Killed Before Inch of Territory Will Be Given Up

BELFAST, March 17 (by the Associated Press).—Not an inch of Ulster territory will be yielded to southern Ireland, speakers at the Kilkeel Orange meeting last evening declared. Harry Mulholland, member of the Ulster parliament, son of Lord Dunleath, told the meeting that the Orangemen had decided to have nothing to do with the boundary commission provided for in the Anglo-Irish treaty.

"Before we yield an inch of our territory to the rebels, they will have to kill twenty or thirty thousand Orangemen," he said. "If such a thing is attempted, thousands of Orangemen in the colonies will flock to Ulster's aid."

Lady Craig, wife of the Ulster premier, also spoke, saying the premier's recent tour had resulted in a determination on his part never to allow an inch of territory to be sliced from Ulster.

Field Marshal Sir Henry Hughes Wilson who is formulating plans for maintaining order in Ulster, arrived in Belfast today from England. He will leave for a tour of the border after consulting Home Secretary Bates.

**EXTENSION COURSE IN AUTOMOBILE**

The first meeting of the state university extension course class in gasoline automobiles was held last night in high school hall, with John J. Gildea in a preliminary talk explained the course and stated that it will cover a period of ten weeks. It is open to men and women, owners and operators of automobiles, who wish to learn about the mechanism of their cars.

A good number of interested persons were present last night, being about equally divided as to men and women. Several registered for the full course. Registration will be open on the following two Thursday nights, thus allowing entrance into the course at the third meeting.

**30 Shots Fired in Liquor Raid**

Continued authorities said were to have been used in transporting the contraband. According to the federal agents, the schooner originally was the Viking, out of Gloucester, Mass., but her name was painted out and Clara substituted. Her captain gave his name as John Johnson of New York, but papers found in his possession bore the name of Heffernan.

The raid, made shortly before dawn, was spectacular. The customs men left their headquarters at the Battery in a large motor launch and sailed up the East river. Reaching the Bronx, they spotted movements on the shadowy shore. Soon, schooner, automobiles and men were discernible and a party landed. Outposts were assigned and the rest of the agents swooped down on the suspected rum runner.

Plato Flashes Merce Darkness. Fighting immediately broke out. Plato flashes pierced the darkness. In about 20 minutes, the light was over and ambulances were summoned. It was found that no one had been shot but that many had received cuts which required medical attention. Then the prisoners were herded into automobiles.

Special Deputy Surveyor Jackson at the customs at the Battery characterized the seizure as the most important made in New York since the advent of prohibition.

2000 Cases of Scotch Taken. "Conservatively speaking, I would say that more than 2000 cases of the best Scotch were seized at a value of about a half million dollars," he said. All the prisoners were well dressed. Many wore large diamonds. The customs authorities did not make public the full roster but in addition to the crew there were arrested men who described themselves as real estate operators, saloonkeepers, paperhangers, interpreters, chauffeurs and dockhands.

W. W. Hawkins, president of the United Press, left on the new S. S. Pan America to visit the U. S. office in Rio de Janeiro, Brazil; Buenos Aires, Argentina, and Santiago, Chile.

**SENATE TAKES UP 48-HOUR BILL**

Lavander Measure, Passed by R. I. House Wednesday, up For Consideration

150 National Guardsmen on Strike Duty Since Feb. 20 Dismissed

PROVIDENCE, R. I., March 17.—Forty-eight hour week legislation today continued to be the center of interest in the Rhode Island textile strike situation. The Lavander bill, providing for a 48-hour week for women and minors, passed Wednesday by the house, was to reach the senate this afternoon.

Progress of this bill in the legislature was watched closely because of its bearing on a possible settlement of the strike, now nearing the end of its eighth week. The state board of mediation and conciliation, which announced yesterday that passage of the Lavander bill in the house had encouraged further efforts at compromise between mill owners and strikers, today was consulting leaders of the textile workers in the hope that these might be willing to make concessions leading to an agreement.

In the ordinary course, the Lavander bill would be sent to the senate early this afternoon. Those favoring the measure planned a "drive" to have it placed immediately on the calendar for action. Opponents of the bill favored reference to a committee for study. Two bills embodying the 48-hour week principle are already before the senate judiciary committee.

Early today 150 national guardsmen who had been on strike duty in the Pawtucket valley since Feb. 20, when riots occurred at Natick and Pawtucket, were brought to city and dismissed. A force of 10 men are still on guard at Valley mills.

**Street Strewn With Tacks**

Strike sympathizers in Pawtucket adopted a new weapon this morning when the street leading to the Juke Dining plant of the United States Finishing Co. in that city, was strewn with tacks. Workers from East Providence and other places have been conveyed to their plant daily in trucks and touring cars. When the cars struck the tack entanglements today the tire casings were heavy. The tacks had been sowed on the street during the night.

**Swindled of \$2500**

Continued and said that he would be glad to show the men around Lowell as he knew the city well. This happened on Monday morning and about noon the three men, Crandall, Baker and Fountain, set out for Lowell. They arrived here, were shown the points of interest by Crandall and late in the day talked with a Middlesex street restaurant owner about the purchase of his business. It was agreed that the trio would come in the next day, Tuesday, and talk over the deal again.

Vincent also told the police that he was told the three men hired a room in a local hotel for the night and that before going to bed Fountain looked in his pocket and noted that the money was there.

The three got up at 7:30 a. m. and Fountain discovered the money was missing. At this time Crandall was in the bath room, whereupon Baker and Fountain talked the matter over and decided to wait until the next morning. They walked around during the morning and finally Crandall alleged that he was short of funds and that he would like to go to Boston to secure some from an uncle of his there. Baker and Fountain decided to go along with him. When they arrived in Boston the man started to go into a house, but Baker and Fountain objected and following some conversation the trio returned to Lowell.

Baker and Fountain had another confab and it was decided that one of them would call Vincent on the phone and tell him of the matter. This was not done and Fountain finally decided to go back to New Haven to see Vincent. According to the story he went and left Crandall in charge of Baker.

Here Baker entered the narrative and claimed that he and Crandall went into a restaurant to dine, but that Crandall said that he was ill and was going out. Baker said that Crandall left his overcoat in the restaurant and he followed him. He claimed that he followed him and he (Crandall) appeared to be ill. Baker told about going back after Crandall's overcoat only to come out and find Crandall missing. Vincent arrived here Wednesday, met Baker and the story was told to the police. Investigation of the matter proved that the story was nearly correct as the men had stopped at a local hotel and had done business with a Middlesex restaurant owner.

The New Haven victim still sticks by Baker and Fountain and believes them to be innocent of all guilt connected with the disappearance of the money.

**LOWELL RADIO CLUB ENJOYS CONCERT**

A number of members of the Lowell Radio club were last night entertained by a concert from station WGT of the American Radio and Research corporation at Medford Hillside. Police reports were received after the musical program.

Tonight's program will consist of a talk on the care and operation of amateur batteries for radio work by Mr. Stone and the Electric Storage Battery company. A musical concert will also be given.

There are under way for the building of a station in the area. The present clubrooms are not suitable for radio work owing to the closeness of high tension wires. Plans are also being made for the third annual dance.

Ancient Jews and Arabs used their fingers as an aid to addition. Circassian women are heavier than water and will not float.

## THE NEW IRELAND

With mingled feelings of joy, hope and fear must every Irishman scan the new Ireland over whose hills is now breaking the dawn of glorious freedom, for which so many martyrs died and for the realization of which, the whole Irish race is intensely anxious on this St. Patrick's day.

The new grant of freedom, the result of over a century of warfare, but directly of the rising of Easter week and the last two years of warfare, is more or less involved in controversy, and although there is considerable conflict of opinion, yet we have full confidence in the ability of the Irish leaders, supported by the masses of the people, to settle the points at issue so as to make the most of their opportunities and to serve the best interests of the Irish nation.

The constitution of the Irish Free State is being drafted and elections are soon to be held for the purpose of electing representatives for the new parliament, but the followers of President de Valera, in what might be termed a respectable minority, hold out for the republic, and are not willing to accept the settlement provided for in the treaty.

This is a question for the Irish people themselves to settle and it is hoped it will not be transferred to this side the Atlantic to split the various organizations that for years have worked with such harmony in the cause of Ireland's deliverance. A great many people insist that the logic of the situation would dictate the acceptance of the greatest concession that can be wrung from England, as this would not set a limit to the future march of the nation. De Valera's ideal represents the highest aspirations of the Irish people and it is sure to be realized eventually; but whether to fight for it now or later on is the great question.

In spite of all that may be said by the critics of Messrs. Griffith and Collins, now the accredited heads of the provisional government, it must be a great source of satisfaction to the Irish people to see Dublin castle, the seat of British power in Ireland for 700 years, turned over to the Irish forces. It was the ambition of Robert Emmet to seize the castle if his plans had not miscarried; but now not only this bastion of unhalloved memory, but every stronghold of British authority in southern Ireland, has been surrendered to the Irish people.

It would seem, therefore, that real statesmanship as well as the best interests of Ireland, would dictate the acceptance of the new constitution and an effort to have Ulster remain as a part of the Irish Free State to form a united Ireland, which is one of the highest aims of Irish statesmanship.

The constitution of the new Irish Free State will give Ireland a measure of freedom such as she has never enjoyed at any time since Strongbow landed upon her shores in the twelfth century. With the birth of the new government the people will be masters in their own country; they will be free to develop its great natural resources and will never again be driven into exile because of lack of opportunity due to oppression by an alien government.

Thus, whether Ireland remains as the Irish Free State or ultimately becomes a republic, we feel that she will soon start upon a great career of peace, happiness and prosperity and that through the virility and genius of her people, she will fully overcome the effect of her long ages of oppression and work out a glorious destiny to be again as of yore:

"Great, glorious and free  
First flower of the earth  
And first gem of the sea."

## HELPING THE SOVIET

Americans, north, south, east and west, have been termed "the great givers." Today, Americans are called upon more frequently and urgently to give as they never have given before. Just now the government indicates a desire to look into the activities of certain "relief" organizations that are bent upon collecting American funds for lands across the sea under the guise of charity and succor. Problems in connection with relief work in Russia, are being tackled by the government at Washington with considerable zeal.

It is suspected that funds are collected in this country for the Russian soviet government by organizations thinly camouflaged as relief agencies. A good many Americans appear to think so, and explain just why they believe that this country is being "filched" financially. According to the department of justice, investigating certain activities in behalf of Russian relief, both funds and supplies collected in the United States are shipped to Russian soviet officials for distribution by them and for their benefit. Hence the suspicion that some of these so-called "relief committees" throughout the United States are in reality soviet bureaus collecting funds for the bolshevik government. There are more than 200 organizations in this country "frankly communistic," according to Secretary Hoover. Hundreds of thousands of dollars have been collected in the United States and very little seems to have gotten to Russia as yet.

## VOCATIONAL GUIDANCE

Commissioner Payson Smith of the state department of education always says something worthy of note when called upon to speak upon education or any of its correlated subjects. At a New England conference for vocational guidance, in Boston, Mr. Smith laid stress upon the necessity of dealing with individual students, according to their respective aptitudes and capacities for work. Here is a piece of good advice from the commissioner:

"Pay more attention to the individual student instead of to the class as a whole. All the progress the world has ever seen has been the result of an individual thought ahead of all the others. We should see to it that each child has the best possible opportunity to develop to the best of his or her ability."

It is very plain that better results can be attained by this method than by dealing with the students in the mass just as if all were of equal capacity to absorb instruction and apply it in their lives. Education can never accomplish the best results unless it deals with the individual with a view to meeting his special needs. It is important first to fix the goal and then to make sure of the shortest and best way to reach it. An early decision in vocational guidance is very important as it will prevent the waste of years in floundering aimlessly from one thing to another without attaining excellence or high standing in any of them.

## FIGHT FOR GOLD

The South African revolt, killing hundreds, originated in a dispute over how much labor is to get as its share in the mining of gold. Wherever there is gold, there also is trouble.

To obtain gold, men freeze to death in Klondike, perish of thirst in the desert. Gold is the greatest destroyer of woman's virtue and man's honor. The universal desire for it creates the greed that has made man more cruel and violent than any animal.

Last for gold in back of unsanitary tenements, starvation and other forms of poverty.

This is the thing for which men sell their souls.

Yet gold is valuable only in man's imagination, and for most practical purposes is about the most worthless substance on earth. You cannot eat gold, nor can it keep you warm. No man can carry it beyond the grave yet it is the ruling power of civilization.

## GOOD FOR FARMERS

Advancing prices in 90 days have added \$1,019,000,000 to grain and livestock held by farmers. This is the estimate of Everett C. Brown, president of the National Live Stock Exchange.

Yet the actual grain and livestock are the same as they were 90 days ago. It is like railroad stocks, which rise and fall though there is no change in the railroad itself.

Values are largely imaginary, depending on how much is bid by holders of the low lands. The present upward tendency in the price of farm products, will bring the values thereof up to the general price level of other commodities and thereby remove one of the main causes for the existence of the agricultural bloc.

## ESCAPING ENERGY

Gold which escapes from melting pots and vanishes up the chimneys of the government's assay office in New York is being recovered by an apparatus on top of the chimney.

The saving probably will not exceed several thousand dollars a year. But there is much rejoicing because, the thing that is being saved is gold, that everybody is striving to get.

Out of all the coal used in our factories to produce energy, a very large proportion is lost because it escapes up the chimneys. If gold escaped instead of energy, then everybody would try to stop the leak.

## STOLEN AUTOS

Ten thousand autos have been stolen in one year in New York cities. That is one in every 15 cars registered.

What happens in New York state is a fairly good average of national conditions, according to economists and sociologists.

So chances of your car being stolen are about one in 15 a year. Using more New York statistics, if your car disappears the police will get it back in 85 out of 100 cases.

But which would you rather have now—car or insurance?

## SEEN AND HEARD

Round hog: A man who keeps in the middle and leaves you both sides.

One way to make the day turn out fine is to decide to stay at home.

Censors claiming our movies are "bad," don't say if they found them that way or left them that way.

Southern farmers would be rich and happy if someone could teach boll weevils to eat weeds.

Loudville, an island off the Maine coast and part of the town of Bristol has 600 inhabitants. On the island are young people who have never seen a car, an electric car or an automobile.

The "House of Doors" is in Washington. It is made entirely of doors and into its making went woodshed doors, mahogany doors from stately mansions and every conceivable kind and make of doors.

While one of the maid at the hotel in South Portland was dressing some chickens for dinner she found in the crop of one a dime, a nickel and four pennies. The nickel was in good condition, but the dime was worn thin, while the pennies looked like gold coins having worn very bright.

## A Thought for Today

You cannot see the distant heaven. You cannot hear the songs of angels. You cannot even say assuredly that you know the love of God. But you do know that to be brave and true and pure is better than to be cowardly and false and foul.—Phillips Brooks.

## A Word a Day

Today's word is autonomy. It's pronounced aw-ton-oh-mi with accent on the second syllable. It means—self-government, independence, right of election to rule itself, freedom from foreign rule. It comes from Greek "an" (without) and "tonomia" (self-rule). Companion words: autonomous, autonomy. Its use seems likely to lead to a serious crisis.

## Reason Was Obvious

When Freddie came home from school he was crying. Teacher whipped me because I was the only one who could answer a question she asked the class," he wailed. "Freddie, what did she ask?" "I don't know," he said. "I'll see the teacher about that." "What was the question?" she asked. "She wanted to know who put the glue in her ink bottle."

## Baby's Chances

A baby born in the tenement district of New York city has a better chance of surviving infancy than a baby born on farms of New York state, according to an official health survey. "This is a startling revelation of the possibilities of health campaigns and education. Disease and ignorance are enemies of the weak. The most important study in health. All other education should be secondary."

## Service to Slave Music

There are said to be certain offices in the United States where the work is done to the accompaniment of music, which changes from grave to gay from slowly to quick. It is done with the dulcimer and peels of the workers. A British telephone publication, commenting on this practice, says that it is a thing new, and that the post-office telephone workers have long been working to music, and keeping strict time, the favorite measure being the "Dead March."

## A Hummer of Cloyvelly

Have you ever seen the street of Cloyvelly? The quaint rambling street of Cloyvelly with its staircase of stone leading down to the sea. To the harbor so steep, so old and so wet.

The queer crooked street of Cloyvelly?

Have you ever seen the lake of Cloyvelly? The sweet, little lake of Cloyvelly, with little of grass reaching just to her knee.

And when as heat as ankles may be, The yellow-haired lass of Cloyvelly?

There's a good honest lad in Cloyvelly. A bold singer lad of Cloyvelly, with purpose as straight and swifter as free.

As the course of his boat when breasting a sea. The brave sailor lad of Cloyvelly.

Have you ever seen the church at Cloyvelly? Have you heard the sweet bells of Cloyvelly?

The old and the hallow will hear them, may be. And join hand in hand to sail over the little lake of Cloyvelly.

From the little stone church at Cloyvelly.—By Kate Douglas Wiggin.

## THE LECTURING MAN

### TABOO IN CHICAGO

By ROY GIBBONS

CHICAGO, March 17.—It's for the life of a lecturing man!

It's the velvet. All you do is Margaret Asquith. Tell 'em how to rub their city is and what big fish they have.

Then you hop quick to the box office and collect five bucks a head.

Such ambitions fired no less than five would-be platform educators here during a week, whose status ranged all the way from a club bellhop to that of literary cat heaven.

Each lecturer who was brought to task admitted that the seeming ease with which foreign celebrities reap rich harvests of American dollars inspired them to do likewise.

But they're plain sheep.

The ambitious bellhop was signed in the lead of his lecturing campaign, after policy had found him with \$7500 worth of tickets, announcing that he, on next Tuesday night, would go deep into the mystery of some celebrity's life at 11 o'clock.

He was turned over to the psycho-pathic hospital.

As for the great heaver—that worthy had dreams of informing a delighted crowd that there were no such foods as those who ate celery and meat. His was to have been a course in dietetics.

"Just insult them," said the cold heaver when picked up, referring to his potential audience, "and they'll pay to hear it."

Margaret Their Inspiration

Which may not be so far from wrong since Margaret Asquith told her listeners what they would know a friend down for even suggesting and pulled down \$4000 a week.

Meanwhile Chicago police are watching the approach of every lecturer and giving first aid to his advance propaganda.

It has been considered practical to have a trial lecture at police headquarters hereafter. Maybe they'll do it.

Chicago wants educated insults if it is going to pay for them. (Cool heavers and bellhops haven't a chance.)

## NEGRESS REPUTED TO BE 122 DIES

MOUNT VERNON, Ill., March 17.—Margaret Edmondson, a negress, reputed to be 122 years old, is dead at her home here. She was said to have been born in Richmond, Va.

Australian mudfish can live out of water nine months or more.

## Berton Braley's Daily Poem Repetition

I'm weary of doing things over,  
Over and over again,  
Weary of treading the same beaten  
Track the end comes and I break—  
Over and over—and then  
Knowing tomorrow and next day  
I'll do it all over again.

I'm weary of doing things over,  
I wanta break loose with a yell,  
Have I gotta see the same sights  
every day,  
Meet the same people as well,  
Eat the same food that I've eaten  
for years,  
Smell the same smells that I smell?

If that's all I get out of living  
Like "honest, respectable folk,"  
Just doing things over and over  
Till the end comes and I break—  
Excuse me, I've gotta be going  
You won't see my trail for the  
smoke!

(Copyright, 1922, The Lowell Sun)

## City Council Meeting

Continued

"spotter" work?" asked Councillor Sadler.

"I do," replied the former.

"Then I do not care to say here what is in my mind," commented the councillor.

Other heat waves were generated during consideration of a third ordinance creating a superintendent of employment. Councillors McPadden and Adams vigorously opposing the measure.

Calls Office a Fancy Job

Councillor McPadden did not speak against the ordinance for a single minute, but he did assail the ordinance and said:

"It looks to me like a fancy job at a fancy price for one of the unemployed."

Councillor Adams stamped the office as "another tentacle of a political octopus that seems to be growing to alarming size in this city."

The ordinance went to a vote, with seven councillors registered in favor and five against. It failed of a majority vote, however, as three councillors were absent.

Mayor George H. Brown again nominated Edward Mulry as superintendent of charities, but the nomination was tabled.

The council convened at 8:25 o'clock, with Councillors McMahon, Genest and Appleton absent.

W. C. MacBrayne, acting superintendent of police, was called before the council to discuss the police department estimates.

Councillor Sadler questioned the acting superintendent relative to the method of paying civilians who are engaged as "spotters."

Ex-Servicemen as "Spotters"

Capt. MacBrayne said that he had placed several ex-servicemen on such work.

"Do you mean to say that ex-servicemen do that sort of work?" asked Councillor Sadler.

"Yes, sir," replied Mr. MacBrayne, several veterans have come to me seeking that kind of work. They were broke and unable to obtain work from the city."

"They might be broke, but if what you say is true, I don't care to say just what is in my mind," declared Councillor Sadler.

Capt. MacBrayne was questioned at some length about his methods of liquor work. He said there are 20 men and regular officers, now on the liquor and vice squads.

The acting superintendent said that he has established new night routes in Belvidere, the Highlands and Centralville.

Mr. MacBrayne said that so far he has caused \$500 to be paid in liquor fines in the district court this year and if this record keeps up, the city will receive between \$50,000 and \$60,000 this year.

"If the present chief stays on the job, we will make a record," stated Mr. MacBrayne.

"If not, the ship is lost," commented Pres. Bagley.

After discussion that continued for nearly an hour, the council voted to take the police estimates under further consideration.

Petitions for pole locations and garage licenses were referred and hearings set.

Petitions for sewer extensions and new street lights were referred to the board of public service.

Eight claims were referred to the committee on claims and the city solicitor.

The plan of work for 1922, submitted by the board of public service on

## AID JOBLESS VETERANS

All Local Chambers of Commerce Asked to Co-operate

With Legion Posts

INDIANAPOLIS, Ind., March 17.—All local chambers of commerce have been requested by the United States chamber of commerce to co-operate with posts of the American Legion in obtaining employment for jobless veterans of the world war, a letter from the national chamber, received at legion headquarters, states.

A copy of a letter, sent out to local chambers of commerce by the national body was included in the communication to the Legion.

The Legion has received similar assurance of cooperation from the American Federation of Labor and national organizations representing a total of more than ten million citizens, it is said.

Cyclones revolve in opposite directions in the two hemispheres.

## FISH HELPED TO STOP YELLOW FEVER

LIMA, Peru, March 17.—The Pacific coast of South America is free from yellow fever for the first time in history and a little fish locally known as "life" has been the most efficient agent in the battle to rid Peru of the dreaded disease.

The fish, which will have to be scientifically identified in Washington, was found to be the most active de-

stroyer of mosquito larvae. More than 700,000 of them have been distributed by one, two and three in all the water containers in the houses in the departments of Lambayeque and Libertad. For an ordinary water container of 10 or 15 gallons, two or three fish were sufficient.

No food was provided so that the hungry fish would live on the organic matter in the water. Every eight or ten days inspectors visited the houses to make sure the fish were still living and doing their work.

The final chapter of yellow fever campaign is being written by Dr. Henry Hanson of the International Health Board of the Rockefeller Foundation, which is spending large sums to help

DUKE IN DUEL

Duke Torlonia, shown here, engaged in a duel with Count Lovatich, noted sculptor, in Italy. They met with swords "on the field of honor" following a quarrel over a statue for which the Duke's Torlonia, above, posed.

the government of Peru rid her territory of the dreaded pest.

Seven hundred miles of the coastal section of Peru have been the battleground of the campaign and the estimated number of deaths is 1500. For months Dr. Hanson and his assistants have fought heroically to keep back the advancing lines of the enemy, for at times it was feared that the epidemic would spread south to Lima, the Peruvian capital, and to Guayaquil, Ecuador, but the campaign has resulted in a victory for the health workers.

There have been no cases since July, 1921, but the work is still going on as a matter of insurance. Dr. Hanson has about 125 men working in the coastal region in the south and will continue until about May. They do not intend to leave the faintest doubt when they have finished that there is any danger of yellow fever lurking in Peru. This is expected to be the last yellow fever campaign on the Pacific coast of South America.

**Tom Sims Says**

Ex-kaiser is writing a book on ruins. Must be a biography.

Winter is gone when the cold stops biting and the fish start.

Congress might hire Houdini to get out of the bonus for them.

G. H. Ruth, alias "Babe," has reduced to 217 with the help of golf and Judge Landis.

## SYRIA IS PROSPERING UNDER FRENCH RULE

BEIRUT, Syria, March 17.—France contemplates granting to Syria a certain amount of autonomy which will qualify the country to become a member of the League of Nations, it is reported here.

It is said that France will recognize the existence of Syria as a sovereign state and will agree also to the constitution of a Syrian parliament and the establishment of a Syrian ministry.

"The French have made good," is the expression one hears everywhere in this country where during the great war, Janina Dasha's reign of terror culminated in the hanging in Damascus of the leading 400 Arabs.

In three years France has not only brought security but also prosperity to Syria," said the governor of Beirut, when asked his opinion as to the French mandate. "The Turks left us dead and buried and the French simply pulled us out of the grave and gave us life. We owe them."

Marshal Gouraud has done wonders for this land. Beginning with the industrial exhibit which gave a great impetus to commerce and industry, he followed it up by improving communications and the customs which he found in a disorganized state. All the railways destroyed during the war by the Germans were rebuilt. New ones were also constructed establishing connections between many large cities and

towns. The custom house has become a model of efficiency.

Perhaps the two outstanding innovations introduced in the land are the aerial mail and the wireless station built near Beirut. The former is facilitating the transport of important commercial correspondence while the latter is communicating directly with European countries, thus removing the age-long dependency of Syria on the British cables of Egypt.

As regards education Syria has also made great strides under the mandate. Aside from the hundreds of new primary and secondary schools scattered throughout the country two universities, one in Beirut and one in Damascus have been established. In addition 20 students of all creeds are chosen each year and sent to France to pursue higher education.

## LAUGHS HIS BILL THROUGH HOUSE

FRANKFORT, Ky., March 17.—Senator Bannie Tabor, republican, laughed his script bill through the house of representatives. He has an unusually rollicking laugh. It has been one of the features of the session. When the bill came up several members agreed to vote for the measure if the senator would laugh.

The senator told his colleagues to vote first. When the favorable result was announced he mounted the speaker's rostrum and let forth his best laugh, which was applauded in the house and the galleries.

The bill requires companies which issue script to employ to redeem it at its face value.

Tournaquet was invented by a French surgeon, Morel, in 1671.

## LONE MATCH SAVED SHIPWRECKED CREW

HONOLULU, T. H., (By Mail).—A lone match, saved carefully in a tin can to prevent it from becoming wet was the instrument that resulted in the rescue of four of the five members of the Japanese fishing vessel Ebisu Maru No. 1, after they had been marooned fifteen days on a wind and storm-swept coral reef in the South seas, with no shelter, few clothes and little food or water, according to the story they told when they were brought back to Honolulu aboard the Elise Maru No. 2, which had been sent to rescue them. The fifth member of the crew, M. Miyasaki, the engineer, was washed away and drowned. His body was not recovered.

The fishing craft left here last year for Necker Island, considerably south of Honolulu, and after unsuccessful casts sailed farther south on January 15. Ten days later in a heavy storm, she struck a coral reef off Sand Island, near French Frigate shoals. Under the battering of the heavy seas, the sampan broke up almost immediately.

A rude raft was formed from the timbers and Captain J. Yonemoku, with a rope around his waist, swam for a bar some distance away. He made the small piece of land and succeeded in pulling the raft after him. Miyasaki was lost at this time.

For the next fifteen days the four men subsisted on birds they killed and a little fresh water. With their lone

match they kindled a fire from pieces of driftwood. This thin line of smoke was sighted by the Ebisu Maru No. 2, the rescuing vessel, which proceeded to the bar and took the four survivors aboard. A large part of the Japanese colony here was at the dock to greet the survivors when they landed from the Ebisu Maru No. 2.

Origin of the word Asia remains unknown.

Most of the familiar licorice root comes from Syria.

**The P&Q Shops Announce Another Drop In Price!**

This Season's latest production -- Spring Suits and Topcoats, are now down to \$20, \$25 and \$30. The same quality that less than two years ago sold for \$35, \$40 and \$50. It is proof of our ability to meet existing conditions when we make and sell Clothes that are constructed so faultlessly, and nevertheless offer them at prices that astonish even the best judges of Clothes values.

The high standard of workmanship that has always won the approbation of many thousands of men — is strictly maintained. The superior talents of our master-designers have never produced more perfect models, that will please the fancies of the most critical dressers — than this Spring.

"Price without quality is like soup without salt" — we have said that lots of times — therefore let's be specific and prove that in P&Q Clothes, regardless of the low price, *Quality predominates.*

Tested Cloths from the most reputable woolen mills in America; cold-water-shrunk and sponged; highest grade linings; pre-shrunk canvas interlinings; linen edgestays; hand felled collars; hand made button holes; silk pocket bars—are some of the features that make P&Q Clothes such wonderful value! The single operation of selling direct from our own Tailor Shops through our own 40 Stores saves you \$10 or more.

The Spring line is ready. Don't fail to look --- compare --- you'll soon discover that the P&Q way is the true way to economy!

## WOODS BEATS DOWNES BASKETBALL TOURNEY

Manchester Welter Gets Award in 'Tame' Bout—Billy Murphy Defeats Lucas

Waltzing through 10 rounds, which proved a bit unsatisfactory, Billy Woods of Manchester won the decision over Cleveland Johnny Downes in the main bout of the Moody A. C. show held in the Crescent rink last night. The verdict was a popular one.

Woods forced the fighting in every one of the 10 frames and hit Downes some stinging blows. Downes didn't appear to exert himself much and in fact it became necessary for referee Scotty McGee to warn Downes to fight with more spirit. Neither man was in danger at any time. Both battled fresh and unmarked.

Billy Murphy of this city gave a dazzling exhibition of clever work in his eight-round bout with Waterbury Johnny Lucas. He was given the decision and carried it by his all-around ring ability. Lucas proved to be a worthy opponent and also made a bit with the fans for his willing, clean style of fighting.

In the first preliminary Tommy Moran was given a six-round decision over Eddie Smith. The latter had the better of the fight in all but the fifth round but was knocked groggy with a smash to the head in the sixth.

In the second preliminary Danny Murphy of Lawrence won over Lefty Williams of this city in six rounds. The bout was a swiftest with the Lawrence boy showing the fight. Williams was a good mixer but missed the clever Lawrence man with many punches. It was the winner's first professional bout and he was boxing for his license.

## SPORT FLASHES FROM SOUTHERN CAMPS

In every major league camp there is much discussion as to what style of play will be most advantageous during the coming season.

The campaign of 1921 was an era of swat. Every ball player sought to emulate the deeds of Babe Ruth as he tore the cover off every pitcher was taking a healthy cut at the ball.

The wild acclaim with which the deeds of Babe Ruth caused the other players to feel that if they were to continue in popular favor they must hit a few home runs.

The players realized they were battling against the very best ball that was ever made. It was not a right ball, but rather a ball that was lively because of the heat and workmanship was of the best. If you hit it fully it would carry.

On the whole the pitching of 1922 was not quite up to the level of the batting. In addition the batters did not have to worry about the so-called freak deliveries. There was no mental hazard to overcome.

These things all tended to make for free hitting and big scores. Extra inning games were the rule. The extra inning games are usually the result of light hitting and slight pitching.

The era of swat which held sway during the campaign of 1921 held sway in the minor leagues. The batters were hitting the ball hard and the pitchers were being hit hard.

I seriously doubt if the ball of 1922 will be as lively as the one we used the greater part of last year. I am inclined to think that it will be considerably toned down.

I am positive the pitching this year will be 25 per cent. better than it was last year. Pitchers who had fussed with freak deliveries and who were temporarily weakened when deprived of that style of pitching, will have overcome such a handicap.

What is more, I look for pitchers to go back to the curve ball strategy of the past. The curve ball has been the pitcher's one best hit.

The use of certain styles of delivery by pitchers goes in cycles. I am sure the coming season will mark the passing of the fast ball and to an era of curve ball pitching. With the curve ball the pitcher's one best hit.

With fast ball pitching the batters have been resorting to the slushway, or slugging style at the plate. The curve ball is death to the free swinger.

Since a majority of the hitters are hitting the ball out at the ball it is up to the pitcher to fall back on the curve ball to stop them. It will turn the trick, I feel. I am sure that the use of the curve ball will lead to a revival of baserunning and much use of the sacrifice. The run under such conditions will mean something.

**SOCCER GAME TOMORROW**

The first round of the Merrimack valley challenge cup will be played tomorrow at the Fair grounds when the Waterbury and Arlington men soccer teams meet. The players are expected to meet at the grounds at 2:30 o'clock.

16 High School Teams Compete in N. E. Interscholastic Championship

MEDFORD, Mar. 17.—Sixteen high school basketball teams representing the six New England states were here today for the annual New England interscholastic championship tournament held under the auspices of Tufts college.

Among the entrants was the quintet of the Commercial High school, New Haven, which won the title last year. Rogers High school of Newport, R. I., runner-up in 1921, was again a competitor.

The schedule for today pairs the teams for a preliminary round. Semifinals and finals will be played on Saturday. The program is as follows:

**TUESDAY, MARCH 14**  
Portsmouth, N. H., vs. Hardwick, Vt.  
New Bedford vs. Technical High, Springfield.  
South Manchester, Conn., vs. Fitchburg.  
Edmund high, Burlington, Vt., vs. New Haven Commercial.  
**WEDNESDAY, MARCH 15**  
Naugatuck, Conn., vs. Dover, N. H.  
Stevens high, Rumford, Me., vs. Northampton.  
Dunbar vs. Bangor.  
Rogers high, Newport, R. I., vs. Brockton.

## GEORGES CARPENTIER MAY NEVER FIGHT AGAIN

PARIS, March 17.—(By the Associated Press.) Georges Carpentier, world's light-heavyweight champion pugilist, may never fight again.

This was the opinion expressed by medical men in close touch with Carpentier as he left Paris yesterday for La Guerche, his country home, southeast of Rennes, where he purposed to recuperate a few weeks and then to enter training for a bout with Ted "Kid" Lewis at Olympia, London, in May.

The boy does not realize the shape he is in, said one of the doctors who examined Carpentier prior to his departure. "His recent courage and most confidence in his ability are responsible for his rocky attitude, but he is a very sick man."

The actual weight of Carpentier after the recent operation he underwent was given out as 160 pounds; but close friends of the champion say he was below 150 pounds.

Philippe Roth, promoter of the La Guerche fight, who is an intimate of Carpentier, said to the Associated Press yesterday: "It would be cruel to match Georges in his present condition. He is a very sick man, but that he should be defeated by Lewis."

The terrible pounding Carpentier received from Dempsey in the light in the Jersey City arena last summer caused Mrs. Carpentier, who saw the moving picture of the battle, to request that he should be defeated by a very sick man.

Contrary to printed reports that income taxes had taken away all of Carpentier's available cash, it is said he still has sufficient money to keep the wolf away from his door for many years to come.

Medical men trace Carpentier's illness to the defeat he suffered at the hands of Billy Papke and Frank Klaus when he was only 18 years old, but say it was aggravated by a punishment he received in the Jersey City fight with Dempsey.

**Billy Evans says**

A lot of funny things happen on the ball field.

The minor leagues offer a bigger field for such things than the majors.

Umpiring in the bush is a job that no one should envy. Frank Wilson, who umpired in the American league, came up from the Western league.

Wilson tells this interesting story of a happening that took place in a minor league over which he presided:

Jack Holland was managing the St. Joe club. This fellow Holland is one of the minor league leaders who by a lot of color and plenty of energy for the newspapers.

The St. Joe club had been going pretty well. It had been in a long losing streak. In the game in question, after getting away badly, his team came from behind and tied up the game, overcoming a six-run lead.

The contest was forced into extra innings. At the close of the third inning, thinking it was getting pretty dark, umpire Wilson, knowing that Holland's club hadn't had a game for a week, thought he might be satisfied with the tie.

Turning around next facing Holland, Wilson shouted to him: "Well, Jack, what do you say? I'm getting pretty dark, maybe you would be satisfied with a tie game. The crowd would break your losing streak. Well, I call it."

Rumors had been going the rounds that the St. Joe club was not paying much attention to training rules. It had been back of the club was losing because of lack of condition rather than lack of ability. Holland knew it and when umpire Wilson suggested calling the game, he replied:

"Call nothing. This team of mine doesn't really get started until the bright lights are turned on. Keep 'em going."

Wilson got the sarcasm. It also must have been absorbed by the players. The game was kept going. It ran on for an hour.

Washington monument cost \$1,300,000.

With fast ball pitching the batters have been resorting to the slushway, or slugging style at the plate. The curve ball is death to the free swinger.

Since a majority of the hitters are hitting the ball out at the ball it is up to the pitcher to fall back on the curve ball to stop them. It will turn the trick, I feel. ## MISS ALLISON SEEKS BOUT WITH NEW YORKER

EICHART, Ind., March 17.—Mrs. Laura Bennett, New York woman boxer, would better look to her laurels. For not here a woman "put" is breaking to reduce her to the ranks of second-rate fighters.

"Bibi" Allison, 25, of 1022 S. 2d street.

MISS GERTRUDE ALLISON

Miss Allison has just told the wide world that she challenges Mrs. Bennett to meet her in the ring at any old time or any old place.

And she says she doesn't care whether the bout is just a friendly little sparring match or a knockout battle with black eyes and all the trimmings.

"I know I can beat her," Miss Allison said as she landed a wallop on her punching bag.

I understand Mrs. Bennett weighs 120 pounds. I only weigh 127. But I'm willing to take her on.

"Why, look at the way she holds her fists in this newspaper picture. That's no way to fight. I could break down that defense mighty quick."

"I hope that's only a pose and not her natural defense. If she fights that way it would be a shame to take the money."

Miss Allison is five feet seven inches high. She takes more likes in Ken Keady's gym. She took boxing at Denver university.

On April 14, 1922, Miss Allison and her half-sister, Miss Frances Carlin, 18, crossed attention here by taking a dip in the frigid water of the river here.

**BOWLING**

Four teams rolled in the championship bowling match last evening, and the result of the contest was as follows:

Lawrence Mfg. Co. 5713; Bridge Street league 5222; Paracale league 5767; Bay State league 5741.

Six teams of the Textile league also competed on the alley last night. The total scores are as follows: Waterbury 1493; Hamilton 1319; Ipswich 1401; Columbia Textile 1160; Merrimack 1101; Braintree 1469.

## CENTRE COLLEGE GRID STAR ENTERS RING

EL PASO, Tex., March 17.—From the vastly football team to the prize ring all inside of one short year. This is the story of the career of Sully Montgomery.

Montgomery spent four years at Centre college absorbing the liberal advantages of a college education.

SULLY MONTGOMERY

Some of the things at which he became proficient were football and boxing.

Montgomery played on the Centre team of 1920, which gave Harvard such a battle, finally losing, 31 to 11.

Aside from starring on the gridiron he was one of Centre's best bets in baseball basketball and on the track.

Montgomery started out with the idea of becoming a minister. It caused considerable of a stir in his family circle when he took up boxing.

Sullivan is 6 feet 2 inches and weighs 180 pounds.

While he has fought only three rounds so far he seems to have confidence and his manager, Ben Dobbert, has visions of the Centre college athlete some day being a champion.

Brown record besides being the inter-collegiate record holder for the 100-yard event, was opposed by Captain Stewart Damon of Amherst, holder of the inter-collegiate championship for the 50-yard dash.

## RED SOX PLAY PIRATES TODAY

Jack Quinn Slated to Start on Mound for Boston Club in Exhibition Game

Judge Landis and Owner Grant of Braves Honored at St. Petersburg

"Babe" Ruth Knocks Out Home Run With Bases Clogged With Runners

BOSTON, March 17.—The Red Sox of 1922, changed by off season sale and trade, began to take playing form today with the first lineup against the Pirates at Hot Springs, Ark.

Jack Quinn obtained from the Yankees, was to start pitching, with Thompson, also an ex-Yankee, in reserve. The rest of the team was to take the field as follows: only three men playing the positions they held with the Red Sox last year:

Eddie Collins, cf; Pittsinger, 3b; Smith, 1st; Pratt, 2b; Harris, lf; Burns, lb; O'Rourke, ss; Walters, c. The latter has signed up, reducing the holdout group to three.

Close rivalry was displayed between the first and second teams of the Braves at St. Petersburg, Fla. A 3 to 1 lining battle resulted in a 3 to 3 tie. Pierotti and Anderson for the first team and Lansing and Braxton for the second, were the twisters. They twirled the ball in mid-season for Pierotti, however, was said to have lacked control.

Judge Landis, baseball's high commissioner, and Owner George Washington Grant of the Braves were to be guests at a banquet at St. Petersburg tonight.

**To Succeed Larry Gardner**

CLEVELAND, March 17.—Riggs Stephenson is being groomed as a successor to Larry Gardner, third baseman of the Cleveland Indians, according to dispatches from the spring training camp at Dallas.

Stephenson came into prominence last year when he was named to the Tigers' starting line-up. He was named to the Detroit team after he played a sensational game at second base the first few weeks of the season.

**Collectors Surprise Tigers**

DETROIT, March 17.—The Tigers were slated to play the second full game of their training season today with Georgia Tech at Atlanta.

The collectors surprised the Tigers yesterday and the Detroiters 4 to 2 victory came through errors of judgment in the Georgia infield, rather than on superior form of Cobb's men. Only two of the Detroit runs were earned. Collins and Allison scattered the nine innings. Johnson and Stewart, recruits hailed for Detroit.

**"Babe" Knocks Homer**

NEW YORK, March 17.—Somewhere outside the fence, calling the Yankees home base, the team's practice field at New Orleans, there was today a bruised and battered sphere. It reached its location and condition by coming in contact with Babe Ruth's bat yesterday afternoon, but it had the distinction of being the first ball Babe has "busted" this year when the bases were clogged with runners yearning to reach the home plate.

Memphis's batting on Tuesday earned him a trial in the outfield in yesterday's trial with the New Orleans team, and the boy who last year got off the cars when they reached Rochester, N. Y., pulled the crowd right off the seats by making a stellar grab of a liner that looked like a triple when it started. The other feature of the day was the pitching of James Foley, who held the New Orleans team to six hits and no runs during his five inning tenure in the box.

Under the eye of Judge Landis, the Brooklyn Dodgers are running a very practice game at Jacksonville, Fla., yesterday, the pitching of Rishon and Mammola being high class. Ivy Olson, who is second basing this year, led the fleet hitting.

John McGraw has divided the sheep from the goats and the giant camp at

## BASKETBALL

One of the most important games of the season is on the program for tonight at the Crescent rink when Lowell Five will line up against the Germantown team of Clinton at 8:30 o'clock. The lineup contains some of the best players in New England and as the visiting aggregation comes to town with a victory over Lowell's quintet, it is credit, a hard fought battle in prospect.

The teams will lineup as follows:

**LOWELL FIVE**  
Wing r. .... R. B. Brier  
L. Ryan ..... C. Braubard  
A. Ryan ..... C. Dietel  
Lew lb. .... C. Strunz  
Mullin r. .... C. Pittroff  
Winn, Keegan subs.

**CLINTON**  
C. .... C. Braubard  
Lew lb. .... C. Strunz  
Mullin r. .... C. Pittroff  
Winn, Keegan subs.

Referee: Billy Wilson of Lowell.

Jimmy Keenan, manager of the Sacred Hearts and Danny O'Connor, pilot of the O.M.L. cadets, will present their strongest lineups in tonight's preliminary game, as the winner will then be the logical challenger of the team that lands Monday night's game.

San Antonio, Tex., preparatory to starting the two teams northward, on their barnstorming tour. Hughie Williams is the latest Giant to fall victim to sunburn. He was put to bed yesterday by the club doctor, who ordered him to remain in the shade for a couple of days.

**Rabbit in Great Form**

PITTSBURGH, March 17.—The Pittsburgh National Regulars, ever a winning game series with the Yankees by winning a fast practice game at Hot Springs yesterday, 7 to 3. Despatches from the Pirates' camp tell of the fine work of Freddie Blake, the West Virginia pitcher. Maraville, the regular shortstop, continued to play in mid-season form. He got two hits, a double, a run, and had five putouts and four assists without a miss.

George Gibson, the Pirate pilot, was placed with the two practice games, stated that he has decided to stage such contests just as often as possible.

**Last Holdouts Yield**

PHILADELPHIA, March 17.—Every one at the Philadelphia Americans training camp at Eagle Pass, Tex., was in a happy mood today due to the receipt of Manager Jack of a telegram from first baseman Joe Hauser that he was on his way from Milwaukee to join the Athletics. Hauser, obtained from Milwaukee, was the last of Mack's holdouts.

The Philadelphia Nationals played their first exhibition game yesterday at Hot Springs, Ark., against the Washington Americans 10 to 8.

**Sentators Like Allege**

WASHINGTON, March 17.—The best feature of the Senators' 10 to 3 victory over the Phillies at Leesburg, Fla., yesterday, in the opinion of Manager Egan, was the showing of Manager Mike of the White Sox yesterday, according to word received from the training camp at Seguin, Tex. After the day's program was over, Manager Kid Gleason declared that his club had gone through the best workout of the training season. After another effort drill today the club will journey to San Antonio, the training home of the New York Giants, where games are scheduled for Saturday and Sunday.

**White Sox Show Class**

CHICAGO, March 17.—With Captain Eddie Collins at second base and Earl Sherry at first, the White Sox performed like a major league club yesterday, according to word received from the training camp at Seguin, Tex. After the day's program was over, Manager Kid Gleason declared that his club had gone through the best workout of the training season. After another effort drill today the club will journey to San Antonio, the training home of the New York Giants, where games are scheduled for Saturday and Sunday.

**SCHOOL GIRLS FORM BASEBALL LEAGUE**

PHILADELPHIA, March 17.—A baseball league is being organized among the high school girls of this city. In announcing the plans for the organization Miss Janet H. Waller, supervisor of athletic activities of the high school, today said that regular schedule of interschool competitive games would be arranged. She predicted that in the near future, hockey and football leagues also would be formed at the girls' schools.

**NEGOTIATIONS BREAK DOWN**

LONDON, March 17.—Negotiations that have been proceeding under the supervision of the minister of labor between the Shipbuilding Federation and the Amalgamated Society of Engineers broke down today.

**CUTBILL HOPES TO BREAK RECORD**

BOSTON, March 17.—Hud Cutbill, the "flying person" who is captain of the track team of the Boston A. A., leaves today for Buffalo, N. Y., where tomorrow night he will attempt to break the world's record for 1000 yards indoors. In winning the national championship at that distance and on the same track recently he equaled the record, two minutes, 13.2 seconds, made originally by Joe W. Ray. The event tomorrow night will be a handicap race with runners set with Henry Leonard. The pair are to weigh in at 2 o'clock at 135 pounds.

**CHARLEY WHITE MEETS JOHNNY DUNDEE**

NEW YORK, March 17.—Charley White of Chicago and Johnny Dundee of New York, veteran lightweights, will meet in Madison Square Garden tonight, supplying a fitting crown to what promises to be the busiest St. Patrick's Day in the history of New York. They are booked to travel 15 rounds. Both boys are looking forward to matches with Henry Leonard. The pair are to weigh in at 2 o'clock at 135 pounds.

## Trio of Veteran Cub Stars

LEFT TO RIGHT, ALEXANDER, KILLIFER AND MARTIN

Fitching is a ball team's greatest asset. For that reason much of the success of the Chicago Cubs this year will depend on the showing made by Grover Cleveland Alexander and Speed Martin.

Alexander didn't have such a good year in 1921. A lot of the exports have expressed the opinion that Alexander has reached the spot in his career where it is only natural that he should start to slip.

## MONEY IN GOLF

Old Race Track Earns \$61,000 as Golf Course

CHICAGO, March 17.—How to make

Alexander, however, doesn't share their belief. He feels that he is due to put on a real comeback in 1922. For that reason he is grooming himself carefully for the coming campaign.

Alexander is one player who has no set rules to follow as to conditioning himself. Manager Killifer leaves it all to the veteran's judgment.

Speed Martin and Alexander are shown in the picture watching Manager Killifer handle the shoots of one of the promising Cub recruits.

A race track pay after racing has been legally abolished, has been demonstrated by the owners of the old Harlem track which, turned into a pro rata golf course last year, earned \$61,000, it was announced today.

## Dickerman &amp; McQuade

## Spring is Here

—and we are ready for you. Brand NEW MERCHANDISE, every bit from REPUTABLE makers of QUALITY goods. Can you afford to buy anything else these days?

## Spring Hats

Attractive new shapes to suit every head. Colors predominating on Fifth Avenue are shades of brown and pearl. We have 'em, of course, from the best makers only.

\$3.00 to \$7.00

## Spring Coats

Just in. Rich garments, light in weight but with body enough to give protection through the zippy days to come. Heather mixtures, knitted fabrics and loose auto coats are to be the popular ones. Society Brand, Hickey Freeman and other best makers.

\$25.00 and up

## Spring Suits

New mixtures and new models from Society, Hickey Freeman and other makers of quality. You know what that means—style and workmanship unquestioned, satisfaction certain and your good appearance guaranteed.

\$35 and up

## Sport Clothes

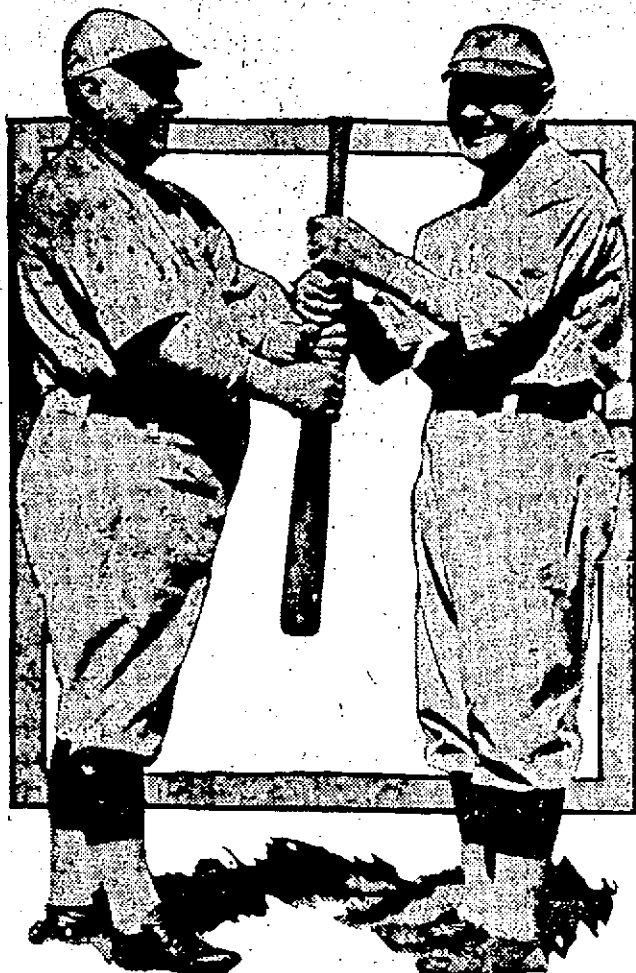

We are now taking your measurements for golf clothes—one suit to a pattern—made in four models and tailored to your needs. Two, three or four-piece garments. Come in before the rush is on.

CENTRAL AT MARKET ST.

## Giants' Leaders Choose-Up

LEFT TO RIGHT, JOHN MCGRAW AND HUGHIE JENNINGS.

John McGraw and Hughie Jennings are in charge of affairs at the training camp of the New York Giants at Marlton, Texas.

McGraw looks after the rookies and Jennings handles the regulars. Since McGraw knows what the veterans can do, he is more interested in directing

the youngsters.

The daily games between the regulars and the scrubs are hotly contested. There is always an argument as to which team shall take the field. This is settled by McGraw and Jennings in the usual kid fashion as shown in the picture.

FATHER TIME PLAYS  
HAVOC WITH STARS

BY BILLY EVANS

What position in baseball is most directly affected by the age of the player?

It is my opinion that age hits an infielder harder than any other player. Then comes the outfielder, followed by the catcher with the pitcher bringing up the rear.

All of which means that it is harder for Father Time to land a knockout punch on the pitcher than any other player.

Age hits the legs of an athlete, the ball player in particular, much quicker and harder than the arms.

Slowness of foot drives many a player out of the majors when his arm is as good as it ever was.

When Bobby Wallace departed from the majors his wonderful throwing arm was as strong as ever. His legs, however, had gone back on him. He had slowed up terribly.

Only a few years ago, after Wallace had been out of the game for a couple of years, I watched him work out in practice with the St. Louis Browns.

His old "souper," as the ball players affectionately refer to their throwing arm, was as good as ever. The ball crossed the infield with the same speed and accuracy that made Wallace one of the most talked about players of his day.

Age is a destroyer of the motive power of the legs. Since infielders must move quickly on hard hit balls and have only a given space in which to move they suffer from a result of the ravages of Father Time.

Slowing Up Is Fatal

The slowing up of a step or two often marks the passing of a player from the majors. The outfielders also have to cover considerable territory. However, they have more time to act and can play their field to suit the tendencies of the batters.

It is a rarity in baseball to get a catcher who is dead of foot even in the youngsters. This is explained by the unusual amount of squatting a catcher is forced to do in giving the signals. Fleetness of foot doesn't mean much to a catcher.

The pitcher, however, of all players is the one least affected by lack of fleetness of foot. He doesn't have a great deal of fielding.

With the pitcher the arm is the thing, just as long as the "souper" is pliable and he can just "em through," he is able to get by.

Cy Young was in the forties when he retired. Babe Adams, at 33, is still one of the most valuable pitchers in the National League.

These two great stars of the majors, Walter Johnson and Grover Alexander, are 33. Red Evers, who was the sensation of the American League last season, is 34.

There are possibly 30 major league pitchers who have passed the 30 mark and all of them are regarded as the regulars.

**BANK OF ENGLAND DIVIDEND**

NEW YORK, March 17.—The Bank of England, which has distributed a five per cent. dividend semi-annually since 1914, has increased the rate to 6 per cent., a cablegram to a financial agency here said today. A dividend at an annual rate of 12 per cent. has not been paid by the Bank of England for a whole year since 1905.

**JULIAN S. KARR DEAD**

NEW YORK, March 17.—Julian S. Karr, president of the Durham Hosiery mill of Durham, N. C., died at a hotel here today.

MT. PLEASANT GOLFERS  
ELECT OFFICERS

The 12th annual meeting of the members of Mt. Pleasant Golf club was held last evening in the quarters of the organization. In the early part of the evening supper was served and this was followed by a business meeting in the course of which it was voted to build an addition to the club house. Reports of the various officers were submitted and officers were elected for the ensuing year. The golf tournament, organized between the Blues and the Reds was brought to a close and prizes were awarded. The Blues, captained by J. B. Martin, won the tournament. The Gillespie shield was presented to Arnold B. Howard, while the president's cup went to T. J. Ward. The club's cup was won by Felix Langevin. The election of officers resulted as follows: William H. Wilson, president; C. B. Abbott, vice president; Hector Hill, secretary; George Q. R. Hathaway, treasurer; Walter Jewett, C. D. Grassie and W. W. Rawlinson, directors.

CARR CHARLIE PADDOCK  
OF AUSTRALIA

E. W. Carr is the Charlie Paddock of Australia.

This famous runner, who recently broke the 100 and 220-yard dash records that have stood in Australia for 20 years, is considered the greatest amateur runner that country has ever produced.

E. W. CARR

Carr, in a recent meet with the South African champion, showed the way in all the sprint events.

Carr's time for the 100 yards was 22.5 seconds. He covered the 220 in 21.1-5 seconds.

Apart from being a star performer on the track he is a crack rugby player. His speed is a great advantage in that game.

Australian experts believe he can beat anyone in the world at the sprint. They are talking of trying to get Charlie Paddock to make a visit to that country.

NATIONAL LEAGUE HEAD  
TALKS ON HOLDOUTS

BY BOB DORMAN

NEW YORK, March 17.—There are no holdouts in other league at present," says John Heydler, head of the National League.

Rather a strange statement, yet President Heydler means every word of it.

"Not until the bell rings, and a play-

PRESIDENT JOHN HEYDLER

er had failed to report can be classed as a hold-out," continued President Heydler.

"Too much is made of the so-called hold-out."

"Many players who are dubbed hold-outs are merely lax in answering their correspondence."

"Other players are away from home hunting or fishing, and fail to get the contract promptly."

"As for the fellow who asks for a change in the contract submitted to him for his signature, why should so much ado be made about it?"

"Ball players are no different from anyone else. They have their services for sale, the same as a lawyer."

"They have the same right to put a veto on their work and to bargain with their employers in order to obtain that price."

"In any business the man whose salary demands are unreasonable will soon find himself out of a job. That goes for baseball. Some players have an exaggerated idea of the profits made in baseball."

"Any club owner will tell you that the profits of the last two years, which have been the banner years of baseball, have not wiped out the deficits incurred from 1913 to 1919."

"As for admission prices, a little thought will convince anyone that they are eminently fair, as compared with that of other amusement enterprises."

"Regarding the outlook for the present season I am through making predictions. They're the bunk. I would

have to issue a favorable statement no matter what I thought.

"I am hoping that baseball will not suffer as a result of business conditions as they now exist."

"It seems that all over amusements have felt the pinch. Baseball is peculiar, however, it seems to weather a financial crisis better than any other amusement enterprise."

"Baseball is played under ideal weather conditions most of the season. That is one of its best assets in weathering a tight money market."

"Everyone likes to get out in the open. A ball game affords such opportunity. It is one of the thrills that are furnished by the great national pastime."

"For that reason, no matter how low one's finances may be, they manage to dig up enough to enable them to gain admission to the ball park."

"Picking a winner in the National League is beyond me. Perhaps I have

a pretty definite opinion, but I am not going to express it. That wouldn't be diplomatic."

"I might say, however, that the New York Giants won the pennant and World's Series last year. The Giants are certainly no weaker. Heine Groh at third gives the team additional power."

"There are seven other clubs in the National League, however, and I am not merely handing out flattery when I say that I believe each and every one is stronger than it was last season."

"St. Louis has a great team. It was going better than any club in the league at the close of the 1921 campaign. Gibson is sure to have the Pittsburgh team up there."

"I look for keen competition and a great race."

Halley's comet travels about 249 miles a second.

LADY ASTOR TO VISIT U. S.

Lady Nancy Astor, first woman member of the British parliament and a native of Virginia, will speak at the third annual convention of the National League of Women Voters at Baltimore in April. Here she is with her husband and four children.

A VACATION CONFERENCE

Secretary of War Weeks, George B. Christian, the president's secretary, and President Harding hold a conference of grave importance at St. Augustine, Fla. The matter under discussion is whether it will rain, spoiling the day for golf.

BY THEIR GAMES YE SHALL KNOW THEM

Where the Stars and Stripes go, there goes baseball. Just so, cricket follows the British flag. This pickaninny pitcher delivers a native war whoop before he delivers the ball. That, in the heart of Africa, where cricket players use grass for shin guards.

## STUDENT FINED \$100

Harvard Junior, Armed With Revolver and Metallic Knuckles, Arrested

BOSTON, March 16.—An early morning cruise along the waterfront, dressed as a longshoreman, brought Frederick Shattuck Whitehead of Portland, Ore., a junior at Harvard college, into the Boston court today charged with carrying a revolver and metallic knuckles. He was fined \$100 on the first count, and sentenced to six months on the second, but the latter was suspended. Accompanied by a fellow student whose name was not disclosed, Whitehead was acting so suspiciously that a policeman took both into custody. Search of his dungarees disclosed the weapons, which he said he carried to be in readiness for anything that might happen. It was all an adventure, he explained. His companion had no weapons and was released.

## CLAIMED EXEMPTION, DENIED CITIZENSHIP

BOSTON, March 16.—Federal Judge Morton today dismissed a petition for naturalization brought by Benjamin Shattuck of this city, a graduate law student at Boston university, who claimed exemption from military service during the world war on the ground that he was an alien. Judge Morton has many times verbally refused to admit persons to citizenship who had claimed exemption for similar reasons. In his written decision he declared that Shattuck did not "seem to have been attached to the principles of the constitution, as those words are used in the statute."

"Although he has been for several years a resident here, at the time of the war," said Judge Morton, "he was not willing to render military service to this country."

"His attitude was very different from that of thousands of non-declarant aliens, who waived exemption and served in the United States armies. Without undertaking to say that a refusal to do military service in every case and under all circumstances would be convincing evidence of lack of such attachment, I think it is so in this instance."

"Moreover, the petitioner made no declaration of intention until the danger of war had passed, and then he speedily fled the jurisdiction, on which he claims probable in spite of his protestations to the contrary, that he withheld the declaration for the purpose of avoiding military service."

Shattuck had filed his petition preparatory to application for admission to the bar in the case on which Judge Morton made verbal rulings the petitioner had taken out their first papers before the war.

## SENNACHER GETS DIVORCE

Manager for Miss Rappe, Whose Death Resulted in Man's Murder Charge Against Arbuckle, Granted Decree

LOS ANGELES, Cal., March 16.—Al Sennacher, manager for Miss Virginia Rappe, film actress, whose death resulted in the manslaughter charge against Roscoe Arbuckle, has been granted a divorce from Lucille Sennacher. He charged desertion and named a correspondent.

## MASS. JUDGESHIP BILL

FAVORABLY REPORTED

(Special to The Sun)

WASHINGTON, March 16.—The Massachusetts judgeship bill favored by Representative Joe Walsh of Massachusetts was favorably reported today by the House Judiciary committee. It provides that the state of Massachusetts shall constitute one judicial district, to be known as the district of Massachusetts. Terms of the district court shall be held at Boston on the third Tuesday in March, the fourth Tuesday in June, the second Tuesday in September, and the first Tuesday in December, at Springfield on the second Tuesday in May and the second Tuesday in August. Provided that suitable rooms and accommodations for holding court shall be furnished free of expense to United States, and provided further that all writs, precepts and processes, shall be returnable to the terms at Boston, and all court papers shall be kept in the clerk's office at Boston, unless otherwise ordered by the court, and the terms at Boston shall not be terminated or adjourned to hold court at Springfield or New Bedford. The marshal and the clerk for said district shall each appoint at least one deputy to reside in Springfield and to maintain an office at that place. The additional term at New Bedford is suggested by United States district judge for the district of Massachusetts and the judiciary committee report accompanied by a letter from Judge Jas. M. Morrison, Jr., of the United States courts, Boston making this recommendation.

The report points out that the Federal Building at Boston is not suited to hold court with comfort to jurors, parties, or their witnesses during the summer months. The building is located in a center of business activity, surrounded on three sides by narrow streets upon which are located office buildings of many stories in height. During the hot weather ventilation is not good and the work day is interrupted by great discomfort. The increase of business in this district is such as to require sessions during the summer, especially for criminal business. At New Bedford there are adequate facilities owned by the county of Bristol.

RICHARDS.

## REPLY TO DEMAND OF U. S. GOVERNMENT

PARIS, March 16.—(By the Associated Press.) The text of the collective reply made by the finance ministers of France, Great Britain, Belgium and Italy to the demand made by Roland W. Boyden on behalf of the Washington government for consideration of the cost of the American occupation troops on the Rhine, was made public today. The essential part of the document reads:

"When the United States in whatever manner they shall be defined later, we consider that our decisions being taken under the treaty of Versailles, to which the government of the United States is a party, the question which you have addressed to us concerns our respective governments and ought to be the subject of communications addressed through diplomatic channels by the United States."

against Roscoe Arbuckle, has been granted a divorce from Lucille Sennacher. He charged desertion and named a correspondent.

## THE BICKER FAMILY

## WASHINGTON PARLEY

SAVED BY

(By the Associated Press.)

LONDON, March 16.—(By the Associated Press.)—Lieut. Col. Leopold Amery, parliamentary and financial secretary of the admiralty, in presenting the naval estimates in the house of commons today said the savings resulting from the Washington conference would amount to 15,200,000 pounds. "We have reached the limit," he said. "Things have been scrapped to the bone. Only a further cut in prices, or possibly other navies following up the Washington conference by a more advanced policy in the reduction of armaments, can make possible additional economies in subsequent years."

## THIRD MOVE TO SETTLE R. I. TEXTILE STRIKE

PROVIDENCE, R. I., March 16.—Based on its action on the passage by the lower branch of the legislature yesterday of the Lavender 48 hour bill for women and children, the state board of mediation and conciliation this afternoon began its third move to bring about arbitration of the issues involved in the Rhode Island textile strike. Two previous attempts to bring mill owners and strikers together had failed.

## \$1,000,000 FOR RELIEF OF DISABLED VETERANS

ALBANY, N. Y., March 16.—A bill carrying an appropriation of \$1,000,000 for the relief of disabled, unemployed world war veterans was passed unanimously by the assembly today.

## SHOOTS YOUTH AND THEN ENDS LIFE

SHERBROOKE, Que., March 16.—William Sullivan of Lewiston, Me., died today from wounds self-inflicted after he had shot Emilie Martel, 17, who is in a critical condition.

## SILK SHAMROCKS JUMP 400 P. C.

NEW YORK, March 16.—Silk shamrocks for St. Patrick's day have gone up 40 per cent in price and neither Britain or Ireland is to blame. The fault lies with Japan, where the all-silk shamrock grows. Dealers said

KIWANIS CLUB CARES FOR HER

Doris Edelsheim, 10, is crippled because of war conditions under which she lived in Galicia, but the Kiwanis club of Newark, N. J., is paying for medical care which is expected to cure her. Here she is in the arms of her nurse.

HERE IS MATILDE MCCORMICK'S FIANCE

Max Oser with his favorite horse, "Talguy" and his dog, "Pens." In the inset Max takes off his hat so you can have a better look at the Swiss livery stable proprietor who is to marry Matilde McCormick, 16, granddaughter of John D. Rockefeller.

## To Allow 2400 Aliens to Stay

WASHINGTON, March 16.—The house today passed a resolution under which approximately 2400 aliens admitted temporarily to the United States prior to March 7 in excess of the three per cent quotas of the restrictive immigration law would be permitted to remain in this country permanently. The measure now goes to the senate.

that for some reason unexplained none had come from Nippon and only the left over of last year were available. These cost \$1.35 a gross instead of the usual 35 cents.

Sun dial is supposed to have been invented about 555 B. C.

## SOME KISSES KICK UP BLOOD PRESSURE

SAN FRANCISCO, March 16.—Kisses, some of them, kick up your blood pressure.

So says J. V. Brettweiser, of the University of California's department of education. He has measured the "kiss."

Given one man and one woman who will kiss, Brettweiser told the San Francisco Advertising club he would measure the linear extent and millimeters of blood pressure resulting from:

The mistletoe kiss.  
The stolen kiss.  
The expert kiss of the finished flirt.  
The soul kiss.

Brettweiser said the instrument he uses is so sensitive it will register the domestic kiss, the degree of frigidity in kisses one woman gives another she does not like, and so forth throughout all grades of osculation.

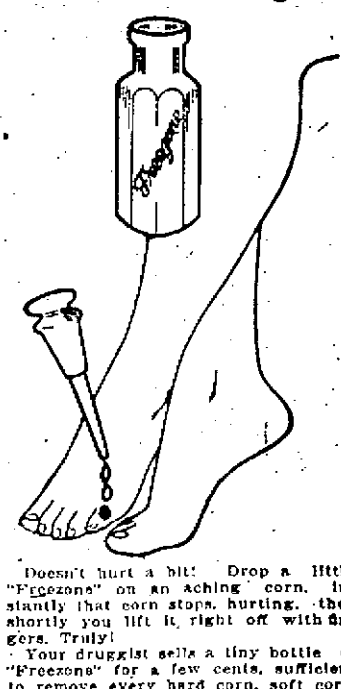

Brettweiser calls his instrument the kissograph. He puts a man and woman who will kiss; he attaches wires to them; then they kiss. The machine acts automatically. He also said there is no difficulty in obtaining couples to carry on the experiments.

The instrument is an adaptation of the sphygmomanometer, which is a machine psychologists in criminology use to detect lies.

Mount Vesuvius is the only active volcano in Europe.

## CORN

Let Off with Fingers

## CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels when you have Dizzy Headache, Cold, Stomach, Indigestion, or Upeck, Acid Stomach, or constipation. Cascarets, the candy-like "Cascarets," or Oil and they cost only ten cents a box or two tonight will empty your bowels completely by morning, and you will feel splendid. They work while you sleep. Cascarets never stir you up or grip like salts, pills, Calomel, or Oil and they cost only ten cents a box. Children love Cascarets, too. Ask your druggist for a few cents, sufficient to remove every hard corn, soft corn,

## Suffered Two Years with Asthma—Restored to Health by Wincarnis

Mrs. Jennie Hamblet, 14 Chandler St. Nashua, N. H. could not sleep nor eat.

Lungs filled with mucus—could not take deep breath, kept growing weaker and weaker—Now well.

Edward Lescage, Inc. 14 Chandler St. Nashua, New Hampshire November 26, 1921

Dear Sirs: You have no idea what a joy it is to me to tell you about my own case. I began suffering from asthma about two years ago. The attacks soon became so frequent and severe that it was almost impossible for me to lie down in comfort or to get any sleep at all in bed. There was so much thick and sticky mucus in my lungs that I could not take a deep breath. My attacks were made so much worse by eating that I simply could not consume enough food to nourish my body.

In time, I lost so much flesh and strength that I was scarcely able to do any work at all. I tried all sorts of medicines, but continued to grow weaker and feel more and more run-down and utterly miserable. Finally, my druggist suggested that I try Wincarnis, knowing that nothing else had done me any good. I began to feel wonderfully improved before I had finished taking the first bottle. I have taken five bottles and really feel like a new person. I now sleep soundly, am refreshed when I wake up, eat any and every sort of food, have an abundance of energy and very seldom have a return of my old attacks.

I do wish every sufferer from asthma or extreme weakness would try Wincarnis, for it certainly is the most wonderful of all tonics and it restores one's strength so quickly. You may publish this letter of appreciation of what Wincarnis has done for me if you like.

Yours very truly (Signed) Mrs. Jennie Hamblet

# THE LOWELL TEXTILE STRIKE

Nothing New in the Local  
Strike Situation—Strikers  
Remain Firm

Lowell Labor Leaders File  
Protest Against Bill to Re-  
peal 48-Hour Law

John Hanley, president of the Lowell Textile Council and a member of the executive board of the United Textile Workers of America, who with General Organizer Thomas J. Reagan and Frank N. Stimpson, the latter secretary of the Trades and Labor Council, attended the legislative hearing in Boston yesterday on the proposed amendment to repeal the 48-hour law in this state, stated today that he firmly believes an adverse report on the bill will be made by the committee to the house of representatives.

The Lowell men did not have a chance to be heard against the proposed measure, for the time allowed the opponents of the bill was but one hour and that was consumed by labor representatives from Boston, Fall River and New Bedford. "Overthrusts," said Mr. Hanley, "the Lowell delegates filed a written protest with the committee in behalf of the thousands of mill operatives in this city."

"If the bill should be reported favorably and the legislature should vote to repeal the act, it would mean a flight to the finish between the thousands of United Textile Workers' members in this state and the manufacturers. Under no consideration will we go back to slavery days. For years we have conducted a strenuous fight for the 48-hour law and after many hardships and struggles we have succeeded in having the law placed on the statute books, this law having gone into effect Feb. 3, 1919, and we are now assured that we will not get away with it. The legislature has the right to repeal the act, but there is nothing that can force us to work more than 48 hours."

Mr. Hanley believes that the manufacturers are behind the movement and he said their sole ambition is to have the operative work five days and a half and pay them for but four days. "It is true," he said, "that Massachusetts is the only state in the union that has legally adopted the 48-hour law, but that is no reason why the law should be repealed. Massachusetts has always been known to protect its women and children and I see no reason why it should keep up its good name. I may say that the event of the law being repealed, a bitter fight will be carried on against the manufacturers not only by organized labor, but by unorganized operatives as well."

**Loomfixers' Meeting**

The loomfixers who are on strike at the Big Shiff and Corp. and the Hamilton Mfg. Co. held their roll call this morning in their quarters and every striker responded to his name. Reports were given out to the effect that everything is going along smoothly and that the strikers are still firm in their determination to win their fight. It was stated at strike headquarters this morning that as soon as the credentials permitting the strikers to solicit funds in other cities from locals of the American Federation of Labor are received, committees will be appointed to visit the textile centers of New England, where no labor trouble exists.

A mass meeting for all the members of the city will be held this evening in the Trades and Labor Council hall for the purpose of organizing the members of that craft under the banner of the United Textile Workers of America. Tomorrow evening at 8 o'clock a meeting of the general strike committee will be held in Trades and Labor hall and it is hoped all will be present, for matters of great importance will be brought to their attention.

**Barbers' Strike**

It was learned today that only four members of the Journeymen Barbers' union, who have been out on strike for several weeks, are out of work. Some of the strikers have gone back to their old jobs after their demands had been granted, while others have secured work elsewhere.

**THE WIDENING  
OF FIRST STREET**

The city solicitor has ruled, in an opinion given to the board of public works, that no portion of Vernon park at the junction of Third and First streets, can be taken for the widening of First street without the consent and approval of the park commission. The solicitor states further that he recommends the usual eminent domain formalities be followed in the matter of private takings.

**MERRIMACK RIVER**

There has been no appreciable change in the height of the water in the Merrimack river locally during the past 24 hours. Today's reading on the Boott mill gauge was 43, practically the same as was taken yesterday. The present low temperature will have a tendency to postpone any general breaking up of ice or a prolonged thaw.

# FIND 44 BARS OF SILVER

Real Bullion Worth \$3500  
Dug Up On East Bank of  
Niagara River

BUFFALO, N. Y., March 17.—The police and the sheriff's office today were trying to solve the problem of how bar silver worth between \$3500 and \$4000 came to be buried on the farm of Lewis Salmon, on the east bank of the Niagara river, near La Salle.

Salmon called on a Buffalo jeweler yesterday with a sample of the metal which he had turned up with a spade. Learning that it was real bullion, Salmon reported his find to the police and, accompanied by an officer, returned to the farm.

They dug up 44 bars, each six inches long, three inches wide and half an inch thick. The soil showed no sign that the bullion had been recently buried. The bars were found at varying depths, from one to four feet below the ground level.

Representative of the William A. Rogers company, of Niagara Falls, N. Y., and the Onondaga Community company of Niagara Falls, Ont., are expected here today to examine the bullion. The Rogers company was robbed of 5600 ounces of silver two years ago, and in June 1921, the Onondaga Community company lost a similar amount through theft. Most of the silver stolen from the Onondaga Community company was recovered in New York.

# PASSES EXAMINATION FOR NAVAL ACADEMY

James Francis Byrne, son of Mrs. Mary F. Byrne of 60 Plummer avenue, received notification yesterday from Congressman John Jacob Rogers that he had successfully passed the mental examination for entrance to the U. S. Naval academy at Annapolis, Md., and that he would be notified later when to report for the physical examination, sometime in the middle of June. If he is found to be physically qualified he will be appointed a midshipman at once. Congressman Rogers congratulated him on his success and wished him the best of luck in the one remaining test.

As a result of a special examination in this city early this year, four young men, including Byrne, were ordered to report for a mental examination on Feb. 15. Of the four who took the examination, young Byrne was the only one to receive a qualifying mark, achieving an excellent grade of 3.6 out of a possible 4 points, an average of 88 1/2 per cent. It marked on the percentage basis. As he passed the physical test easily at the preliminary examination, little doubt is felt of his admission to the naval academy.

Young Byrne was born in Lowell on Dec. 1, 1903. He received his early training in the immaculate Conception parochial school, entering high school upon completing his elementary studies. In high school he prepared for the Massachusetts Institute of Technology, and graduated with the class of 1921. A brief illness prevented his entrance to Technology, however, and when he heard of the competitive examination to be conducted some time ago for appointment to Annapolis he decided to try his luck. Upon receiving the appointment to the academy with three other boys as alternates, he went to Annapolis to attend the Army and Navy preparatory school in that city. After one month's study he took the examination in which he so successfully passed.

# DEATHS

**JANTZEN**—Marie A. Jantzen died March 14 at her home, 78 West 30th street, New York city. She leaves one daughter, Mrs. Mary A. Turcato of New York city, a brother, James J. Jantzen of Lowell, and five nieces and five nephews.

**POSTER**—Arthur Lang Poster, a native of Tewksbury, and for 20 years residing in Lowell, died yesterday morning at his home, 17 Webster street, Roxbury, aged 66 years. Mr. Poster was a brother-in-law of a past master of St. Paul lodge and past commander of Joseph Warren commandery, K.T., as well as being a member of the Grand Lodge of the state. He was survived by his wife, Della Ackley of Roxbury; a daughter, Dorothy Foster; two brothers, John E. and Howard W. Poster, both of Lowell; and two sisters, Mrs. Fred Hayton of Lowell and Mrs. Carolyn S. Cole.

**TAISBY**—Died March 16, in this city, Mrs. Jennie M. Taisby, aged 51 years, at her home, 61 Warren street. She is survived by her husband, Fred I. Taisby, two daughters, Agnes E. and Helen Taisby, two brothers, James Taisby of Boston and W. H. Thompson of Baltimore, Md., and her foster mother, Mrs. Susan Cutler of Pelham.

**CALAHAN**—Mrs. Maria A. Calahan, wife of Philip I. Calahan, died this morning at her late home, 14 Beacon street. She was a well known member of St. Michael's parish. She is survived by her husband, Philip I. Calahan, a brother, Mrs. Edna J. Calahan of Lowell and Mrs. Abner Treadwell of Manchester, N. H.; one brother, Edward E. Calahan of Haverhill; two nephews and two nieces of Reading.

**GOODSON**—Mr. Antoine Goodson, aged 72 years, died this morning after a long illness. He is survived by one son, Edward Goodson, and one daughter, Mrs. Emma Gise, both of Lowell. His remains were removed to the undertaking rooms of James W. McKenna, 412 Bridge street.

**CLARK**—Mrs. Mary McAlister Clark died this morning at St. John's hospital. She leaves four sons, Edward, Henry, John and Thomas; two daughters, Sarah and Irene; one brother, John McAlister. The remains were removed to her home, 21 Ludlum street, by undertakers Hagan Bros.

# FUNERAL NOTICES

**LEHRUN**—The funeral of Boniface Lehrun will take place Saturday morning at 8 o'clock from his home, 133 Cheever street. High funeral mass will be sung in St. Joseph's church at 9 o'clock. Friends are respectfully invited. Burial arrangements in charge of Funeral Director Jos. Albert.

**DEMY**—The funeral of Mrs. Emma Demey will take place Saturday morning at 9 o'clock from her home, 624 Moody street. Solemn high mass of requiem will be sung in St. Jean Baptiste church at 10 o'clock. Friends are respectfully invited. Burial will be in St. Joseph's cemetery. Arrangements in charge of Funeral Director Jos. Albert.

**TAISBY**—Died March 16 in this city, Mrs. Jennie M. Taisby, aged 51 years, at her home, 61 Warren street. Funeral services will be held at 11 o'clock, St. Paul avenue Saturday afternoon at 2 o'clock. Friends are invited without further notice. Burial in St. Joseph's cemetery. Arrangements in charge of Undertaker George W. Healey.

**SCOTT**—Died in this city, March 16, at the Highland club, James R. Scott, aged 38 years, in his 41st year. Funeral services will be held at 11 o'clock, St. Peter's church, 230 Westford street, Sunday afternoon at 2 o'clock. Friends are invited without further notice. Burial in St. Joseph's cemetery. Arrangements in charge of Undertaker George W. Healey.

**HAYNES**—Died in this city, March 16, at her home, 440 Wilder street, Mrs. Laura E. Haynes, aged 69 years, 10 months and 4 days. Funeral services will be held at 10 o'clock, Wilder street Sunday afternoon at 2 o'clock. Friends are invited without further notice. Burial private. Funeral arrangements in charge of Undertaker George W. Healey.

**POLEY**—The funeral of Mrs. Madeleine (Savage) Poley will take place Saturday morning from her late home, 23 Prospect street, at 8 o'clock. At St. Peter's church at 9 o'clock a funeral high mass will be celebrated. Burial will be in the family lot in St. Patrick's cemetery. Funeral arrangements in charge of Undertaker O'Connell & Fay.

**CALAHAN**—The funeral of Mrs. Maria A. Calahan will take place Monday morning at 8 o'clock from her home, 82 Beacon street. A funeral high mass will be celebrated in St. Michael's church at 9 o'clock. Burial in St. Patrick's cemetery. Undertakers Charles J. Molloy's Sons.

**CLARK**—The funeral of Mrs. Mary McAlister Clark will take place Monday morning at 8 o'clock from her home, 21 Ludlum street. A funeral high mass will be celebrated in St. John's church at 9 o'clock. Burial in St. Patrick's cemetery in charge of Higgins Bros., undertakers.

# FUNERALS

**MALISTER**—The funeral of Mrs. Emma E. Malister took place yesterday afternoon at 2 o'clock, St. Michael's church. The services were conducted by Rev. John Field Steel, pastor of the Westminster United Presbyterian church. The floral offerings were numerous. The following bearers were: Mrs. L. B. Tansy, Merle A. Twitcheil, John Fields and Oscar

# FLETCHER STREET LEDGE

Street Department Men Are  
Assorting Old Paving  
Blocks to Be Recut

Street department men are at work on the Fletcher street ledge, cutting paving blocks piled there in an effort to ascertain just what the department has on hand for this year's paving work. Four-inch, six-inch and old blocks that may be recut are being sorted for easy counting.

Large gangs of men are working throughout the city, filling in washouts in chisel sidewalks. All the walks adjacent to the isolation hospital were in bad condition as the result of recent heavy rains and these have been placed in good shape. Chisel sidewalk repaving also is going on in Central-ville and in the Highlands.

The department is conducting a general house cleaning at the ledges, sand banks and stables and yard, getting ready for the summer's program of work.

**ROBERTS**, burial was in the family lot in Westland cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

**MELVIN**—The funeral services of William E. Melvin were held yesterday afternoon at Saunders' funeral home, 217 Appleton street. Rev. Arthur G. Lyon, pastor of the Pineknoll Congregational church, officiated. The floral tributes were numerous. The body was placed in the receiving tomb at Forestlawn cemetery, Chelmsford Centre, where the committal services were read by Rev. Mr. Lyon.

**McNAMARA**—The funeral of Thomas McNamara took place this morning from his late home, 206 Moore street, at 9 o'clock and was largely attended by many sorrowing relatives and friends. The funeral cortege proceeded to the Sacred Heart church, where at 10 o'clock a funeral high mass was celebrated by Rev. Bernard Fletcher, O.M.I. The sanctuary choir under the direction of Mr. John Kelly sang the Gregorian chant. Solos of the mass were sung by Mrs. Philip Mooney, Miss Irene Harkin and Mr. John McMahon. Mr. Kelly presided at the organ. There was a profusion of beautiful floral offerings to testify the high esteem in which the deceased was held, as well as many spiritual bouquets. There was a delegation present at the funeral from Division 1, A.O.U., consisting of Messrs. Patrick Downs, Thomas Buttemore, Michael Connelly, John Murphy and Frank Landey. The casket was borne by the following bearers: Messrs. William Finley, William Sullivan, David Anglin, James McLean, John P. Dean and Patrick Dawn.

# SUN BREVITIES

Best printing, Tobin's Associate bldg. Wire frames for lamps and telephones. Electric shop, 62 Central st. Fire and liability insurance. Daniel J. O'Brien, Wyman's Exchange.

Bring in your party worn and old style hats. Shanley & Co. will make them over into stylish up-to-date neck pieces for that new spring suit. 54 Merrimack street. First door from Central street.

The regular monthly meeting of the Woman's auxiliary to the Y.M.C.A. was held this afternoon in Y.M.C.A. hall. Rev. Richard Peters of the Highland Congregational church was the speaker.

At a recent meeting of the Past Presidents' association of Princess lodge, 12, the following officers were elected for the ensuing term: Sarah Mitchell, president; Charlotte Taylor, vice president; Clara Harkness, recording secretary; Ethel Mortham, treasurer; Sarah Dotter, chaplain.

George M. Harrigan, treasurer for the local Woodrow Wilson Foundation fund, states that so far only \$152 has been received from Lowell residents. It has been several weeks since any donation has come in. The money is on deposit at the Lowell Trust Co. and will remain there until the campaign is over.

# MEMORIAL AUDITORIUM SAYS DISCIPLINE AT LOW POINT

Mayor Brown Gives Out  
Schedule of Items Included  
in Loan Order

It was learned today just what is covered in the item of \$30,000 for "original equipment" included in the \$70,000 loan order submitted to the city council last night for work on the Memorial auditorium.

According to a detailed statement of the items included in the \$30,000 given to Mayor George H. Brown by the building architect, the following schedule was given out by the mayor today:

Curtains, \$3000; shades, \$1000; linoleum, \$5000; moving picture machines and motor generator, \$5000; two screens, \$500; kitchen equipment, \$3000; fire extinguishers, \$500; miscellaneous furniture, \$5000; ticket rack, \$1000; painting walls of veterans' wing, \$1000; soap machines, toilet paper, etc., \$500; stage rigging, \$3000; furniture for reception rooms, \$1000. Total, \$23,500.

The remaining \$60,000 of the total \$90,000 loans, is divided as follows: Grading, \$10,000; walks, \$8000; seeding, \$1000; planting, \$2000; river wall, \$5000; fence on river wall, \$2000; changing bridge, \$5000; two flag poles, \$1000; 20 electric light poles, \$1500; two electric chandeliers, \$1500; six brackets, \$1000; electrical work, \$2000; spot lighting, \$1500; grading Brown street, \$10,000; sidewalks, \$5000; miscellaneous, \$2500.

# SUDDEN DEATH OF MRS. LOUISE RICIN

Mrs. Louise Ricin, aged about 50 years, dropped dead in her room in the rear of 318 Moody street, last evening. The body was viewed by Medical Examiner T. B. Smith, who stated that death was due to natural causes. The body was later removed to the funeral parlors of Undertaker Joseph Albert in Allen street.

Mrs. Ricin seemed to be in the best of health all day. Last evening at about 9 o'clock she went to her room to retire, but a few minutes later she was found lying on the floor, apparently unconscious. A physician was summoned, but upon his arrival he found that the woman had passed away. Deceased is believed to have brothers and sisters living in Manchester, N. H.

# APPROPRIATION FOR MEMORIAL DAY

The disabled war veterans have requested Mayor Brown for a separate appropriation of \$500 for use by them on Memorial day and the mayor said today the request would be granted.

It is in receipt of a letter from Commander Harry E. O'Sullivan of Lowell Chapter No. 5, Disabled American Veterans of the World War, stating that the chapter recently voted to turn out on Memorial day and that inasmuch as expenses would be incurred, an appropriation of \$500 would be appreciated.

war, who has been in Lowell visiting the Strand theatre, called at the high school today, and addressed the various English classes on the plays of Shakespeare. This morning he addressed three classes and gave a reading of "Macbeth" and during the noon hour he read "Othello" to four of the classes. Master Harris introduced the visitor to the assembled classes.

# CARD OF THANKS

We, the undersigned wish to express to our friends, neighbors and relatives, our sincere thanks for their acts of kindness, expressions of sympathy, and offerings of floral and spiritual bouquets, in the death of our beloved son and brother, To the members of the Lowell Chapter, No. 5, Disabled American Veterans of the World War, we are especially grateful.

MRS. CATHERINE GEARY,  
WILLIAM GEARY,  
MRS. FRANK DOHERTY,  
MRS. WALTER POWERS.

### TENSE MOMENTS AT MEETING OF THE CITY COUNCIL LAST NIGHT

Bomb Shell Explodes When Acting Superintendent of Police Says Ex-Service Men Volunteer to Serve as "Spotters" in Liquor Law Enforcement Work---Vigorous Debate on Ordinance Creating Director of Employment---Other Matters

Startling revelations regarding the employment of former service men as "spotters" in liquor law enforcement work which included a statement by W. C. MacBrayne that veterans have applied to him for this kind of work and a further statement that one ex-soldier thus employed left town on a \$50 bribe, sufficed to enliven the atmosphere in the aldermanic chamber at city hall last night at the regular meeting of the city council.

The acting superintendent of police came before the council to discuss his

departmental estimates for 1922 and was subjected to a cross fire of questions for nearly an hour. Councilor Sadler was most insistent in his efforts to obtain information about the department, particularly the liquor law enforcement phase of it and it was in answer to questions by the councilor from Ward 4, that Capt. MacBrayne made the statements concerning the employment of ex-service men.

"Do you mean to say, Mr. MacBrayne, that ex-soldiers volunteer for employment of the council to discuss his

### TRUSTEES FOR NEW AUDITORIUM

Mayor Says He Will Be Guided in Choice by Suggestions of Commission

Does Not Consider Building Entirely Military Affair---Is for the Public

Says He Will Find Money to Pay Mackenzie and O'Dowd

Mayor George H. Brown said today that he will be guided to a large extent in his appointments to the staff of the Memorial auditorium, particularly as to the personnel of the board of trustees, by recommendations and suggestions of the present auditorium commission.

It might be said, in passing, that it is understood that no member of the building commission cares to become a trustee.

The mayor also stated that while he appreciates the connections between veterans of all wars and the auditorium, he does not consider it a military proposition in entirety. He does say, however, that probably there will be more veterans than civilians among the employees of the building.

This latter statement was made when questioned as to whether or not he had received a formal letter of protest from Lowell post, American Legion, on the appointment of any but veterans of one of the wars in which this country has been engaged, to the auditorium staff.

Such a letter of protest was voted last night at a meeting of the executive committee of Lowell post. The mayor did not receive it this morning.

The mayor stated that he will find money with which to pay Collin H. Mackenzie and Paul O'Dowd after Contractor Drapeau leaves the building. The former is now serving as custodian, while the latter's title is keeper of records.

### \$6,000,000 BOND ISSUE

MONTREAL, March 17.—The government of Newfoundland has sold to the Dominion securities syndicate an issue of \$6,000,000, five and one-half per cent 20-year bonds, payable in New York at 98.75, American funds. It was announced today.

Some 45,000 stitches are required to make the ordinary suit of clothes.

### DEMAND U. S. PRESS CLAIM

Senators Lodge, Underwood and Borah Call for Payment of \$241,000,000

Underwood Also Urges Appointment of American on Reparations Commission

WASHINGTON, March 17.—Declaration that the United States should insist upon payment of its bill of \$241,000,000 for keeping Americans on the Rhine were made in the senate today by both party leaders—Senators Lodge and Underwood—and by Senator Borah.

Mr. Underwood also urged appointment of an American representative on the allied reparations commission.

Both Senators Lodge and Underwood charged the allies with attempting "by a technicality" to oppose payment of the bill for the American troops, while Senator Borah said the allies' attitude was "outrageously unwarranted."

Senator Underwood asserted that the republicans were responsible for not having a member of the reparations commission. This, the democratic leader asserted, was the only way in which the occupation claim could be collected.

Senator Lodge, Washington, denied this contention, declaring that the obligation to pay for the American soldiers rested upon the armistice agreement and not upon either the treaty of Berlin or that of Versailles.

Senator Borah brought up the question. He called attention to reports that Premier Poincaré of France had declared that America has no legal right to collect for the keep of American troops in Germany.

"I have no doubt that Secretary Hughes will work out some method of securing payment," said Senator Borah, adding that he was, however, primarily interested in having all American troops brought out of Germany.

### Hughes to Send Notes

Secretary Hughes was engaged today drafting identical notes, which will be sent to the allied governments setting forth the views of the United States on its demand.

While no intimation was given concerning the text of the notes, it was said at the state department that the forthcoming communication would show that the United States expected its rights to payment to be fully met. It also was said that the notes would set forth that America was willing to wait for a reasonable settlement of its claims, and that the American government was endeavoring to act without undue harshness in the matter of payment.

### LAVANDER 48-HOUR BILL IS REFERRED

PROVIDENCE, R. I., March 17.—The Lavander 48-hour bill, passed Wednesday by the house of representatives, was received in the senate this afternoon and by a vote of 18 to 5 was referred to the judiciary committee.

## Spectacular Raid Just Before Dawn; Most Important in New York Since Advent of Prohibition

### John McHenry Hanged for Murder of Detective and Auto Dealer

John McHenry, 24, formerly of New London, Conn., was hanged today for the murder of a Washington city detective and an automobile dealer.

WASHINGTON, March 17.—John McHenry, 24, formerly of New London, Conn., was hanged today for the murder of a Washington city detective and an automobile dealer.

An attempt to prevent the hanging today was made by the local branch of the Friends of Irish Freedom, whose

members said the taking of McHenry's life today would amount to a desecration of the Feast Day of Ireland's patron saint.

It was brought out at the trial that McHenry had served sentences in several New England reformatories, and other penal institutions.

WASHINGTON, March 17.—A serious epidemic of smallpox is sweeping Costa Rica. A despatch from San Jose says 22,000 persons have the disease.

### BOOZE LABELLED "FISH"

Scotch Whiskey Valued at \$18,000 Seized at St. John, N. B.

ST. JOHN, N. B., March 17.—Scotch whiskey in barrels labelled "fish," valued at more than \$18,000, and said to have been stolen from New York, was held by local authorities today pending official action by provincial liquor officers concerning its disposal. A guard of heavily armed revenue officers surrounded the box car in which the barrels were found.

Officers became suspicious when they noticed the barrels of "fish" being loaded into the car. They opened one of the barrels. Beneath a shallow layer of not very fresh fish, they claim to have found a large amount of whiskey labelled "Teacher's Delight Cream."

### LOWELL IRISH HISTORICAL SOCIETY HOLDS FIRST ANNUAL BANQUET

St. Patrick's Day Eve Observance in Lincoln Hall Is Big Success---Prominent Speakers From Various Walks in Life Eulogize Work of Ireland's Patron Saint---Stirring Irish Music Adds to the Spirit of the Occasion

Never before in the annals of the Irish race in Lowell has the eve of St. Patrick's day been more fittingly observed than at the first annual banquet of the American Irish Historical society of Lowell, held in Lincoln hall last evening. Prominent speakers representing different walks of life, including the ecclesiastical, educational and political, voiced their admiration and respect for Ireland's patron saint, eulogizing his work in the cause of Christianity and spoke in glowing terms of the historic episodes in which Irishmen of every generation had led parts. The men of Irish birth and ancestry now living came in for a share of praise as the exponents of their ancestors' principles. Stirring Irish music was rendered by a splendid quartet.

After a reception lasting over an hour, the gathering of about 400 persons continued to Page Eight

### NEW HAVEN RESTAURATEUR VICTIM OF \$2500 SWINDLE HERE

Story Told the Local Police of Bunco Game Is Substantiated by Them---Man Alleged to Have Taken the Money Makes Quick Getaway

Claiming to have lost \$2500 through a Lowell restaurant deal, a man giving the name of Charles Vincent of New Haven, Conn., who stated that he owned a restaurant at 15 Broadway street, that city, told a story to the local police Wednesday afternoon, which, according to the criminal investigating bureau, is the last act of an out and out bunco game.

Accompanied by a man named Edward Baker, Vincent applied to the police for aid and unfolded his story, the truth of which, the police say, is substantiated by an investigation of the case.

Vincent said that Baker and another man named Fountain came to him at his restaurant in New Haven and said that they wanted to buy a restaurant in Lowell and asked if he could loan them some money. Vincent claimed that he has known Baker and Fountain for a long time and trusted them. The New Haven restaurant owner told the police that he procured \$2500 in cash and put the same into an envelope which he gave to Fountain. The story goes on that while the three were talking a man named Crandall joined the party.

### ARE WILLING TO ARBITRATE

Pres. McMahon Denies Rumors of Refusal on Part of Workers to Arbitrate

Unfounded Reports Circulated for Purpose of Alienating Public Opinion

PAWTUCKET, R. I., March 17.—Thomas P. McMahon, international president of the United Textile Workers of America, issued the following statement relative to arbitration of the textile strike today:

"From several sources it has come to my attention that the representatives of the striking textile workers have refused to arbitrate the question of wages. These unfounded rumors are for the purpose of alienating public opinion."

"I wish to state as president of the United Textile Workers of America that, at no time since the battle started have the representatives of the workers, by word or act, taken the position that these rumors would indicate, but, on the other hand, we have been from the beginning willing to arbitrate wages before any public tribunal because we feel confident with the facts in our possession as they relate to the textile industry both here and in the south that we have nothing to fear from such public hearing."

"If the employers feel so confident of their case and continue to maintain that they cannot operate their mills at a profit on account of southern competition, why do they not come out in the open and prove their case before a public tribunal."

### BOSTON GIRL WAS VICTIM OF POISON

BOSTON, March 17.—The body of Pauline Virginia Clark, 22 years old, was found today in a room on Newbury street, under circumstances indicating that she had poisoned herself. Medical Examiner Magrath, after an investigation said the girl had collapsed while entertaining some friends last night. When a physician arrived she was dead.

Friends of the young woman said that she had previously exhibited a bottle labelled poison and had asserted that when she was through with life, she would make use of it.

### IRISH NIGHT HELD BY K. OF C.

Historical Address by Hon. William H. O'Brien of Boston

Refuted Senator Williams' Charge That Irish Had no Part in Revolution.

Hon. William H. O'Brien was the principal speaker at the Irish Night conducted by the Knights of Columbus at the council rooms in Associate building last evening. His address was quite scholarly and of great historic value as he quoted high authorities for everything he said. He traced the emigration from Ireland from the earliest days of the colonies down to the Revolution, showed the part played by the Celts in that struggle, the distinction maintained by Irish immigrants in all the activities which led to the establishment of the republic and its defense in all the trials and struggles that have since occurred, including the war of 1812.

He was followed by Rev. Fr. Heffernan, chaplain of the council in speech setting forth the reasons why the Irish in America should be proud of their ancestry and aid in striking the shackles from the limbs of Mother Erin.

"The observance was planned by the lecturer of the council and carried out in a fitting manner. Grand Knight John E. Hart opened the meeting and introduced the lecturer, who, in turn, continued to Page Eight

### DRAW FOR DAVIS CUP MATCHES

NEW YORK, March 17.—The draw for the 1922 Davis cup matches for the world's world's team tennis championship, made at the office of the United States Lawn Tennis association here today, follows:

First round, upper half: Canada vs. France; Belgium vs. Australasia; Hawaii vs. Czechoslovakia.

First round, lower half: Spain vs. Philippines; Romania vs. India; Italy vs. Japan.

Second round, upper half: (Bye) vs. (Bye); (Bye) vs. (Bye).

Second round, lower half: (Bye) vs. (Bye); (Bye) vs. (Bye).

## INCOME TAXES

One Cent and \$100,000 Lowest and Highest in State

BOSTON, March 17.—One cent, paid by a Fitchburg man and \$100,000 by a corporation, were lowest and the highest amounts paid as income taxes in Massachusetts. Collector Nichols said today that this year's taxes would run 25 per cent. less than last year.

AT ALL SOULS' CHURCH  
Mrs. Claude U. Gilson of Boston gave her second of a series of talks on current events yesterday at All Souls' church. She talked on the soldiers' bonus, the four power treaty, military occupation of the Rhine, British affairs and other topics.

## NO. CAMBRIDGE WOMAN SAYS RECOVERY DUE TO WELDONA

Claims Pain Stiffness of Chronic Rheumatism of Joints Quickly Disappeared

In an interview given to the Weldonia representative, relative to her

recovery, Mrs. H. Henderson, whose ad-

dress is 2564 Massachusetts Ave., No. Cambridge, Mass., and who is proprietor of a delicatessen store, said: "I suffered from rheumatic neuritis and pains in my arms, shoulders and knees for seven years. The pain was severe at night and it was difficult to get to sleep, or find a comfortable position. My knees were stiff and sore, and it was very hard for me to get up from a chair after sitting any length of time. It was hard for me to get my hand to my head because of the pain in my shoulder. Weldonia was recommended and after taking this preparation a short time the pains and stiffness left me, the swelling disappeared, and by continuing the treatment every sign and symptom of rheumatism completely disappeared."

Weldonia is full of results for those who suffer from rheumatism. One trial proves it. \$10.00 is offered. If twelve months are other than genuine or have been purchased. Get Weldonia now, today, from your druggist. Send to Weldonia Co., 132 Baylston St., Boston, Mass., for free book, "Glorious Rheumatism."

Get Weldonia now, today, from A. W. Dowd and all reliable druggists.

### THIRD FLOOR WALL PAPER SHOP TAKE ELEVATORS

#### Value in Wall Paper

True value in Wall Paper is found only when you pay a fair price for well made paper. Cheap Wall Paper is an abomination. It's hard to hang, often has a very disagreeable odor when wet with paste, and lasts but a few months. It costs as much to hang as it does good paper.

Long wear in Wall Paper is a result of good materials used in its manufacture. Papers made to sell at a price are cheaply made. But the papers we sell are made by big reliable mills which have a good reputation to uphold.

No other local dealer buys from as many good mills as we do. And none buys at a lower price.

Instead of buying from only two or three cheap mills we buy from a dozen of the best. We select the best from their combined offerings. Is it any wonder we show the largest and best line of Wall Papers in Lowell?

A hundred bargains at ..... 5¢ to 25¢ roll  
Over 400 patterns priced from ..... 9¢ to \$3.50 roll

## Half of All Students Work Way Through College in United States

ANTONIO FRESNEDA AT HIS STUDIES, AND (BELOW) AT WORK; LEFT, TUTORING ANOTHER PUPIL; RIGHT, DOING STENOGRAPHIC WORK.

By N. M. A. Service  
NEW HAVEN, Conn., Mar. 17.—Young man, do you want to go to college? Say Yale or Harvard or Columbia or Cornell or Northwestern or any of the big American colleges?  
"Yes," you say, "that would be fine. But I haven't the money."  
You don't need the money! Make the money as you go along. Half the college students in America are earning their way through college, at least in part, government experts have found.  
A trip to Yale shows you how they do it.  
A questionnaire was sent out by the Bureau of Appointments of Yale to determine how many students were paying their own way by working.  
President Angell of Yale says that half of the students of the college

answered, and of these 52 per cent were working their way through.

Under handicap  
One of them is Antonio Fresneda. He is a Cuban, and he started under a great handicap.  
Fresneda is now in his junior year. He says it is a pinch for a young man to work his way through college.  
"My freshman year was the hardest," says Fresneda. "The only thing I knew was manual labor."  
"I waited on table for my board, took care of a furnace and shoveled snow from sidewalks for my room. I sold Sunday papers, acted as agent for a laundry and at various other jobs, made enough to pay for books and clothes."  
Vacations I worked as section hand on the railroad and carried bricks.  
Stuck to it  
"But I stuck to it—while other fellows were becoming athletic heroes and taking part in social affairs."  
"It is easier now. Tutoring and typewriting furnish me with enough to get by on."  
"I pay \$3 a week for my room. My board costs me \$11 a week, tuition \$3.50, books and papers \$2, clothing \$1, laundry \$1.50, incidentals \$3. This totals \$33 and I find no difficulty in earning it."  
"The experience has been valuable to me. It has taught me that if I believe in a thing, I can do it."  
Yale is not an exclusive school for the sons of rich men. It counts its self-supporting students by the hundreds.

However, exceptional qualities are demanded of the student who works his way through. The leisure time exempted from classes and studies, that more fortunate students spend in seeking pleasure, the self-supporting man must spend in earning his way.

Bureau Aids Students  
A bureau of appointments whose chief aim is the aid of needy students is maintained.  
The bureau works in two ways: by granting honorary college scholarships and acting as a clearing house for work.

When the bureau, after careful investigation of the applicant, deems that a youth's character and record school record have been of sufficient promise an allowance of \$120 of the total tuition fee of \$150 for the first term may be made. The allowance for the second term of the school year and for succeeding terms depends on the student's academic standing.

For the first two years these allowances are made with the understanding that no obligation of repayment is incurred.  
After the first two years, non-interest bearing notes are taken for the remaining tuition, payment on which is due five years after graduation.

Suhuna, an active volcano in the Andes, is about 20,000 feet high.

#### WOMEN AND MEDICINE

In Europe years ago, a woman named Hildegard wrote a notable book on medicinal plants. In those days the men were too busy bothering about dogmas of religion and medicine, and the study of herbs was thought beneath their notice.

It was the women, however, who mostly conducted the herbals and cared for the sick, and thus they learned much of great value. They let the men fight out the questions of theories.  
Lydia E. Pinkham's Vegetable Compound, prepared almost fifty years ago by a woman, Lydia E. Pinkham, did then, and does now, relieve the ailments peculiar to women. It is a valuable compound and of great value for this purpose. This is proven day after day, and in your own neighborhood, by grateful women who have used it.—Adv.

#### \$20,000 LOSS

### Palmyra, Maine, General Store Destroyed by Fire

PALMYRA, Me., March 17.—The general store of L. W. Frost was completely wiped out by a fire which broke out in the basement yesterday forenoon and spread so rapidly that but little could be saved. The store contained the postoffice, in which everything was burned; the town public library of 2000 volumes and the telephone pay station. Mr. Frost, who is town treasurer, could not save his books and records. Loss on store and stock amounts to about \$15,000, partially insured. The town library was valued at \$2000 and was not insured. The fire also spread to the brick residence of Sidney Weeks, which was burned with a loss of \$3000, insured for \$1000. A barn across the street owned by G. W. Mills was burned with a loss of \$800. A bucket brigade, the only fire protection, saved the house.

#### FIRE CHIEFS MEET

Chief Edward J. Saunders of the fire department attended the annual meeting of the Massachusetts Fire Chiefs' club, which was held at the Parker house, Boston. The chief topic of discussion at the meeting was "Fire protection afforded to communities which do not maintain fire departments." Chief Saunders said in the course of his remarks that it was his belief that Framingham is the only city that ever charged surrounding towns for fire protection and service. There is not one town in the vicinity of Lowell that has no fire apparatus, and that is a fact which should be almost wholly on the department of the state infirmity for protection.

All of the albatross is a pale pink color, shading to yellow at the tip.

Dignified Washingtonians are turning up their noses at the pet of Yvette, vaudeville star. It's a skunk. Here she is at the White House with it.

### LOWER CAR STEPS OR BLINDERS FOR MEN

CHICAGO, March 17.—Longer skirts for women, lower steps for street cars,

or blinders for men—Chicago must have one of the three. In order to prevent a steady increase in accidents, Alderman Leo Klein declared in introducing an ordinance before the city council providing for lower street car steps.

The women wear such short skirts that when they start to climb up, the high street car steps—well, the men can't seem to keep their eyes to the front and many accidents occur, particularly among motorists, explained Mr. Klein.

The proposed ordinance was referred to a committee.

### EXTRA DAY'S REST FOR PRESIDENT

ST. AUGUSTINE, Fla., March 17.—(By the Associated Press.) President Harding has an additional day of vacation as a result of his decision to delay his departure for Washington until tomorrow. He plans to obtain as much benefit as possible from his rest here.

## SHOE MEN TO ASK FURTHER WAGE CUT

BROCKTON, March 17.—Declaring that a 10 per cent revision downward in factory cost of shoe production does not sufficiently meet the clamor of the shoe consuming public throughout the country for quality shoes at lower prices and it is not commensurate with the reduced cost of living the Brockton Shoe Manufacturers' association in notices signed by Secretary Frank M. Rump notified the several localities of the Brockton Shoe Workers' union in Brockton today that at the expiration of 60 days it will request the state board of arbitration to reopen the wage revision case decided by the board March 15, when a 10 per cent general reduction was ordered effective from that date in 44 factories in Brockton and towns of the Old Colony district, employing in all more than 20,000 operatives.

The employers in giving notice of intention to ask the state board to reopen the entire general issue, will press for a further general reduction.

There are approximately 50,000 club-women in Pennsylvania.

## MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy have take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent little-water drink.—Adv.

## Camden Man's Amazing Message to Rheumatics

After Suffering Intense Agony for Many Years—He Wants to Tell Others.

Dr. Bragdon: I simply had to write and tell you what your wonderful Camphorole has done for me. For many years I suffered the tortures of Rheumatism as only those who have it know. At the same time I had a terrible itch and, covered with sores, the sharp pains were so severe, I could not sleep. I had to get up to rub and scratch. It almost drove me crazy. I tried doctor after doctor and all kinds of medicine I was told to take, which only left me worse. I could not bend my knees. I am a steamfitter by trade and had to give up my work. Seeing your advertisement in a paper, I thought I would take another chance and I bought a box of Camphorole. After using two boxes of Camphorole I am well and happy and have gone back to work. I shall never forget the day I took a chance on Camphorole. After all the years I suffered, it felt so good to be well again. Robert W. Trebble, 2917 High St., Camden, N. J.

## DRASTIC CUTS IN AIR FORCE ESTIMATES

LONDON, March 17.—(By the Associated Press) Drastic reductions in the estimates for the air force for the coming year were announced today. The estimates provide £2,335,500 for normal services and £950,500 for war liabilities. Last year's figures were £2,590,000 for normal services and £1,471,000 for war liabilities.

A reduction in force equal to two squadrons is proposed.

Since 1870 the death rate in England has declined nearly 50 per cent.

## AMUSEMENT NOTES

By Theatres' Own Press Agents.

### B. F. KEMPIS THEATRE

The drollness with which "Black-face" Little Ross approaches his story objects at the B. F. Kempis theatre this week is his biggest asset. One can never tell just how Ross is going to surround his subject, but he invariably does it the merest touch of bullseye. His work is without a parallel. And his banjo plucking is also first rate. He is just a natural player of the African melody. Bobby Abner and his lively hands and shoulders has a special good sketch in "A Regular Guy." It is played in admirable fashion by a wholly competent cast. Holmes and LeVere, who are making their initial appearance here, have a vaudeville act which is different, always good and filled with originality. The eccentric dancing of Miss LeVere is especially good. Other acts on the bill are: Ju Da Trio, singers; Ray Nelson, singing comedian; the Seabucks, burp jugglers, and the Kitara, Japanese jugglers.

### RIALTO THEATRE

But two days more remain in which to see "Turn to the Right," which has been drawing capacity audiences to the Rialto theatre all this week. The picture is Rex Ingram's very latest and is reputed as his best yet. It is booked for a showing at Loew's famous Boston theatre next week so if you want to see it you should plan on doing so before Saturday night. As an additional feature for the week-end the Rialto has a snappy comedy, also an attractive story, "David and Jonathan," which, with the Kingdram, make an appropriate program. Don't fail to see it.

### MERRIMACK SQUARE THEATRE

Only a few opportunities remain for admirers of Anna Q. Nilsson, the famous star who recently visited Boston, to see her in her latest production, "Three Days in the Country," at the Merrimack Square theatre. George Arliss

# Today and Saturday

### SUNDAY AT MERRIMACK SQUARE

Manager Nelson has arranged an exceptionally attractive program for the Sunday performance at the Merrimack Square theatre. The featured attractions will be Wallace Reid in "Excuse My Dust," and Johnny Walker and Edna Murphy in "Live Wires." The usual excellent surrounding program will also be carried out.

### CROWN THEATRE

When the new Conway Pearce feature, "Shadows of the Sea," begins a two-day engagement at the Crown theatre today, local patrons of the screen will see one of the most perfectly and impressively cast pictures ever produced. "Shadows of the Sea" is a Seitznick picture which was produced under the direction of Alan Crosland. Frank Dazey wrote the story.

In addition to the cast of principals appearing in support of the star, there has been assembled one of the most remarkable collections of marine "types" ever seen in a motion picture, including practically everything from the jolly young tur to the sodden old salt. Some idea of the cast which has been excelled in the selection of the people to play parts in the picture is indicated by the fact that Franklin Mann, whose stage career is practically every branch of the amusement profession has made her name known in the country, appears in one of the minor roles. "Shadows of the Sea" is a maritime adventure story replete with thrills and love interest. Lovely Doris Kenyon, herself a star of the screen, plays the leading feminine role, and Jack Drummer, as "Shivering Sam," is responsible for one of the best derelict characterizations ever seen. Crawford Kent, Arthur Houseman, J. Barney Sherry, Harry J. Lane and other prominent players complete the cast.

### OPERA HOUSE

Miss Jayne's interpretation of the countess in "The Two Orphans," the play for the week by Miss Marguerite Brown, excels in the selection of the play. It is a reflection of the real capabilities of this clever young woman. Miss and Miss Fields, Miss Hill and Miss Frost and Miss Crawford, help

very materially in the successful presentation. Of course the male members contribute their share. Next week "Slippery McGee," a story that has been read by millions, will be the play for the coming week. It's now. You've read it, now see it in play form. The advance sale of tickets indicate a big business. Better order only.

### THE STRAND

Montagu Love, who is making a personal appearance twice daily at the Strand, will hold a complimentary dancing party in the lobby of the theatre tonight after the regular performance. All patrons who attend the performance are cordially invited to attend and enjoy the pleasures to be had. Mr. Love will be present to exchange personal greetings with his many friends here, and who knows but what he will have a dance or two with some favored young women. Mr. Love is appearing in an original act of his own, the same one that won him merited recognition at the opening of The Strand theatre in Boston earlier in the week.

Besides this special feature there is the usual big double-feature picture program with "The Grim Comedian" as the headliner. In this offering Jack Holt is the star, and he received the

assistance of a capable cast. Garoth Hughes in "The Trench" is the other feature and this too is one of exceptional value.

Montagu Love, a film star favorite in this city, appeared in person at the Strand theatre yesterday afternoon and

evening and at both performances he was given an ovation. Mr. Love was scheduled to present his original act, but owing to the failure of his trunk to arrive, he gave a series of instructions and a brief address, which was greatly enjoyed. At the close of the entertainment the visitor held an informal reception in the lobby of the theatre.

Montagu Love, a film star favorite in this city, appeared in person at the Strand theatre yesterday afternoon and

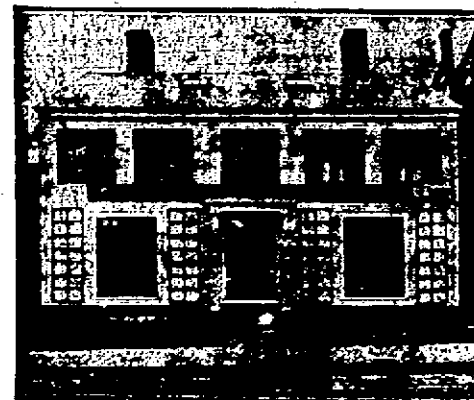

Get Your **Free** \$1.00 Package of Genuine Yeast Vitamins Tablets

If you are thin and emaciated and wish something to help you put on flesh and increase your weight

Yeast Vitamins Tablets should be used in connection with a good diet. They are absolutely useless, as your body cannot change inert, lifeless food into living cells and tissue unless you have plenty of organic iron in your blood. Granulation takes up oxygen from your lungs. This oxygenated organic iron unites with your digested food as it is absorbed into your blood just as iron unites with coal or wood, and by so doing it creates tremendous power and energy. Without organic iron in your blood your food merely passes thru your body without doing you any good.

Arrangements have been made with the druggists of this city to give every reader of this paper a large \$1.00 package of Genuine Yeast Vitamins Tablets absolutely free with every purchase of a bottle of Nuxated Iron.

## 12 KILLED, 30 WOUNDED

Fighting Follows Demonstrations Over Arrest of Indian Agitator

LONDON, March 17.—(By the Associated Press).—Twenty natives were killed and 30 wounded at Nairobi, British East Africa, yesterday, in fighting which followed demonstrations over the arrest of the Indian agitator, Thuku, says a belated Central News despatch.

Thuku was arrested on Wednesday and trouble immediately followed.

When the situation became mounting, the riot act was read and the demonstrators were exhorted to disperse quietly. Instead, they advanced toward the police pallsade, waving flags and shouting. Women were used as shields by the men.

Meanwhile military forces had arrived and upon the mob attempting to rush the pallsade, were ordered to fire. Seeing 50 of their number cut down by the bullets, the remainder of the mob stampeded.

Following this occurrence the demonstrations ceased, and at the time

the despatch was filed, the situation was normal.

**Rebel Leaders Ended Own Lives**  
JOHANNESBURG, Union of South Africa, March 17.—(By the Associated Press).—Joe Thompson, president of the Augmented Executive board of the South African Industrial Federation, has been arrested in connection with the mine strike.

The rebel leaders, Fisher and Spennell, who were found dead in Trades hall at Johannesburg, after the bombardment of the city by government forces, committed suicide, according to an official statement. Their bodies bore shrapnel wounds, but it is thought these came after their deaths.

## MAID CARRIED TWO CHILDREN TO SAFETY

SWAMPSCOTT, March 17.—Miss Grace Hudson, a maid in the home of Mr. and Mrs. John W. Webber, saved the lives of Ruth and Bruce Webber, aged 9 and 3, respectively, by carrying them from the Webber home, which was destroyed by fire late last night. Mr. and Mrs. Webber were returning home from Boston at the time.

Collecting costly snuff boxes was once a fashionable fad in England.

## 50 DRIVEN FROM HOMES BY FIRES

Two Early Morning Fires in South End, Boston, Caused Property Loss of \$50,000

Fire Chief Alarmed by Sparks Showered by Wind Orders People to Street

BOSTON, March 17.—Two early morning fires in the South End district today, drove 50 persons from their homes and caused property damage estimated at \$50,000. Three alarms were sounded for a fire in the old Davis stables on Northampton street. Alarmed by sparks, showered by a high wind on nearby tenement houses, Fire Chief Taylor ordered the occupants to the street. The fire was confined to the big stable. At the same time two stores in a chain of stores on West Canton street, a short distance away, caught fire. Occupants of adjoining lodging houses went to the street in the blinding cold.

A third fire damaged a building on Boylston street at about the same time.

## CHILDREN STRUCK BY AUTOMOBILES

Laura Morin, aged 12 years and residing at 10 Middlesex place, off Middlesex street, is at the Lowell Corporation hospital. The little girl was struck and knocked down by an automobile at the corner of Middlesex street and Grand street yesterday afternoon shortly after 4 o'clock. The

## PUBLIC NOTICE

A certain brand of Liquid Stove Polish has made its appearance in the stores of Lowell, Lawrence and vicinity, bearing the following label:—"Dustless, Dazzle Liquid Stove Polish, manufactured by J. L. Prescott Company, New York, N. Y. Warning:—Do not use on a hot stove. Keep away from fire."

The following statement also appears on the label of the bottles.

"This polish has all the virtues of a naphtha or benzine stove polish and conforms fully to the Massachusetts Laws regulating the manufacture and sale of stove polish."

THE PUBLIC IS HEREBY WARNED that the foregoing statement is misleading and untrue. Several samples of the said stove polish have been tested by the Official Chemist of this department and found to contain gasoline or naphtha in dangerous proportion; therefore the manufacture, storage, transportation and sale of the said stove polish constitutes a violation of section 58, chapter 148 of the General Laws of this Commonwealth.

The publication of this notice is for the purpose of preventing fires and accidents which may result from the use of the said stove polish.

GEO. C. NEAL, State Fire Marshal.

## TO WED WEALTHY WOMAN

Ex-Bus Boy in "Strong Arm"  
Lunch Room, and Miss  
Walton to Marry

BOSTON, March 17.—The astonishing love story of a Rumanian musician, descended from Austrian royalty, who three years ago was a bus boy in a "strong arm" lunch room, has been revealed in the filing in Boston of his intention to marry the sister of a Brookline millionaire.

The parties to this most unusual romance are Alexander G. Romanesque, aged 26, now of 13 Oxford street, Cambridge, and Miss Bessie A. Walton 43, of the Franklin Square House, Boston. Mr. Romanesque is the great-grandson of a Princess of Austria who renounced her title to marry a court violinist.

Miss Walton is a sister of David H. Walton of 310 Kent street, Brookline, millionaire owner of the chain of restaurants which bear his name. She is also related to Mrs. Lutz Anderson, according to Mr. Romanesque.

The couple are planning to be married on Sunday, March 26, at Trinity church, Boston.

## Tells of His Romance

Seated last evening in his office at Oxford hall, Cambridge, where he conducts a dining-room for Harvard students, Mr. Romanesque reluctantly told the story of his romance.

According to his story, Mr. Romanesque was born in Rumania. His father and grandfather were renowned violinists, and the boy had everything he wished. He had heard much of America, however, the land of wonderful opportunities, and a great ambition drove him from the comforts of his native land to this country, nine years ago, when he was 17 years old.

He was well educated, according to the standards of Rumania, but he was refused admittance to American colleges because of his lack of knowledge of English. He was refused admittance to Harvard, Boston University and Tufts college, he said.

About three years ago he obtained employment in the Walton lunchroom, Massachusetts avenue, Cambridge. "There I picked up dishes, washed them and scrubbed and swept the floor," said Mr. Romanesque. "It was very hard work and the hours were long."

He had been working for the Walton system about a year, according to his story, when one day Miss Walton came to the lunchroom. Young Romanesque asked a fellow employee who the lady was and when he was told she was the sister of his employer, he said, "I am going to marry that lady."

## Opens Own Restaurant

Fired by the old ambition and the new incentive, young Romanesque gave up his position with the Walton company and enrolled as a student of the violin at the New England Conservatory of Music, where he is now a third-year pupil.

"I realized, however, that few musicians make much money," said Mr. Romanesque. "So I decided that, as Mr. Walton had become a millionaire in the restaurant business, so might I. Accordingly I opened this dining-room for Harvard students in Oxford hall. I have been very successful and besides the students my regular patrons include a nephew of the late ex-President."

FEW FOLKS HAVE  
GRAY HAIR NOW

Druggist Says Ladies Are Using  
Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Adv.

## "INAUGURAL" BY HAYS

Movie Chief Says Motion  
Picture Industry Accepts  
Challenge of Public

NEW YORK, March 17.—The motion picture industry looks upon the demands made upon it by the American public as a challenge, declared Will H. Hays, the new chief of the industry, here, last night. A gathering of more than 1000 persons heard Mr. Hays deliver what was regarded as his "inaugural address."

"The industry accepts the challenge," said Mr. Hays, "in the demand of the American youth that its pictures shall give the right kind of entertainment and instruction. It accepts the challenge in the righteous demand of American mothers that the entertainment and amusement of that youth be worthy of their value as the most potent factor in the country's future. The opportunity is great and so, in like measure, is the responsibility. That responsibility is accepted."

HUSTLE FOR TRADE IS  
APPEAL TO AMERICA

CONSTANTINOPLE, March 17.—All chambers of commerce in the United States will be asked by the American chamber of commerce here to co-operate in a campaign to educate the American public in the importance of foreign trade. The project was set forth at the annual meeting of the American chamber.

Rear Admiral Mark L. Bristol, the American high commissioner, declared in an address.

"All enlightened business men at home and abroad must unite in educating public sentiment in America to a knowledge that foreign markets are essential to the prosperity of the country."

"This campaign of education must be pushed with the last possible delay because other countries are already forging ahead and are making distinct progress in spite of the handicaps which large armies and unfavorable exchange rates have been to them."

"How to do business in foreign countries must be learned by Americans as a new lesson in commerce and trade. It will take time for our business men to train their foreign agents, yet we cannot afford to wait very long."

"Our competitors are playing a game in which they have been trained for generations. We are almost novices, but we have never admitted any possibility of failure and we shall not admit it now."

"The greatest factor in overcoming all obstacles is a concerted campaign of education and inspiration by chambers of commerce throughout America."

"For successful American competition in foreign markets, it is essential that we should have abroad at least seven activities in every market: Banks, trading firms, steamship agencies, steamship lines, direct parcels posts service, insurance companies and efficient and aggressive chambers of commerce that will bring about union of action for the common good of all business."

ANNUAL "BOYS" DAY  
AT THE Y. M. C. A.

The boys of the Y.M.C.A. will observe tomorrow as the annual "boys' day" during which subscriptions will be collected from the many helpers of that organization. Each year the boys make an appeal for funds with which to carry on their work.

"Boys' day is observed throughout the state by the boys of the various Y.M.C.A.'s. Last year the local lads picked up \$1200 which was more than that collected by any other boys' club in any city. Seventy per cent. of the money is used for local aid while the remainder is sent to other parts of the country to help where money is not so plentiful."

The committee in charge of the campaign today includes: General manager, Guy Butler; district managers, Albert J. Ryan, Jr., Robert Simpson and Edward Lamson; team captains, A. Donald Alexander; B. Edward Holden; C. Harold Bishop; D. Louis Yafa; E. Olaf Myhr; F. John Mountford; G. Amos Fleming; H. Samuel Camp; I. Ralph Butler; J. Evangelos Eleakedis; K. Wallace Sweet.

## JOINS THE G. O. P.

Theodore A. Bell Was Former  
Democratic Leader

SAN FRANCISCO, March 17.—Theodore A. Bell for many years a leader of the democratic party in California, has registered as a republican. He gives as his reason "because I believe that the present foreign policy of the republican administration makes a long stride towards the maintenance of the world's peace."

He has served as a democratic congressman from California and was democratic candidate for governor in 1918.

Allegheny river is navigable for 150 miles above Pittsburgh.

dent Grover Cleveland as well as many members of the Harvard faculty. I also intend to open a fine restaurant in the fall."

According to Mr. Romanesque's story, his proposed marriage to Miss Walton, to whom he has been engaged since last August, was met with opposition by Mr. Walton and by Mrs. Lutz Anderson. Mr. Walton, however, according to Mr. Romanesque, is not now opposed to the match, although Mrs. Anderson, he says, has not changed her views.

Mr. Romanesque said he was proud of the fact that only three years ago he was a bus boy. He is also proud of his family, which is a distinguished and honored one in Rumania. His mother, Mrs. Catherine Romanesque, is now a resident of North Grosvenordale, Conn.

## Banker's Daughter Runs Unique Dancing School

BY ALICE ROHE  
NEW YORK, March 17.—Beatrice Wanger, daughter of a house of bankers, is devoting her life to teaching working girls self-development.

In the Danvers studio I found her surrounded by a dancing group clad in Greek draperies. They had just finished a light supper, for the girls had come to the studio direct from their jobs.

## REMOVES PINS AND FALSE TEETH FROM STOMACH

PHILADELPHIA, March 17.—Publicity attached to the recent successful operation on a little Kansas City girl here for the removal of a pin from her bronchus, has drawn attention to a curious surgical instrument, invented for such a purpose. While the instrument, the bronchoscope, as it is called, is little known to the lay public, physicians said its use for the removal of foreign objects from the lungs and stomach is quite common and that clinics are held throughout the country.

The bronchoscope appears simple enough to the eye. Roughly, it is a straight metal tube, more than one-quarter of an inch in diameter and about 15½ inches long. A tiny wire runs down the tube and there is an electric light at the bottom which enables the surgeon to see into the interior of the lungs, bronchus or stomach. The foreign object is first located by means of X-rays, and then the tube is inserted through the mouth into the lung or stomach. An especially dangerous case was a little waitress of 19, who got a pin a week; another a young stenographer; others were similarly employed.

"These girls have the same right to beauty as those who can afford to go to fine schools," said Beatrice Wanger.

"If you could only see the change in them! I am not a teacher of the dance, but of self-development. I merely use aesthetic expressions of harmony to demonstrate that co-ordination of mental work is as necessary for strengthening the mind as physical work for building the body."

"Rhythm is the first expression of feeling. A right sense of values—balance—leads to creative freedom and broader individuality; it means the right relation to the world."

"These girls want nice minds in nice bodies; they aspire to be of service in the world."

"Some of these girls are of the age to feel the lure of jazz and dance halls—yet, tired out from their work, they prefer to come here. Two just refused \$50 a week to go to South America as chorus girls—and now they make \$12 a week!"

Two thousand girls have passed through Miss Wanger's studio doors to better living in the past six years. Miss Wanger's work is not a commercial one—it is rather a co-operative group demonstrating the spirit of service in daily life as well as through art expression. Each girl pays a bit, in accordance with her income.

signed pair of forceps is then inserted through the tube into the part affected and the object removed. The operation is often bloodless and requires but a few minutes. It has been known for a patient to leave the hospital within a few minutes after the operation, and when he had entered his life was in jeopardy from the introduction of a foreign substance into vital parts of his body.

## COALITION UNIONISTS WIN IN BYE ELECTION

LONDON, March 17.—(By A. P.)—The Coalition Unionists won by a plurality of 843 in the recent Cambridge bye-election against a divided opposition.

The election was for a successor to Sir Eric Geddes coalition Unionist, former minister of transport, resigned. The successful candidate was Sir Douglas Newton.

At the general election in 1918 Sir Eric Geddes defeated the labor candidate by a majority of 7184.

## PRES. GRIFFITH BARS ARMY CONGRESS

DUBLIN, March 17. (By A. P.)—Arthur Griffith, president of the Dail Eireann, has addressed the following note to the ministry of defence:

"It is quite evident to the unanimous Dail cabinet that at the army convention contemplated for March 20 it is proposed to endeavor to remove the army from the control of the government elected by the people, which is the Dail Eireann."

"Such purpose is illegal, and you are hereby instructed that the holding of the convention is forbidden."

## Carson Plays Coalition

LONDON, March 17. (By A. P.)—During yesterday's debate on the Irish Free State bill in the house of lords, Lord Carson, bitterly attacked the coalition government, declaring it had abolished constitutional government and had laid down the principle that by executive action could be brought about not merely constitutional changes but revolution.

Lord Carson declared that in effect the government had told South and West Ireland: "You have known how

to bring the British government to its knees; surely you can do the same with Ulster."

Lord Carson denounced the Free State bill, but said he was not going to argue that the lords ought to reject the bill. But he hoped they would not be so lacking in courage as not to insist that they should never allow, without consent, one acre of land to be taken from Ulster.

After Lord Carson's speech the house passed the second reading of the bill without division.

Lord Birkenhead said it was preferable that the maintenance of order should be in the hands of Irishmen themselves, and he instanced an existing parallel in the Rand, pointing out that if South Africa had not been under self-government the imperial government would have been compelled to hurry troops to the scene, instead of the South African authorities themselves suppressing the revolt.

# TWO BOYS DROWNED

## Boy of 9 Made Hard Fight to Save Himself and Older Brother by Clinging to Ice

BOSTON, March 17.—After a desperate struggle on the part of the younger boy to save both his brother and himself by clinging to the crumbling ice, Charles Mackey, aged 9, and John Mackey, aged 11, of 13 Kensington street, Roxbury, were drowned yesterday in Scarboro pond, Franklin

park. The bodies were recovered an hour later. The boys drowned with help almost within reach. Henry T. Farquharson, of 18 Belmont street, Dorchester, saw the two boys struggling in the water. Scarboro pond is nine feet deep at that point and Mr. Farquharson realized that he could do no good by jumping in through the weak ice, although the boys were only 10 feet away. At that time John had just given up the struggle and was slipping back into the water. Charles, however, kept screaming for help and, with one hand grasping the ragged edge of ice, he held his brother's head above the water with the other.

### Life Preserver Falls Short

Mr. Farquharson threw a life preserver across the ice. It turned over once or twice, and then rolled toward the struggling boy, but stopped a few inches from his hand. Charles' strength meantime was rapidly falling. His brother, unconscious from the cold and the struggle, became too heavy for his hand and the older boy disappeared into the water. Charles made a last attempt to reach the life preserver but failed, and he, too, went down. Mr. Farquharson's shouts for help brought Charles Hogan and other employees of Franklin Park to the edge of the pond, but both boys were out of sight. Bodies Recovered

Patrolman John J. McGovern of the Franklin Park sub-station summoned the police ambulance, Sergs. Fitzpatrick and Gilman, with several patrolmen, waded out through the breaking ice until the water was above their

hips. Grappling irons were thrown out by them. One of the irons caught the body of John and it was pulled ashore. A boat was carried to the spot and the other body was recovered. The boys, pupils at St. Joseph's parochial school, had a holiday yesterday and left home at 10 o'clock to play. They reached the pond about 1 and were discovered struggling in the water about 1.30. They were the only children of Mr. and Mrs. Henry J. Mackey.

# PLEAD FOR AMNESTY FOR POLITICAL PRISONERS

WASHINGTON, March 17.—In the face of apparent and outspoken opposition, lawyers and representatives of various liberal organizations pleaded with the house judiciary committee yesterday to report a resolution asking the president to give "careful consideration" to the propriety of granting immediate amnesty to 113 political prisoners, serving long terms for violation of the Espionage Act. Committee members indicated that the resolution never would pass, insisting that congress has no right to direct the president in such matters, especially because of the lack of opportunity to review the cases.

Albert D. Roe, an attorney of New York, who advocated the general principle of amnesty, said when questioned that he saw no impropriety in requesting the president, the attorney general and the secretary of war to look into the appeals because "the resolution seems harmless as the four-power treaty. Speaking for the American Federation of Labor, Edgan Wallace declared that war laws were necessary, that they should have been enforced, but now in peace times there was no good reason for keeping wartime offenders in jail. Another verbal clash centered around Harry Weinberg, a New York lawyer, one time counsel for Grover Cleveland, the draft dodger, who added that he had "nothing whatever" to do with Bergdall's escape. In a tilt with Representative Reavis, republican, Nebraska, Weinberg said he would express his "opinion on political and economic questions at any time and in any place, despite the supreme court of the United States."

# OHIO TO COMMEMORATE GRANT'S BIRTHDAY

COLUMBUS, O., March 17.—Ohio will celebrate the centenary of the birth of General U. S. Grant, in the counties of his birth and youth, April 27, 28 and 29. Grant was born at Point Pleasant, Clermont County, O., a huddle of houses, 25 miles east of Cincinnati on the Ohio river. If plans are carried out, a distinguished body of men will travel up the Ohio river from Cincinnati April 27 in the steamers Island Queen and Morning Star, to do homage to the memory of one of the most illustrious men born on Ohio soil.

President Harding, who is to deliver the commemorative address, will be on the Island Queen, as will General Pershing and most of the descendants of General Grant. Exercises that day will be held on the plot of ground on which formerly stood the little cabin in which Grant was born; the cabin is on the state fair grounds here now, enclosed in a glass house covering. A detachment of soldiers from Fort Thomas, Ky., are to accompany the president, as will a military band. Four hundred survivors of the Civil war also will go on the boats as guests.

The following day there will be a celebration at Bethel, Clermont county, a village of about 1600 persons, where was born the mother of General Grant, Hannah Simpson, and where the general lived from 1841 to 1845. His two oldest children, Frederick D. and Nellie Grant, were born there. The chief orator that day is to be Senator Frank B. Willis of Ohio.

On the day following, the final event will take place at Georgetown, Brown county, where the boy Grant was taken at the age of one and a half years, and where his entire youth was spent. He went to West Point from there. United States Senator Alben Pomeroy is to be the chief speaker. The counties of Clermont and Brown now are constructing with state aid, a highway from Cincinnati to Georgetown, about 28 miles in length, at a cost of nearly \$1,000,000. This road has been officially designated as the Grant highway, and is along the route traveled by him on horseback in going from Georgetown to Cincinnati when a boy.

The two souvenir coins, issue of which has been authorized by congress, a silver half dollar and a gold dollar, will be sold at a premium, and the funds used to erect a memorial community house in Bethel, and Georgetown, and the construction of a road from New Richmond to Point Pleasant, a distance of five miles, to be known as the Grant Memorial road.

Soap is first mentioned by Pliny.

# President of Dail Eireann Sends Greetings to America

BY ARTHUR GRIFFITH

President of Dail Eireann  
(Copyright, 1922, Lowell Sun)

DUBLIN, Ireland, March 17.—Ireland sends greeting to America on this St. Patrick's day, for her the brightest for many centuries. The new Ireland acknowledges and appreciates the steadfast sympathy and support she has received from the American people through all the years of struggle.

And she reaffirms the long-standing amity existing between the two countries.

On St. Patrick's Day last year Ireland was in the grip of terror, but she was sustained by the fundamental justice of her cause and by the sympathy of the people of the world and pre-eminently of the American people.

ARTHUR GRIFFITH

This year the terror is gone and Ireland takes control of her own destiny and place among the nations of the world.

The American people will now realize her faith in justice, and that Ireland was justified.

We have a great work before us to rebuild a nation oppressed for centuries.

We, the Irish people, take up the work joyfully.

Our friends in America will find that Ireland restored to the Irish people is also Ireland restored to the world.

The close friendship existing between Ireland and America is built on love of right and justice.

Ireland stands for those ideals now as heretofore.

Friendship built upon these ideals is built upon enduring foundation.

## Irish Historical Society

Continued  
The assembly in the hall, where many long tables were spread with snowy white in preparation for the banquet. At the head table were Joseph Carroll, Patrick O'Brien, Jeremiah J. O'Sullivan, Rev. James A. Supple, D.D., of St. Patrick's church, Dr. Michael A. Tighe, Dr. William P. Lawler, Rev. Appleton Granville, rector of St. Ann's church, Hon. W. T. A. Fitzgerald, Hugh J. Molloy, George P. O'Dwyer, Mayor George H. Brown and Rev. Francis J. Mullin of St. Michael's church.

The invocation was delivered by Rev. Dr. Supple, in the absence of Rev. Monsignor William O'Brien, who was absent on account of illness. After the invocation the dinner set down to an appetizing feast of hot roast turkey and all the accessories, including grapefruit cocktail, celery and olives, bluepoint oysters on the half shell, cranberry sauce, hot mashed potatoes, green peas, banana fritters, sauce, haricots, hot cream, frozen pudding, vanilla roll, sauce, assorted cakes, and a delicious coffee. Between the courses there was assembly singing, led by James A. Murphy, and "Believe Me, It All Thine Endeavour Young Chorus," "Come Back to Erin" and "The Harp That Once Thro' Toms' register of deeds in Suffolk county and president of the American Irish Historical society of New York city.

Mr. Fitzgerald began in a happy vein, speaking of the familiar faces in the audience, Suppl. Molloy, Hon. Dennis J. Murphy, Edward J. Tierney, the last named pair his former classmates, and others, including Messrs. James O'Sullivan and Humphrey O'Sullivan. He said that he was scheduled to be in Baltimore last night, but had been persuaded by Mr. James O'Sullivan and his delegation that he must come to Lowell.

Entering upon his address, in response to the toast, "The Commonwealth of Massachusetts—Leader Among States in Civil and Religious Liberty," Mr. Fitzgerald spoke in part as follows:  
"Massachusetts needs no encomium from any other land; she stands; all the world knows her history; there is Concord and Lexington and Bunker Hill." Thus spoke the great Webster in his memorable speech in the United States senate nearly a century ago. Tonight we can amplify the great statesman's reference to Massachusetts towns by adding "There is Boston and Lowell, and Cambridge and Lawrence, and Fall River and Worcester, and Springfield and Holyoke, and many other thriving cities which have become centers of industry, education and American patriotism, thus largely to the efforts of honest, law-abiding Irish immigrants, and their sons and daughters."

"Since Webster's day there is not a Massachusetts city or town that has not been benefited by the rugged honesty and labor of men and women of the Irish race. Our race has furnished the citizen with able chief executives, the bench with learned judges and every honorable business and profession with leaders in their respective lines. The city of Boston has supplied Patrick Donohue, John Doyle O'Reilly, Patrick A. Collins, Jeffrey Roche and Thomas H. Fitzpatrick. Worcester has furnished the commonwealth an able governor and the nation a brilliant U. S. senator in David I. Walsh, and your own city claims as its own the prince of the church, one of the world's leading prelates, His Eminence William Cardinal O'Connell. You have given the O'Sullivan and the name of Molloy, the citizen."

"The citizens of this commonwealth who are proud of Irish origin have just cause for pride in the part the Irish people have played in the past history of Massachusetts and in the history and progress of our great nation.  
"With no desire to detract from the credit due to the people of other races, and with the object of setting forth and establishing the facts, our society undertook its work in a broad and patriotic spirit, and its accomplishments during the past quarter of a century have amply justified the necessity for its existence. The historiographer of the society, Michael J. O'Brien of New York city, has put into cold type the indisputable evidence and records showing that, instead of being a comparatively new race on the shores of the western hemisphere, the Irish were pioneers in the work of civilization and extending civilization and Christianity into the wilderness."

"The first school teacher in New England was Mary Beale of Cambridge, the wife of William Beale, described in the Massachusetts records of the year 1636 as 'German'."

"The first settlement within the territory of the present state of Maine was made in 1607 by a mixed Irish and Scotch company which sailed from Carrickfergus in Ireland."

"The first naval battle of the American revolution was fought and won by the five sons of Maurice O'Brien from Carrickfergus, Maine, May 11, 1775, and the last naval battle in the revolution was fought and won by Capt. John Barry from Wexford."

"The first battle of the camp appointed by Gen. Washington was Joseph Reed, who was the son of an Irish immigrant, and the second, third, fourth and fifth battles were also the sons of immigrant Irishmen."

"From the earliest colonial days in Massachusetts friendly feelings existed between the colonists and the people of Ireland to whom the early Massachusetts records refer significantly as the Irish nation. People of Ireland were always ready to extend relief in the time of need. When the Massachusetts colonists were in dire need during King Philip's war, Ireland was the only European nation that sent relief to the colonists. The relief ship Katherine sailed from Dublin for Boston on August 28, 1675, with a full cargo to relieve the needs of the colonists. It is recorded that in Massachusetts 47 towns and 2351 persons were aided by this timely Irish relief that was distributed by three commissioners sent by the lord mayor of Dublin to take charge of the distribution of the Irish donations, as it is called in the official records of the colony of Massachusetts."

"The speaker next gave a series of names and figures which refuted, he said, the charges of John Sharp Williams, that not over three per cent. of the Revolutionary army were Irish."

"Our Irish ancestors and predecessors have left us a wonderful record of loyalty and achievement," he continued, "and it should be our constant aim to live up to the high standard that they have set for us."

"Let us all here tonight pledge our undivided allegiance and loyalty to Massachusetts as our commonwealth, and to the United States as our nation, reserving however a deep and abiding love and veneration for Ireland, the land of our fathers, and fondly cherishing the hope that God in His infinite wisdom will guide the people of Ireland along the path that will lead in the near future, if not immediately, to freedom and independence, so that the Emerald Isle may once again be known as the Irish nation and speed the day when the outpour of Robert Emmet may be written as his country takes its place among the nations of the world."

## Hail Mother Erin

(Air—Erin, the Dear)

Hail mother Erin thy bondage is o'er  
Hail to the Freedom that lights up thy shore;  
Radiant the sunburst dawn,  
Clouds of oppression gone,  
Struggle of ages won—  
Free as of yore.

Wake thy proud harp in its old bardic strain,  
Send a wild cheer over mountain and plain,  
Hailing thy victory grand,  
Won by thy patriot band,  
Ever our sireland,  
Free to remain.

Ireland a nation, our greetings to thee,  
Glorious thy destiny, Isle of the Sea;  
Proudly thy cause of right,  
Vanquished the power of might—  
Now for the future bright  
Of Ireland Free.

—E. J. G.

between the colonists and the people of Ireland to whom the early Massachusetts records refer significantly as the Irish nation. People of Ireland were always ready to extend relief in the time of need. When the Massachusetts colonists were in dire need during King Philip's war, Ireland was the only European nation that sent relief to the colonists. The relief ship Katherine sailed from Dublin for Boston on August 28, 1675, with a full cargo to relieve the needs of the colonists. "The first battle of the camp appointed by Gen. Washington was Joseph Reed, who was the son of an Irish immigrant, and the second, third, fourth and fifth battles were also the sons of immigrant Irishmen."

was one of their best characteristics. He felt that he could forgive a man for a mistake committed through this characteristic, where it would be hard to find forgiveness for other men not possessed of the same quality.

Other Speakers  
Jeremiah J. O'Sullivan responded to the toast, "The United States—Our Country—Haven of the Oppressed of Every Land." In celebrating the anniversary of Ireland's patron saint, said the speaker, attention might be called to the fact that in the composition of our country there is no greater factor than the Irish love of human liberty. He followed with a glowing tribute to the country, apostrophizing it as the land which extended a welcome to the oppressed and friendship to the reformer in political and religious oppression.

Hugh J. Molloy, superintendent of the Lowell public schools, then delivered an eloquent and scholarly address on the purpose of the society and the record of the Irish race in America. He recited many instances in which records exist to refute the assertions of those who belittle the achievements of the Irish in this country, concluding with the statement that if the Irish of today can serve the cause of historical truth along the lines established by the society, and emulate the work of the men and women long dead, they, themselves, will be better Americans.

Mayor George H. Brown was the last speaker, and spoke briefly because of the lateness of the hour. The topic assigned him was, "The City of Lowell—Famed From Coast to Coast For the Products of Her Mills," but Mr. Brown said he did not wish to keep the audience longer than five minutes at that time of night, and that the necessary speakers had said all that was necessary, probably more appropriately than he could have done. He felt that he could not do justice to the race or its traditions. He felt that the race owes the success it has achieved to its heart. He had associated with Irishmen in daily life in the city, also in the Spanish war and the Philippine Insurrection, and has come to believe that they have attained their success in life to the Christian training and strength of character inherited from their ancestors.

He thanked the society sincerely for the honor conferred upon him, and extended the greetings of the people of the city as their mayor. He expressed his best wishes for their success in the future as in the past.

The Lyceum quarter contributed many beautiful musical numbers during the evening, all of Irish music, and led the assembly in singing "The Star Spangled Banner" at the close of the exercises.

The officers of the American Irish Historical society of Lowell, which and charge of the affair, were as follows: President, Dr. Michael A. Tighe; vice president, Hugh J. Molloy; secretary, George P. O'Dwyer; treasurer, Patrick O'Brien; Miss Frances Masterson and Joseph E. Carroll. The members of the banquet committee were as follows: James O'Sullivan, chairman; Frank M. Brogan, secretary; Miss Frances Masterson, Dr. William P. Lawler and John J. Green.

The banquet was served by the Lyceum Catering Co.

Those who attended last night's banquet are requested to send their names to Secretary O'Dwyer for historical records.

## FLAHERTY SEES IRISH SUCCESS

By JAMES A. FLAHERTY

Supreme Knight, Knights of Columbus  
St. Patrick's Day this year augurs more happiness for Ireland than any St. Patrick's Day I have ever known.

With all its defects, the present system of autonomy which England was obliged to grant Ireland has merits sufficient to be given a test. Admitted that it does not give the Irish people the extent of their just claim—absolute independence. But it must be considered that the English mind has undergone a marked conversion to common sense when it can go back on its old Tory traditions to the degree it has.

Irishmen for leaders  
Naturally, those who have suffered and fought for complete independence for Ireland feel disappointed. But many of the best and most unselfish leaders of the Irish people are identified with the administration of the Irish Free State.

Certainly, the cause of Ireland throughout the world has been aided and the prestige of the cause immeasurably increased by the demonstration of statesmanship and military acumen of the Irish leaders. Weak and tortured they were yet able to bring the heads of the world's mightiest empire to terms.

The Knights of Columbus rejoice that the slaughter in Ireland has been halted, and they look forward to the common sense that England has shown being shown also in Ulster—for there the seat of the Irish trouble lies.

Of over 1400 soldiers selected from the frontiers of Virginia, fully three fourths were of Irish parentage and they were commanded by Col. Thompson, a native of Ireland.

The speaker described the events leading up to the evacuation of Boston and the parts played therein by men of Irish birth or extraction. When Washington crossed the Delaware he had by his side Irishmen named Sullivan, Green, Know, Ewing and Hand, while Bennington and John Stark will live in the annals of the nation as among her foremost heroes.

From Irishmen and the descendants of Irishmen, he said, there has never been one answer:

"Americans we are, first, last and all the time, but Americans proud of our ancestry and insisting upon the right to have that pride for the work that it has done. For we know that the Irish race in America has a glorious past, a fruitful and loyal present, and the prospect of a glorious future."

The speaker quoted from English authorities who said America was lost by Irish emigrants. He also told of the work of the Irish in the navy and referred to the exploits of Captain Jack Barry, one of the American navy. Mr. O'Brien was given a great ovation in closing.

It was Charles Thompson, the Irish-born secretary of congress, who was called upon to read the Declaration of Independence on its adoption at Philadelphia July 4, 1776; and among the signers of that immortal document are the following names of Irishmen or the sons of Irishmen: Matthew Thompson, James Smith, George Taylor, George Reed, Thomas Keen, George Ross, Charles Carroll, Edward Rutledge and Thomas Lynch.

Rev. Fr. Heffernan delivered a stirring address.

During the evening a program of entertainment was carried out with the following members of the council contributing: Daniel E. Brennan, Patrick Grady, John E. Roane, Thomas Delmore, John Doyle, Timothy Finnegan, John Broderick, T. A. D. Sullivan, William Looney and Broderick's orchestra. Luncheon was served after the entertainment.

DR. WILLIAM P. LAWLER  
President

Dr. Michael A. Tighe, president of the local society, opened the exercises following the dinner with an address of welcome to all present. Relating the history of the society to date, he stated that its purpose is to collect of record facts which tend to show the great part played by men of Irish birth or ancestry in the founding of the city of Lowell and its subsequent development. He said that pride of race is the inspiration behind the society, not an arrogant pride, however, but a tolerant and just feeling. After speaking of the work laid out by the society for the year, its organization, duties of members and other details, Dr. Tighe introduced the toastmaster of the evening, Dr. William P. Lawler, who carried on the banner of his ancestors," Dr. William P. Lawler.

Hon. W. T. A. Fitzgerald  
After expressing his appreciation of the honor done him, and reviewing many of the great controversies which have arisen over the part taken by Irishmen in American affairs, as well as the intolerable treatment accorded them in earlier days, Dr. Lawler introduced as the first speaker of the evening Hon. W. T. A. Fitzgerald.

## HIGH SPOTS IN THE HISTORY OF IRELAND

## STARTS TO REBUILD LOST FORTUNE AT AGE OF 101

BAKU, Azerbaijan, March 17.—At the age of 101 years, Hadji Tagiev, Baku's former oil king, who was ruined by soviet nationalization of his property, has started to rebuild his fortune where he began—as a stone mason.

Hadji Tagiev is an optimist. "A man isn't old so long as he can work," he declared and, like a true Mussulman, he continues to dye his white beard brown.

He is using his spare moments in learning to write. For more than 80 years he had signed his name to business papers by making his mark with a blunt stick dipped in ink.

"One must keep up with the times," he explained to curious friends when the centenarian began to take lessons.

Tagiev is known to Americans through his reception in his Baku palace two and a half years ago of the General James H. Harbord mission. He was and is known throughout Russia and the middle east as an example of a poor man who became immensely wealthy, first as a house

holder and then, 60 years ago, through the purchase of a piece of oil land that yielded abundantly. This was in the days when oil was gathered close to the surface and taken from wells in buckets.

When the Azerbaijan republic was sovietized by Moscow, his palace was converted into a children's orphanage and his treasures of art and tapestry scattered. While trying to take some of his silver plate and paintings to the country in ex-guards apparently laden with straw, a red sentinel at the outskirts of the city discovered and seized the escaping wealth. Tagiev was beloved by the workmen of Baku and was not harmed in person. He is now living in the village of Marda Khani, near here.

## ENTERTAINMENT IN CHURCH VESTRY

The Up-Streamers of the First Congregational church presented the three-act comedy, "All Tangled Up," in the vestry of the church last night before an appreciative audience. Mrs. L. D. Haskell directed the presentation.

The cast of characters is as follows: Maj. Hollis Halliday, Edward Abbott; Mrs. Halliday, Elmer Trevors; Clara, Clarence Burrows; Lester McVey, Robert Burns; William Planting, Roy Lockett; Verne, Edward Elmett; Lieut. Hawley, Robert Kensworthy; O'Toole, Joseph Hollingsworth.

## NEW GOVERNMENT IN PALESTINE

LONDON, March 17.—Provisional plans for the future government of

Palestine under the British mandate which have just been issued make provision for the appointment of a high commissioner to be known also as commander-in-chief. He is to have power to appoint an executive council to be constituted in such a manner as may be directed by the British government.

The high commissioner will also be assisted by the legislative council of 25 members. Of these, 12 are to be elected and every man in Palestine over 25 years old will be entitled to vote.

The high commissioner would be authorized to divide the country into provinces or districts and all rights

## HEALS RUNNING SORES AND CONQUERS PILES

Also Stops All Itching of Eczema Almost Immediately

"I felt it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year. I began to use Peterson's Ointment three weeks ago and now it is healed."—A. C. Gilbreath, 702 Third street, Toledo, Pa.

"I'd rather get a letter like that, says Peterson of Buffalo, than have John D. Rockefeller give me a thousand dollars. It does me a lot of good to be able to be of use to my fellow man."

For years I have been suffering through drugists a lot of boxes of Peterson's Ointment for 25 cents. The healing power in this ointment is marvelous. It seems good in a few days. Old sores heal up like magic. Also that other remedy do not seem to even relieve are speedily conquered.

It takes chafing in five minutes and for scalds and burns it is simply wonderful. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

in public lands and also all mines and minerals. Three languages, English, Arabic

and Hebrew, are to be permitted in the debates of the Palestine council, in government offices and law courts.

If any religious community or any considerable section of the population in Palestine should complain that the terms of the mandate were not being fulfilled, it would be entitled to present a memorandum to that effect to the legislative council or the high commissioner who would be required to forward it to the secretary of state for submission to the League of Nations. "Unless the high commissioner gives a written reason to the petitioners for not forwarding it."

## SALE OF CHILDREN AT HONG KONG DENOUNCED

LONDON, March 17.—The sale of boys and girls at Hong Kong has been denounced as "an abominable scandal in a British possession" at a meeting in the Anti-Slavery Aborigines Protection Society here.

St. Leo Strachey, editor of the Spectator, wrote that if the facts were as represented, the state of affairs in Hong Kong represented the vilest form of slavery in existence when young people were deliberately sold and subjected to the cruel and greedy of their purchasers.

A resolution was passed declaring that continuance of the system amounted to the continuance of slavery under the British flag.

It was estimated at the meeting that those held in bondage under this system numbered 50,000.

A score of societies were represented at the conference which was held to determine what steps should be taken to stop the sale of children.

Viscountess Gladstone, who presided, declared that the system ought to be abolished. She said she did not think that any British man or woman could have believed it possible that anywhere under the British flag children four years of age and upward could have been openly sold and handed over as chattels to their purchasers to become drudges or victims of prostitution.

She said, however, that the matter was not so simple as it looked because "the adoption" system was not a wrong thing in itself.

Charles Hobbs, formerly under-secretary for India and president of the Anti-Slavery society, said it was an established fact that Chinese girls and boys were sold and bought in Hong Kong from \$10 to \$16 per year of age and it was a significant fact that higher prices were obtainable when girls were sold for purposes of prostitution. Yet they could not get the colonial office to admit that the system was one of slavery. It was enough for him that it constituted traffic in

## Has Used Allen's Lung Healer For Six Years

And found it an unfailing remedy for lung colds.

If everybody would follow Mr. McKenzie's example the mortality from pneumonia and consumption could be greatly reduced.

Read His Letter

West Lynn, Aug. 22, 1919.

Having used Allen's Lung Healer for the past six years I can honestly say it has proven an unfailing remedy for a cold or cough on the lungs.

If I neglect a cold for a few days it goes down into my lungs and I have a bad cough. Then I get a bottle of the Lung Healer and in a few days the cough is gone. It is the only medicine I ever used that reaches my lungs and cures the cough so quickly. I am sure it has saved me from a great deal of suffering and sickness and I heartily recommend its use to anyone suffering with a lung cough or cold.

## PLAN TO PUBLISH FACTS OF THREATENED STRIKES

NEW YORK, March 17.—A plan which the government is working out to supply the public with disinterested information when strikes threaten industry, was described by Secretary of Labor Davis at a meeting yesterday of the women's department of the National Civic Federation.

It consists of maintaining specialists trained in each of 32 "key" industries in the nation, he said, thus enabling the government to have on hand a complete file of accurate information and data concerning conditions in any given line.

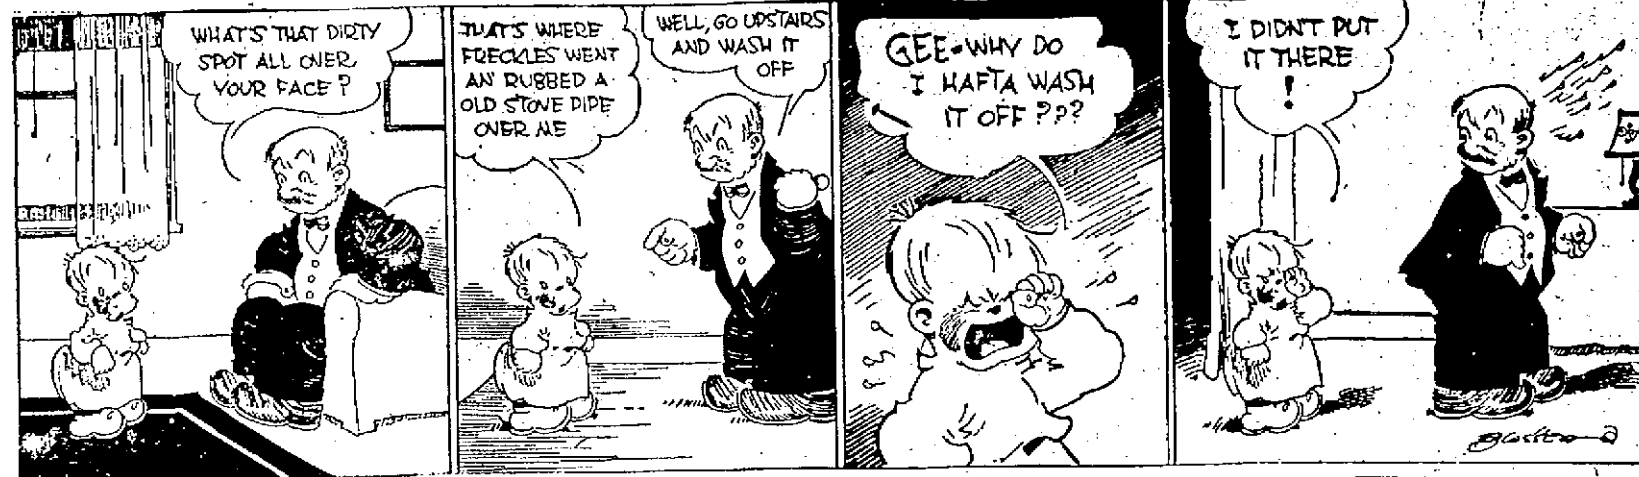

"If we had 32 such key men," he said, "it would be a simple matter to appoint a government board or com-

## "NOW I AM WELL AND STRONG"

If You Cannot Truthfully Say This of Yourself, Take Gude's Pepto-Mangan

If you are not as strong and healthy as you used to be what are you doing about it? Are you going to let yourself run down in health and be subject to headaches, indigestion, nervousness, and all that long train of ailments that cause so much pain and misery and unhappiness? Don't do it. Start now to take Gude's Pepto-Mangan with your meals and it will build you up to good health again. It contains a form of iron that gets into the blood easily and gives you strength and greater vitality and a good color—and you will sleep well, because your nerves won't bother you. Then you can say "I feel great" and mean every word of it. Gude's Pepto-Mangan has been used for 30 years—you can depend upon it to help you back to health. Sold in both liquid and tablet form by druggists everywhere, but it will not do you any good if you let it stay on the druggist's shelf.—Adv.

never get anywhere in industry in America." "As it is now," he continued, "no one can tell which side to believe. There is propaganda sent out by both sides. Under the proposed plan, the government, at the beginning of a labor difficulty, could give out an official statement which would form the basis for an accurate and just opinion."

## Stroheim Plans Another Picture —But No Million Dollar Stunt

GREGORY SCOTT, AN ENGLISH MOVIE HERO, WHO CORRESPONDS TO WALLIE REID.

BEATRICE JOY, WHO WILL BE LEADING WOMAN IN CECIL DE MILLE'S "MANILA".

BY JAMES W. DEAN

NEW YORK, March 16.—Eric Von Stroheim's moon will start work on another picture. It will not cost a million dollars and it will be his own story. Therefore it promises to be a remarkably fine photoplay.

From a technical standpoint no photoplay better than "Foolish Wives" ever has been projected on the screen. Its chief fault was the nature of Stroheim's story. Given a million dollars to spend on its making affected Stroheim after the manner of a little boy who is allowed to knock his own apples from the tree.

Stroheim's new photoplay will be based on a Viennese stage play. An Austrian with high poetic sense, Stroheim will probably create an opera of rare merit. That is, if someone sits on the safety valve and holds the purse strings, to mix the metaphors.

A German-made film, "The Mistress of the World," is now having its American premiere.

It is presented in installment form when Stroheim filmed "Foolish Wives" it was his intention to present it in a similar manner.

After working on it a year with that idea in mind it was presented in 13 reels.

I recently saw it for the second time. It had been cut to a two-hour run. It had been improved by the elimination of several silly sequences.

However, Stroheim's film was far

worthier of installment presentation than its German contemporary—and it would have given America the honor of being first in the industry with the idea.

"The Mistress of the World" started its first run simultaneously as the principal feature at the Rialto and Rivoli on Broadway, New York. Now the second installment is running as a secondary feature at the Rialto only. On the other hand, "Foolish Wives" ran seven weeks at \$2 a seat and then moved to the Capitol for a week at popular prices.

John Drew's reminiscences of his half-century career on the stage will be published soon by E. P. Dutton and Company. They should prove a valuable contribution to the history of the theater in the United States.

The only thing of similar nature I can think of that would prove more interesting will be Charlie Chaplin's memoirs after he has spent half a century on the screen.

Talking figures of three dimensions in color photography will probably be a fact then.

An attorney in the Arbuckle case says movies today are in the same position as the saloons 20 years ago.

He probably means that a movie now occupies the place occupied by saloons 20 years ago, as Will Rogers said specifically of the Lowie theaters.

Aside from any moral or economical feature, the big difference between the movie and the old-fashioned saloon is that husbands take their wives and children to the movies.

And movies will hardly be legislated out of existence so long as several million women enjoy the franchise.

"New Stage Trail" starring Jane Novak, has been started.

Jackie Coogan's next will be "Oliver Twist."

EAST HILLERICKA Residents of East Hillericka are very much pleased with the additional train service between Lowell and East Hillericka which was inaugurated yesterday.

Train No. 431 leaving Lowell at 10:05 p. m. on signal to conductor, will stop at East Hillericka to leave passengers. This train arrives at East Hillericka at 10:12 p. m. and will be a great convenience.

DYE OLD DRESS OR DRAPERY IN DIAMOND DYES

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade or run.—Adv.

## HEAR EVIDENCE ON VICE CHARGES

ST. LOUIS, March 17.—Several witnesses to support his charges, that vice clubs exist among the student body of Solten high school, were to be presented to a committee of parents and students of that school this afternoon by Victor J. Miller, secretary of the board of police commissioners.

Committee members said today's hearing probably would be the last for the purpose of taking testimony unless Miller represents that he is unable to produce all his witnesses.

Committee members last night said they would make a formal statement regarding their inquiry when they had formulated their conclusions.

## 13,000,000 PARTICIPATED IN GERMAN STRIKES

BERLIN, March 17.—Thirteen million workers participated in strike movements in Germany during the last 12 months, 8,000,000 of them members of socialist labor unions. The strikers include 2,500,000 women.

Strikes and threats of strikes numbering 58,000 affected 612,000 businesses. Except in 217 cases the strikes were for higher wages and shorter hours.

These movements resulted in a loss of 19,716,093 work days and cost labor 98,000,000 marks a week during the periods of idleness.

The workers secured weekly increases of wages amounting to 608,159,853 marks (equivalent to about \$27,000,000) an average weekly increase of 53 marks and 55 pfennigs per workman. Double pay for overtime was also secured.

Employers in almost every strike promptly agreed to arbitration and nearly all were settled with no other damage than loss of time and temporary suspension of business.

Demand for higher wages brought about by the increased cost of living

is considered an unpleasant necessity by the labor unions. A statement recently from union officials said:

"Incessant demands for more pay are regrettable from the workman's standpoint. Unfortunately more wages are necessary. There seems to be a rather hopeless race between wages and prices, in which prices so far have been leading."

The statement added that the wage and labor troubles were only another evidence of the "unhealthy" condition of the German state.

## GOVERNMENT URGED TO EXTERMINATE RATS

STOCKHOLM, March 17.—Sweden has been asked to declare war of extermination on rats and mice. The militarists behind this project are the members of the Medical Board of Sweden.

The board has submitted to the government a memorandum proposing that a bill be introduced in the present Riksdag to finance the war on rodents and points out the huge economic damage wrought by them.

It is proposed to impose compulsory obligation on towns, villages, municipalities and rural communities to take steps for the killing of rats and mice and that the law extend to all ships and ship owners. A state appropriation is asked to cover the cost of investigating the most effective means of killing rodents.

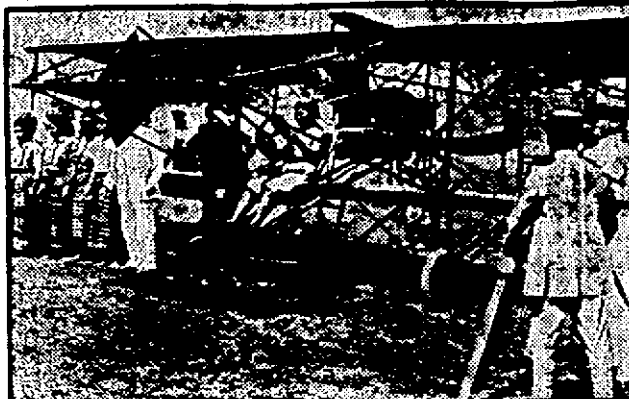

It is further proposed by the Medical Board that the government should require that new buildings shall be made rat and mice proof or at least difficult of access to these pests and that old buildings be repaired to meet this requirement.

## U. S. ARCHITECTURE TO BE SHOWN IN EUROPE

NEW YORK, March 17.—The exhibit of American architecture, organized by the American Institute of Architects and displayed in Paris and London last year, has aroused so much interest abroad that plans are now being made for showing it in other European cities.

The Royal Institute of British Architects has cabled Julian Clarence Levi, secretary of the committee of the American Institute of Architects, proposing a series of exhibitions in the larger English cities.

Should this prove feasible there is a strong probability that the exhibits will then be sent to Italy and shown in Rome.

HIGH LIFE FOR IGOROTES

Igorotes, the former headhunters of the Philippines, are becoming highly civilized. This native has mastered the air in an old-fashioned airplane.

The exhibit comprises a large number of photographs of the most notable buildings in the United States and represents many American cities, New York, Philadelphia, Washington, De-

troit, Indianapolis, Denver, state capitols in Connecticut, Wisconsin and Missouri and examples of the architecture of American ecclesiastical and educational institutions.

It was shown at the annual exhibition of the Societe des Artistes Francaise in Paris last spring and afterward under the auspices of the Royal Institute of British Architects in London.

## Best Cough Mixture Is Home Made

Acts With Speed—Loosens the Phlegm—Stops the Irritation and "Coughing" Ceases

Fine for Chest Colds Too and Is Cheaply Made at Home.

When you can make, in two minutes, a world beating remedy that acts directly on the membrane and often overnight causes stubborn coughs and even hard chest colds to disappear, why trifle with things that will probably disappoint?

Hawking and snuffling and also soreness of the mucous membrane go and you will feel fine in almost no time.

Just get one ounce of Parmin (double strength) add to it a little sugar and enough hot water to make a half-pint and you've got an inexpensive remedy better than you can buy ready mixed.

The soothing, healing action on the membrane is the reason so many people use it for Catarrh and acute nasal colds.—Adv.

## TINY PIMPLES ON FACE BODY

And Arms. Very Itchy. Cutsicura Healed.

"For some time I was bothered with an irritation of the skin. Later tiny pimples broke out on my face, body and arms. They were very itchy and caused me great discomfort during the night. I used different remedies without success. I began using Cutsicura Soap and Ointment and was completely healed in six or seven weeks, after using two boxes of Cutsicura Ointment, together with the Cutsicura Soap." (Signed) Victor C. Cantor, 299 New Main St., Yonkers, N. Y.

Give Cutsicura Soap, Ointment and Talcum the care of your skin. Sample Book Free by Mail. Address: "Cutsicura Laboratories, Dept. E, Madison 15, Wis." Sold everywhere. Soap 10c, Ointment 15c and 25c. Talcum 25c. 100% Cutsicura Soap always without soap.

THE NEW IRELAND

With mingled feelings of joy, hope and fear must every Irishman scan the new Ireland over whose hills is now breaking the dawn of glorious freedom, for which so many martyrs died and for the realization of which, the whole Irish race is intensely anxious on this St. Patrick's day.

The new grant of freedom, the result of over a century of warfare, but directly of the rising of Easter week and the last two years of warfare, is more or less involved in controversy, and although there is considerable conflict of opinion, yet we have full confidence in the ability of the Irish leaders, supported by the masses of the people, to settle the points at issue so as to make the most of their opportunities and to serve the best interests of the Irish nation.

The constitution of the Irish Free State is being drafted and elections are soon to be held for the purpose of electing representatives for the new parliament, but the followers of President De Valera, in what might be termed a respectable minority, hold out for the republic, and are not willing to accept the settlement provided for in the treaty.

This is a question for the Irish people themselves to settle and it is hoped it will not be transferred to this side the Atlantic to split the various organizations that for years have worked with such harmony in the cause of Ireland's deliverance. A great many people insist that the logic of the situation would dictate the acceptance of the greatest concession that can be wrung from England, as this would not set a limit to the future march of the nation. De Valera's ideal represents the highest aspirations of the Irish people and it is sure to be realized eventually, but whether to fight for it now or later is the great question.

In spite of all that may be said by the critics of Messrs. Griffith and Collins, now the accredited heads of the provisional government, it must be a great source of satisfaction to the Irish people to see Dublin castle, the seat of British power in Ireland for 700 years, turned over to the Irish forces. It was the ambition of Robert Emmet to seize the castle if his plans had not miscarried; but now not only this bastion of un-battered memory, but every stronghold of British authority in southern Ireland, has been surrendered to the Irish people.

It would seem, therefore, that real statesmanship as well as the best interests of Ireland, would dictate the acceptance of the new constitution and an effort to have Ulster remain as a part of the Irish Free State to form a united Ireland, which is one of the highest aims of Irish statesmanship.

The constitution of the new Irish Free State will give Ireland a measure of freedom such as she has never enjoyed at any time since Strongbow landed upon her shores in the twelfth century. With the birth of the new government the people will be masters in their own country; they will be free to develop its great natural resources and will never again be driven into exile because of lack of opportunity due to oppression by an alien government.

Thus, whether Ireland remains as the Irish Free State or ultimately becomes a republic, we feel that she will soon start upon a great career of peace, happiness and prosperity and that through the virility and genius of her people, she will fully overcome the effect of her long ages of oppression and work out a glorious destiny to be again as of yore—

"Great, glorious and free  
First flower of the earth  
And first gem of the sea."

HELPING THE SOVIET

Americans, north, south, east and west, have been termed "the great givers." Today, Americans are called upon more frequently and urgently to give as they never have given before. Just now the government indicates a desire to look into the activities of certain "relief" organizations that are bent upon collecting American funds for lands across the sea under the guise of charity and succor. Problems in connection with relief work in Russia, are being tackled by the government at Washington with considerable zeal.

It is suspected that funds are collected in this country for the Russian soviet government by organizations thinly camouflaged as relief agencies. A good many Americans appear to think so, and explain just why they believe that this country is being "triumphed" financially. According to the department of justice, investigating certain activities in behalf of Russian relief, both funds and supplies collected in the United States are shipped to Russian soviet officials for distribution by them and for their benefit. Hence the suspicion that some of these so-called "relief committees" throughout the United States are in reality soviet bureaus collecting funds for the bolshevik government. There are more than 200 organizations in this country "frankly communistic," according to Secretary Hoover. Hundreds of thousands of dollars have been collected in the United States and very little seems to have gotten to Russia as yet.

VOCATIONAL GUIDANCE

Commissioner Payson Smith of the state department of education always says something worthy of note when called upon to speak upon education or any of its correlated subjects. At a New England conference for vocational guidance, in Boston, Mr. Smith laid stress upon the necessity of dealing with individual students, according to their respective attitudes and capacities for work. Here is a piece of good advice from the commissioner:

"Pay more attention to the individual student instead of to the class as a whole. All the progress the world has ever seen has been the result of an individual thought ahead of all the others. We should see to it that each child has the best possible opportunity to develop to the best of his or her ability."

It is very plain that better results can be attained by this method than by dealing with the students in the mass just as if all were of equal capacity to absorb instruction and apply it in their lives. Education can never accomplish the best results unless it deals with the individual with a view to meeting his special needs. It is important first to fix the goal and then to make sure of the shortest and best way to reach it. An early decision in vocational guidance is very important as it will prevent the waste of years in floundering aimlessly from one thing to another without attaining excellence or high standing in any of them.

FIGHT FOR GOLD

The South African revolt, killing hundreds, originated in a dispute over how much labor is to get as its share in the mining of gold. Wherever there is gold, there also is trouble.

To obtain gold, men freeze to death in Klondike, perish of thirst in the desert. Gold is the greatest destroyer of woman's virtue and man's honor. The universal desire for it creates the greed that has made man more cruel and vicious than any animal.

Last for gold is back of unsanitary tenements, starvation and other forms of poverty.

This is the thing for which men sell their souls.

Yet gold is valuable only in man's imagination, and for most practical purposes is about the most worthless substance on earth. You cannot eat gold, nor can it keep you warm. No man can carry it beyond the grave, yet it is the ruling power of civilization.

GOOD FOR FARMERS

Advancing prices in 90 days have added \$1,040,000,000 to grain and livestock held by farmers. This is the estimate of Everett C. Brown, president of the National Live Stock Exchange.

Yet the actual grain and livestock are the same as they were 90 days ago. It is like railroad stocks, which rise and fall though there is no change in the railroad itself.

Values are largely imaginary, depending on how much is bid by holders of the low lands. The present upward tendency in the price of farm products, will bring the values thereof up to the general price level of other commodities and thereby remove one of the main causes for the existence of the agricultural bloc.

ESCAPING ENERGY

Field which escapes from mulling pots and vanders up the chimneys of the government's assay office in New York is being recovered by an apparatus on top of the chimney.

The saving probably will not exceed several thousand dollars a year. But there is much rejoicing, because the thing that is being saved is gold, that everybody is striving to get.

Out of all the coal used in our factories to produce energy, a very large proportion is lost because it escapes up the chimneys. If gold escaped instead of energy, then everybody would try to stop the leak.

STOLEN AUTOS

Ten thousand autos have been stolen in one year in New York cities. That is one in every 25 cars registered.

What happens in New York state is a fairly good average of national conditions, according to economists and sociologists.

So chances of your car being stolen are about one in 25 a year. Using more New York statistics, if your car disappears the police will get it back in 56 out of 100 cases.

But which would you rather have now—car or insurance?

SEEN AND HEARD

Todd hog: A man who keeps in the middle and leaves you both sides.  
One way to make the day turn out fine is to decide to stay at home.

Censors claiming: Our movies are "censored" don't say it they found them that way or left them that way.

Southern farmers would be rich and happy if someone could teach boll weevils to eat weeds.

Londville, an island off the Maine coast and part of the town of Bristol has 500 inhabitants. On the island are young people who have never seen a train, an electric car or an automobile.

The "House of Doors" is in Washington. It is made entirely of doors and into its making went woodshed doors, mahogany doors from stately mansions and every conceivable kind and make of doors.

While one of the maids of the hotel in South Deerfield was draining some chickens for dinner she found in the crop of one a dime, a nickel and four pennies. The nickel was in good condition, but the dime was worn thin, while the pennies looked like gold coins having been very bright.

A Thought for Today  
You cannot see the distant heaven. You cannot hear the songs of angels. You cannot even say assuredly that you know the love of God. But you do know that to be brave and true and pure is better than to be cowardly and false and foul.—Phillips Brooks.

A Word a Day

Today's word is autonomy. It's pronounced aw-ton-oh-mi with accent on the second syllable. It means—self-government, independence, signifying action to rule itself, freedom from foreign rule. It comes from a Greek word, "autonomia," self-rule. Companion word is "autonomous," an adjective. It signifies "autonomy," the desire for autonomy seems likely to lead to a serious crisis.

Henson Was Obvious  
When Freddie came home from school he was crying. "Teacher whipped me because I was the only one who could answer a question she asked the class," he whined. "My mother was both astonished and angry. 'I'll see the teacher about that! What was the question she asked you?' 'She wanted to know who put the glue in her ink bottle.'"

Baby's Chances

A baby born in the tenement district of New York City has a better chance of getting into a fancy car than a baby born on farms of New York state, according to an official health survey. "This is hard to believe," it says, "but the survival rate of the possibilities of health campaigns and education. Disease and ignorance are enemies which threaten the baby's health. All other education should be secondary."

Service to Slow Music

There are said to be certain offices in the United States where the work is done to the accompaniment of music, which changes from grave to gay, from lively to severe, in harmony with the duties and needs of the workers. A British telephone publication, commenting on this practice, says that it is nothing new, but that the most efficient telephone workers have long been working to music, and keeping strict time, the favorite measure being the "Dond March."

A Romance of Clovelly

Have you ever seen the street of Clovelly? The quaint, rambling street of Clovelly, with its address of stone leading down to the sea. To the harbor so deep, so old and so wet. The queer crooked street of Clovelly?

Have you ever seen the lass of Clovelly? The sweet, little lass of Clovelly. With little of gray reaching just to her knee. And mistle is neat as ankles may be. The yellow-haired lass of Clovelly?

There's a good honest lad in Clovelly. A bold, frank lad of Clovelly. With purple as straight and awagger as free. As the course of his boat when the brave sailor lad of Clovelly.

Have you ever seen the church at Clovelly? Have you heard the sweet bells of Clovelly? The bell and the lassie will hear them. And join hand in hand to sail over life's sea. From the little, lone church at Clovelly.

—By Kate Douglas Wiggin.

THE LECTURING MAN  
TABOO IN CHICAGO

By ROY GIBBONS

CHICAGO, March 17.—Ho for the life of a lecturing man!  
It's the valet. All you do is forget Asquith 'em. Tell 'em how terrible their city is and what big feet they have.

Then you hop quick to the box office and collect five bucks a head. Such an ambitious fella has no less than five would-be platform educators here during a week, whose status ranged all the way from a club bellhop to that of literary colt.

Each lecturer when brought to task admitted that the seeming ease with which foreign celebrities reap rich harvests of American dollars inspired them to do likewise.

Bellhop's Plans Stumped

The ambitious bellhop was stumped in the lead of his lecturing campaign, after police had found him with \$7500 worth of tickets, amounting to that he had next Tuesday night would go deep into the mystery of some celebrity's life at \$5 a throw.

He was turned over to the psychopathic hospital.

As for the coal heaver—that worthy and dream of informing a delighted crowd that there were no such tools as the who ate candy and meat. It was to have been a course in dietetics.

"Just insult them," said the coal heaver when picked up, referring to his potential auditors, "and they'll pay to hear it."

Margot's Inspiration  
Which may not be so far from wrong since Margot Asquith told her listeners what they would knock a friend down for even suggesting and pulled down \$2950 an evening.

Meanwhile Chicago police are watching the approach of every lecturer and giving first aid to his advance propaganda.

It has been considered practical to have a trial lecture at police headquarters hereafter. Maybe they'll do it.

Chicago wants educated insults if it is going to pay for them. Coal heavers and bellhops haven't a chance.

NEGRESS REPUTED TO BE 122 DIES

MOUNT VERNON, Ill., March 17.—Margaret Edmonson, a negress, reputed to be 122 years old, is dead at her home here. She was said to have been born in Richmond, Va.

Berton Bruleys  
Daily Poem  
Repetition

I'm weary of doing things over,  
Over and over again,  
Weary of treading the same beaten track  
Over and over—and then  
Knowing tomorrow and next day  
I'll do it all over again.  
  
I'm weary of doing things over,  
I want break loose with a yell,  
I want to see the same sights  
every day.  
Meet the same people as well,  
Eat the same food that I've eaten  
for years.  
Smell the same smells that I smell!  
  
If that's all I get out of living  
Like "honest, respectable folk,"  
Just doing things over and over  
Until the end comes and I croak—  
Good-bye, my friends, I'm going home.  
You won't see my trail for the smoke!  
(Copyright, 1922, The Lowell Sun)

City Council Meeting  
Continued

"spotter" work?" asked Councilor Sadlier.  
"No," replied the former.

"Then I do not care to say here what is in my mind," commented the councilor.  
Other heat waves were generated during consideration of a third ordinance creating a superintendent of employment. Councilors McPadden and Adams vigorously opposing the measure.

Calls Office a Fancy Job

Councilor McPadden did not speak against the unemployed for a single minute, but he did assail the ordinance and said:  
"It looks to me like a fancy job at a fancy price for one of the unemployed."

Councilor Adams stamped the office as "another tentacle of a political octopus that seems to be growing to alarming size in this city."

"The ordinance went to a vote, with seven councilors registered in favor and five against. It failed of a majority vote, however, as three councilors were absent."

Mayor George H. Brown again nominated Edward Mulry as superintendent of charities, but the nomination was tabled.

The council convened at 5.25 o'clock, with Councilors McMahon, Genest and Appleton absent.

W. C. MacBrayne, acting superintendent of police, was called before the council to discuss the police department estimates.

Councilor Sadlier questioned the acting superintendent relative to the method of paying civilians who are engaged as "spotters."

Ex-Service Men as "Spotters"  
Capt. MacBrayne said that he had placed several ex-service men on such work.

"Do you mean to say that ex-service men are that sort of work?" asked Councilor Sadlier.

"Yes, sir," replied Mr. MacBrayne, several veterans have come to me seeking that kind of work. They were broke and unable to obtain work from the city."

"They might be broke, but if what you say is true I don't care to say just what is in my mind," declared Councilor Sadlier.

Capt. MacBrayne was questioned at some length about his methods of liquor work. He said there are 20 men, all regular officers, now on the liquor and vice squads.

The acting superintendent said that he has established new night routes in Belvidere, the Highlands and Centralville.

Mr. MacBrayne said that so far he has caused \$6000 to be paid in liquor fines in the district court this year and if this record keeps up, the city will receive between \$50,000 and \$60,000 this year.

"If the present chief stays on the job, we will make a record," stated Mr. MacBrayne.

"If not, the ship is lost," commented Pres. Bagley.

After discussion that continued for nearly an hour, the council voted to take the police estimates under further consideration.

Petitions for pole locations and garage licenses were referred and hearings set.

Petitions for sewer extensions and new street lights were referred to the board of public service.

Eight claims were referred to the committee on claims and the city solicitor.

The plan of work for 1922, submitted by the board of public service on the recommendations of the city engineer, was read by Pres. Bagley.

The plan includes paving, macadam, sidewalk, sewer and bridge work and work on the new First street boulevard.

The petition of Victor Pignon for the installation of a free air service at the curb in Moody street, was given leave to withdraw on the recommendation of the public service board.

Proceeding on an opinion given the city clerk by the city solicitor, the council proceeded to take separate action on each petition for wire attachments.

Pres. Bagley's voice was not in the best of trim and he recruited Councilor McPadden to read the sheaf of orders.

Sewer Loan Adopted  
The council adopted a loan order for \$50,000 for sewer work. It is a 25-year loan and is two-thirds of the total amount asked for sewer work this year.

For the third time an ordinance was read, creating the office of superintendent of employment, who shall be appointed by the mayor and confirmed by the council. As in previous ordinances, the salary set was \$1800 per year.

Councilor Stearns questioned the advisability of creating an employment director at this time and said that he felt very reluctant to vote away \$1800 in these times when retrenchment seems imperative.

Councilor Gallagher spoke in favor of the ordinance and stated that he believed the office will justify itself if positions are secured for men in five families who now are being carried along by the charity department.

Councilor Adams spoke against the ordinance and said that the office is unnecessary and that the work should be done by the registrar of civil service labor, "where it belongs."

Councilor read a letter from the secretary of civil service commission stating that such an ordinance would bring about a conflict in duties.

"This ordinance is nothing but another tentacle of an octopus that is fast growing in this city," said Councilor Adams.

Councilor McPadden opposed the ordinance and said that heads of departments are better fitted to hire laborers than a director of employment.

"We can spend \$1500 much better by using it in the direct employment of men. It looks to me like a fancy job at a fancy salary for one of the unemployed," said Councilor McPadden.

Ordinance Falls to Pass  
The ordinance went to a vote and seven votes were in favor, with five against. As it required a majority vote of eight for passage, the measure failed of adoption.

Councilors Bagley, Chadwick, Gallagher, McMenamin, Moriarty, Queenan and Sadlier voted in the affirmative, and Councilors Adams, Cameron, Chretien, McPadden and Stearns in opposition. There were three councilors absent.

Pres. Bagley read the nomination of the mayor of Edward J. Mulry as superintendent of charities.

On motion of Councilor McPadden, the nomination was laid on the table.

The council authorized the city clerk to advertise a loan order for \$50,000 for the construction of sidewalks.

Similar action was taken on the \$50,000 paving loan order and the \$70,000 order for work in First street.

Money for Auditorium  
Pres. Bagley read a loan order in the amount of \$75,000 for work in and around the Memorial Auditorium.

It included the following provisions: For the construction of a retaining wall, \$15,000; for granite tile walks, \$9000; for grading grounds, \$13,000; for the cost of original equipment, \$80,000.

Councilor Gallagher questioned the amount of \$80,000 for equipment and although the clerk was ordered to advertise the order, it was with the understanding that information be secured regarding this section of the order.

Adjourned at 10.30 o'clock to Monday evening next at 8 o'clock.

San Francisco has the only Hindu temple in the United States.

ALL LOCAL CHAMBERS OF COMMERCE ASKED TO CO-OPERATE WITH LEGION POSTS

INDIANAPOLIS, Ind., March 17.—All local chambers of commerce have been requested by the United States chamber of commerce to cooperate with posts of the American Legion in obtaining employment for jobless veterans of the world war, a letter from the national chamber, received at legion headquarters, states.

A copy of a letter sent out to local chambers of commerce by the national body was included in the communication to the Legion.

The Legion has received similar assurance of cooperation from the American Federation of Labor and national organizations representing a total of more than ten million citizens, it is said.

Cyclones revolve in opposite directions in the two hemispheres.

## FISH HELPED TO STOP YELLOW FEVER

LIMA, Peru, March 17.—The Pacific coast of South America is free from yellow fever for the first time in history and a little fish locally known as "life" has been the most efficient agent in the battle to rid Peru of the dreaded disease.

The fish, which will have to be scientifically identified in Washington, was found to be the most active de-

stroyer of mosquito larvae. More than 700,000 of them have been distributed by one, two and three in all the water containers in the houses in the departments of Lambayeque and Libertad. For an ordinary water container of 10 or 15 gallons, two or three fish were sufficient.

No food was provided so that the hungry fish would live on the organic matter in the water. Every eight or ten days inspectors visited the houses to make sure the fish were still living and doing their work.

The final chapter of yellow fever campaign is being written by Dr. Henry Hanson of the International Health Board of the Rockefeller Foundation, which is spending large sums to help

DUKE IN DUEL

Luke Torlonia, shown here, engaged in a duel with Count Lovatelli, noted sculptor, in July. They met with swords "on the field of honor" following a quarrel over a statue for which the Duchess Torlonia, above, posed.

The government of Peru rid her territory of the dreaded pest.

Seven hundred miles of the coastal section of Peru have been the battleground of the campaign and the estimated number of deaths is 1500. For months Dr. Hanson and his associates have fought heroically to keep back the advancing lines of the enemy, for at times it was feared that the epidemic would spread south to Lima, the Peruvian capital, and to Guayaquil, Ecuador, but the campaign has resulted in a victory for the health workers.

There have been no cases since July, 1921, but the work is still going on as a matter of insurance. Dr. Hanson has about 125 men working in the coastal region in the south and they continue until about May. They do not intend to leave the faintest doubt when they have finished that there is any danger of yellow fever lurking in Peru. This is expected to be the last yellow fever campaign on the Pacific coast of South America.

## SYRIA IS PROSPERING UNDER FRENCH RULE

BEIRUT, Syria, March 17.—France contemplates granting to Syria a certain amount of autonomy which will qualify the country to become a member of the League of Nations. It is reported here.

Rumor adds that France will recognize the existence of Syria as a sovereign state and will agree also to the constitution of a Syrian parliament and the establishment of a Syrian ministry.

"The French have made good," is the expression one hears everywhere in this country where during the great war, Jamal Pasha's reign of terror culminated in the hanging in Damascus of the leading 400 Arabs.

"In three years France has not only brought security but also prosperity to us," said the governor of Beirut when asked his opinion as to the French mandate. "The Turks left us dead and buried and the French simply pulled us out of the grave and gave us life. We owe all to them."

Marshal Gouraud has done wonders for this land. Beginning with the industrial exhibit which gave a great impetus to commerce and industry, he followed it up by improving communications and the customs which he found in a disorganized state. All the railways destroyed during the war by the Germans were rebuilt. New ones were also constructed establishing connections between many large cities and

towns. The custom house has become a model of efficiency.

Perhaps the two outstanding innovations introduced in the land are the aerial mail and the wireless station built near Beirut. The former is facilitating the transport of important commercial correspondence while the latter is communicating directly with European countries, thus removing the age-long dependency of Syria on the British cables of Egypt.

As regards education Syria has also made great strides under the mandate. Aside from the hundreds of new primary and secondary schools scattered throughout the country two universities, one in Beirut and one in Damascus have been established. In addition 20 students of all creeds are chosen each year and sent to France to pursue higher education.

## LAUGHS HIS BILL THROUGH HOUSE

FRANKFORT, Ky., March 17.—Senator Danie Tabor, republican, laughed his script bill through the house of representatives. It has been one of the funniest of the session. When the bill came up several members agreed to vote for the measure if the senator would laugh.

The senator told his colleagues to vote first. When the favorable result was announced he mounted the speaker's rostrum and let forth his best laugh, which was applauded in the house and the galleries.

The bill requires companies which issue script to employ to redeem it at its face value.

Tourquet was invented by a French surgeon, Morel, in 1671.

## LONE MATCH SAVED SHIPWRECKED CREW

HONOLULU, T. H., (By Mail)—A lone match, saved carefully in a tin can to prevent it from becoming wet was the instrument that resulted in the rescue of four of the five members of the Japanese fishing vessel Eblu Maru No. 1, after they had been marooned fifteen days on a wind and storm-swept coral reef in the South seas, with no shelter, few clothes and little food or water, according to the story they told when they were brought back to Honolulu aboard the Eblu Maru No. 2, which had been sent to rescue them. The fifth member of the crew, M. Miyasaki, the engineer, was washed away and drowned. His body was not recovered.

The fishing craft left here last year for Necker Island, considerably south of Honolulu, and, after unsuccessful casts ten days later on January 15, ten days later in a heavy storm, she struck a coral reef off Sand Island, near French Frigate shoals. Under the hattering of the heavy seas, the sampan broke up almost immediately.

A rude raft was formed from the timbers and Captain J. Yonemoku, with a rope around his waist, swam for a bar some distance away. He made the small piece of land and succeeded in pulling the raft after him. Miyasaki was lost at this time.

For the next fifteen days the four men subsisted on birds they killed and a little fresh water. With their lone

match they kindled a fire from pieces of driftwood. This thin line of smoke was sighted by the Eblu Maru No. 2, the rescuing vessel, which proceeded to the bar and took the four survivors aboard. A large part of the Japanese colony here was at the dock to greet the survivors when they landed from the Eblu Maru No. 2.

Origin of the word "Asia" remains unknown.

Most of the familiar licorice root comes from Syria.

## The P&Q Shops Announce Another Drop In Price!

This Season's latest production -- Spring Suits and Topcoats, are now down to \$20, \$25 and \$30. The same quality that less than two years ago sold for \$35, \$40 and \$50. It is proof of our ability to meet existing conditions when we make and sell Clothes that are constructed so faultlessly, and nevertheless offer them at prices that astonish even the best judges of Clothes values.

The high standard of workmanship that has always won the approbation of many thousands of men — is strictly maintained. The superior talents of our master-designers have never produced more perfect models, that will please the fancies of the most critical dressers — than this Spring.

"Price without quality is like soup without salt" — we have said that lots of times — therefore let's be specific and prove that in P&Q Clothes, regardless of the low price, *Quality predominates.*

Tested Cloths from the most reputable woolen mills in America; cold-water-shrunk and sponged; highest grade linings; pre-shrunk canvas interlinings; linen edgestays; hand felled collars; hand made button holes; silk pocket bars—are some of the features that make P&Q Clothes such wonderful value! The single operation of selling direct from our own Tailor Shops through our own 40 Stores saves you \$10 or more.

The Spring line is ready. Don't fail to look --- compare --- you'll soon discover that the P&Q way is the true way to economy!

## WOODS BEATS DOWNES BASKETBALL TOURNEY

Manchester Welter Gets 16 High School Teams Compete in N. E. Interscholastic Championship

Award in Tame Bout— Billy Murphy Defeats Lucas

Waltering through 10 rounds, which proved a bit unsatisfactory, Billy Woods of Manchester won the decision over Cleveland Johny Downes in the main bout of the Monday A. C. show held in the Crescent rink last night. The victory was a poor one for Woods, who was a power in the ring, but he was fresh and unmarked.

Billy Murphy of this city gave a stinging exhibition of clever work in his eight-round bout with Watersburg Johnny Lucas. He was given the decision and earned it by his all-around boxing ability. Lucas proved to be a worthy opponent and also made a hit with the fans for his willing, clean style of fighting.

In the first preliminary Tommy Moran was given a six-round decision over Eddie Purcell. The latter had been a contender in the light flyweight class but was knocked out by a smash to the head in this fight.

In the second preliminary Jimmy Williams of this city in six rounds, the bout was a sweetheart with the Lawrence boys showing the usual cleverness of a good fighter but missed the punches. It was the winner's first professional bout and he was boxing for his license.

## SPORT FLASHES FROM SOUTHERN CAMPS

In every major league camp there is much discussion as to what style of play will be most advantageous during the coming season.

The campaign of 1921 was an era of change. Every ball player sought to emulate the deeds of Babe Ruth as best he could. Every player was taking a healthy cut at the ball.

The wild acclaim with which the baseball public received the home run deeds of Babe Ruth caused the other players to try to imitate him and continue in popular favor they must hit a few home runs.

The players realized they were hitting home runs but they were not hitting them in the right way. It was not a rabbit ball, but rather a ball that was lively because the ball was hit in the right way. If you hit it fairly it would carry.

On the whole the pitching of 1922 was not quite up to the major league standard. In addition the batters did not have to worry about the so-called freak deliveries. There was no mental hazard to overcome.

These things all tended to make for free hitting and big scores. Extra in fact, the batters were given such an exception, due to the fact that extra inning games are usually the result of light hitting and slight pitching.

The era of swing which held sway during the campaign of 1921 naturally released the batters from the shackles of the hunt and other one-run plays to the year. The clubs were constantly playing for clusters of runs rather than one.

I seriously doubt if the ball of 1922 will be as lively as the one we used the greater part of last year. I am inclined to think that it will be considerably toned down.

I am positive the pitching this year will be 25 per cent better than it was last year. Pitchers who had fussed with freak deliveries and who were temporarily weakened by over-pitching will be back to their normal selves with have overcome such a handicap.

What is more, I look for pitchers to get back to the curve ball stronger than ever the coming season. For the last five or six years the best ball has been the pitcher's one best bet.

The use of certain styles of delivery by pitchers goes in cycles. I am sure the coming season will mark the passing of the fast ball for an era of curve ball pitching. With the curve ball will be the well known change of pace.

With fast ball pitching the batters have been resorting to the slashaway, or slugging, style at the plate. The curve ball is death to the free swinger.

Since a majority of the hitters are taking a healthy cut at the ball it is up to the pitchers to fall back on the curve ball to stop them. It will turn the trick if used. If such proves to be the case we may look for a revival of base-running and much more exciting action. One run under such conditions will mean something.

## SOOTY GAMES TOUGHENED

The first round of the Merrimack valley challenge cup will be played tomorrow at the Fair grounds when the Watersburg and Appleton ball soccer teams meet at 2:30 o'clock.

Early Greeks used large stones and sacks of sand as weights.

Turning around and facing Holland, Wilson should to him: "Well, Jack, what do you say? It is getting pretty dark, maybe you would be satisfied with the fact that I would break your losing streak. Will I call it?"

Holland had been going the rounds of the St. Joe club without paying much attention to training rules. It had been found the club was losing because of lack of condition rather than lack of ability. Holland knew it when Wilson suggested calling the game, he replied:

"Call nothing. This team of mine doesn't really get started until the bright lights are turned on. Keep 'em going!"

Wilson got the sarcasm. It also must have been absorbed by the players. The game was kept going. St. Joe won in the eighth.

Washington monument cost \$1,300.

## DISCOVERED! ONE BASEBALL ROOKIE

## MISS ALLISON SEEKS CENTRE COLLEGE GRID BOUT WITH NEW YORKER

EL PASO, Tex., March 17.—Mrs. Laura Bennett, New York woman boxer, would better look to her laurels. For out here a woman "bug" is threatening to reduce her to the ranks of second-rate fighters.

"Elk's hope" is Miss Gertrude Allison, 25, of 1032 S. 2d street.

MISS GERTRUDE ALLISON

Miss Allison has just told the wide world that she challenges Mrs. Bennett to meet her in the ring at any old time or any old place.

And she says she doesn't care whether the bout is just a friendly little sporting match or a knockout battle with black eyes and all the trimmings.

"I know I can lick her!" Miss Allison said as she lauded a wallop on her punching bag.

"I understand Mrs. Bennett weighs 120 pounds. I only weigh 125. But I'm willing to take her on."

"Why, look at the way she holds her little black eyes and all the trimmings. I know I can lick her!" Miss Allison said as she lauded a wallop on her punching bag.

"I understand Mrs. Bennett weighs 120 pounds. I only weigh 125. But I'm willing to take her on."

## STAR ENTERS RING

SULLY MONTGOMERY

Some of the things at which he became proficient were football and boxing. Montgomery played on the Centre team of 1920, which gave Harvard such a battle, finally losing, 31 to 14. Aside from starring on the gridiron he was one of Centre's best bats in baseball and basketball and on the track.

Montgomery started out with the idea of becoming a minister. It caused considerable of a stir in his family circle when he took up boxing.

Suffolk is 6 feet 2 inches and weighs 180 pounds.

While he has fought only three rounds so far he seems to have promise, and his manager, Ben Dobbert, has visions of the Centre college athlete some day being a champion.

Brown record besides being the inter-collegiate record holder for the 1921 card event, was enjoyed by Captain Stewart Damon of Amherst, holder of the inter-collegiate championship for the 50-yard dash.

## RED SOX PLAY

**Jack Quinn Slated to Start on Mound for Boston Club in Exhibition Game**

**Judge Landis and Owner Grant of Braves Honored at St. Petersburg**

**"Babe" Ruth Knocks Out Home Run With Bases Clogged With Runners**

BOSTON, March 17.—The Red Sox of 1922, changed by off season sale and trade, began to take playing form today with the first lineup against the Pirates at Hot Springs, Ark. Jack Quinn obtained from the Yankees, was the star pitcher. They carried also an ex-Yankee, in reserve. The rest of the team was to take the field as follows, only three men playing the positions they held with the Red Sox last year.

J. Collins, cf; Pittenger, 3b; Smith, 1b; Pratt, 2b; Harris, 1b; Burns, 1b; O'Rourke, ss; Walters, c. The latter, an old time pitcher, was expected to reduce the holdout group to three.

Close rivalry was displayed between the first and second teams of the Braves at St. Petersburg, Fla. A slugging battle royal resulted in a 3 to 2 tie. Pierotti and Anderson for the first team and Lansing and Braxton for the second, were the winners. They carried the ball in mid-season form. Pierotti, however, was said to have lacked control.

Judge Landis, baseball's high commissioner, and Owner George Washington Grant of the Braves were to be guests at a banquet at St. Petersburg tonight.

## TO SUCCEED LARRY GARDNER

CLEVELAND, March 17.—Riggs Stephenson is being groomed as a successor to Larry Gardner, third baseman of the Cleveland Indians, according to athletic officials here from the spring training camp at Dallas, Stephenson came into prominence last year when Bill Wambsgans and several substitutes were injured and he played a sensational game at second base the first few weeks of the season.

## COLLEGIATE SURPRISE TIGERS

DETROIT, March 17.—The Tigers were slated to play the second full game of their training season today with Georgia Tech at Atlanta. The college team, however, was yesterday scattered by a 2 to 1 victory came through errors of judgment in the Georgian infield, rather than on superior form of Cobb's men. Only two of the Detroit men were earned. Collins and Stewart, recruits hurled for Detroit.

"Babe" Knocks Homer

NEW YORK, March 17.—Somewhere outside the fence enclosing the Yankees baseball team's practice field at New Haven, there was today a bruised and battered sphere. It reached its location and condition by coming in contact with Babe Ruth's bat yesterday afternoon. The pitcher of the Yankees, who is second basing this year, led the field in hitting.

John McGraw, who divided the sheep from the goats and the Giant camp at

## BASKETBALL

One of the most important games of the season is on the program for tonight at the Crescent rink when Lowell's Five will line up against the Germantown team of Clinton at 8:30 o'clock. The lineup contains some of the best players in New England and as the visiting aggregation comes to town with a victory over Lowell, it is in prospect.

The teams will lineup as follows:

LOWELL'S FIVE: R. Ryan, c.; J. Ryan, 1b; A. Ryan, 2b; J. Ryan, 3b; J. Ryan, 4b; J. Ryan, 5b.

CLINTON: J. Ryan, c.; J. Ryan, 1b; A. Ryan, 2b; J. Ryan, 3b; J. Ryan, 4b; J. Ryan, 5b.

Referee: Billy Wilson of Lowell.

When the amateur series got underway two weeks ago, night and week practice sessions last night and went through a vigorous workout in preparation for the fourth game of their series with the Y.M.C.A. on next Tuesday night. The Lowell team is out to even the count as the series now stands two to one in favor of the Lowell team.

The C. Y. M. C. squad held a practice session last night and went through a vigorous workout in preparation for the fourth game of their series with the Y.M.C.A. on next Tuesday night. The Lowell team is out to even the count as the series now stands two to one in favor of the Lowell team.

## BANQUET CLOSES BOWLING SEASON

The bowling season of the Massachusetts Mill Bowling League was brought to a close last night with a banquet in the mill club rooms. The festivities opened at 6:30 o'clock and consisted of a dinner, followed by post-prandial exercises during which there were interesting remarks by league members and invited guests. The various league prizes were also awarded.

The post-prandial exercises were presided over by George Stewart, in the absence of Agent William A. Mitchell, who was unable to attend. The exercises were held in the mill club rooms. The speakers were John Cheswick, president of the Athletic club, Frank Richard, a guest; Richard W. Potter, former president of the Lowell Social and Educational club, Scott and Bayard of Boston entertained in a most delightful manner with a two-men minstrel.

**Last Holdouts Yield**

PHILADELPHIA, March 17.—Every one of the Philadelphia Americans training camp at Eagle Pass, Tex., was in a happy mood today due to the receipt by Manager Mack of a telegram from E. First baseman Joe Judge that he was on his way from Milwaukee to join the Athletics. Hauser, obtained from Milwaukee, was the last of the holdouts.

The Philadelphia Nationals played their first exhibition game yesterday at Leesburg, Fla., losing to the Washington Americans 10 to 8.

## CUTBILL HOPES TO BREAK RECORD

BOSTON, March 17.—Hal Cutbill, the "flying parson," who is captain of the track team of the Boston A. A., leaves today for Buffalo, N. Y., where tomorrow night he will attempt to break the world's record for 1000 yards indoors. In winning the national championship at that distance and on the same track recently he equalled the record, two minutes, 13.25 seconds, made originally by Joe W. Ray. The event today will be a handicap race, with runners set out ahead of Cutbill to force him to extend himself.

## CHARLEY WHITE MEETS JOHNNY DUNDEE

NEW YORK, March 17.—Charley White of Chicago and Johnny Dundee of New York, veteran lightweight, will meet in Madison Square Garden tonight, applying a fitting crown to what promises to be the busiest St. Patrick's Day in the history of New York. They are booked to travel 15 rounds. Both boys are looking forward to matches with Benny Leonard. The pair are to weigh in at 2 o'clock at 135 pounds.

## NEGOTIATIONS BREAK DOWN

LONDON, March 17.—Negotiations that have been proceeding under the supervision of the minister of labor between the Shipbuilding Federation and the employers over the proposed wage reduction for shipyard workers, broke down today.

## State Rests in Cunningham Murder Case

DEDHAM, March 17.—The state rested today in the trial of Caleb Loring Cunningham of East Milton for the murder of John Johnson of West Quincy, a wood cutter on Jan. 5, 1921. The last witness for the commonwealth, Sergeant Daniel H. Doran of the Quincy police force, testified as to Cunningham's detention at the police station after his arrest. The defendant told the witness that he had asked the police to protect him and his property but as they had not he had done so himself, Sergeant Doran asserted.

## Moonshine Not Private Property

WATERBURY, Conn., March 17.—When the plea was made before United States Commissioner Bernard E. Lynch of New Haven, sitting here late yesterday by men arrested on charges of having liquors in their possession that "it was for my own use" the commissioner replied: "Moonshine is not private property. No one can expect to escape punishment for having 'moonshine' in their possession by making claim 'I bought it for my own use.' The government owns all intoxicating liquors until a revenue tax has been collected."

## 637 Cases of Liquor in Cars

MIAMI, Fla., March 17.—Appetizers suitable for starting breakfast and ending dinner were found to comprise the contents of two freight cars seized by county sheriffs and railroad police last night on the tracks of the Florida East Coast railroad. One car netted the officers 437 cases of assorted liquor packed in grapefruit and the other 200 cases which had been concealed in a consignment of fresh vegetables.

## Both Sides Mark Time on Bonus

WASHINGTON, March 17.—Both proponents and opponents of the plan to put the soldiers' bonus bill through the house Monday under a suspension of the rules marked time today awaiting the return here of Speaker Gillett, with whom rests the decision. Republican house leaders were undecided whether they would confer with the speaker tonight or tomorrow. Mr. Gillett was expected to remain here until tomorrow night, when he will go to Springfield, Mass., where he will make an address Sunday. He will return in time to preside over the house Monday.

## Attempt to Rob Train Fails

GALESBURG, Ill., March 17.—An attempt was made to rob Atchison, Topeka & Santa Fe train No. 17, near Williamsfield, Ill., 25 miles from here last night when robbers threw several packages from the express car. The packages were recovered by the agent at Williamsfield.

## ON TWO MIXED JURIES

N. J. Judge Excuses Mrs. Cunningham Who Says Women Not Fitted for Duty

TRENTON, N. J., March 17.—(By the Associated Press) Judge Marshall in the Morier case of the court of the common pleas, has excused Mrs. Anna Cunningham from further jury service after hearing that her experience on two mixed juries within a week had convinced her that women were not fitted for such duty.

During this time she was locked up all night for deliberation and she declares she has not yet recovered from threatened nervous prostration. Her views are endorsed by her husband, James.

"The present illness of Mrs. Cunningham is the first at all serious in 15 years," he said. "I attribute it solely to the mental and nervous strain to which she has been subjected."

Mrs. Cunningham cited numerous reasons for reluctance further to participate in the administration of justice. Among these reasons were five children and a husband.

"In a sense I also consider that jury duty is an assault upon woman's natural modesty, refinement and reserve," she added. "Some cases which she is called upon to consider are of a nature so delicate that she shrinks from a frank discussion of the evidence, and a just verdict is impossible otherwise. I am speaking for the first time, since I began service as a juror and do so now only that others might know what to expect if they accept the obligation."

## DE VALERA ATTACKED IN F. O. I. F. RESOLUTION

BOSTON, March 17.—"Millions for a united Ireland, but not one dollar for factional strife in Ireland" was the slogan sent forth from the Friends of Irish Freedom at their 54th annual dinner in Hotel Westminster last evening.

It was one of the largest gatherings of the kind the organization has held. In a strong resolution the four-power pact was condemned and a demand made for adequate national defense to uphold the rights and interests of the United States. The resolution concluded as follows:

"That we pledge our support to the provisional government of Ireland under the leadership of Collins and Griffith while they are endeavoring by every means at their command to gain unshakable for Ireland absolute independence; and

"That we utterly repudiate Ramon de Valera as an Irish leader, and condemn his policy of external association with the British empire, including his oath of allegiance to the British king. We denounce his attempts to create factional strife in Ireland and we ask the American people to ignore his appeal for funds, as it is evident that these funds are to be used for the purpose of dividing the people of Ireland into hostile factions. We say to the Irish people that we will contribute millions to a united Ireland, but not one cent for factional strife."

## MT. PLEASANT GOLFERS ELECT OFFICERS

The 12th annual meeting of the members of Mt. Pleasant Golf club was held last evening in the quarters of the organization. In the early part of the evening supper was served and this was followed by a business meeting in the course of which it was voted to build an addition to the club house. Reports of the various officers were submitted and officers were elected for the ensuing year. The golf tournament organized between the Blues and the Reds was brought to a close and prizes were awarded. The Blues, captained by J. H. Martin, won the tournament. The Gillespie shield was presented to Arnold last year while the president's cup went to T. J. Ward. The club's cup was won by Harry Langwin. The election of officers resulted as follows: William H. Wilson, president; C. B. Abbott, vice president; Benton Mills, secretary; George C. R. Hawthorne, treasurer; Walter Jewett, C. P. Deane and W. W. Rawlinson, directors.

## INSISTS 'STRIKEBREAKERS' AT WORK IN MILL

MANCHESTER, N. H., March 17.—In spite of the American company's statements that no outside workers are being brought here for work in the mills here, Vice President James Starr of the United Textile Workers today stated that union leaders knew for a fact that such importations are taking place. If any disturbances are reported from the picket lines, Mr. Starr said, they will be caused by these outsiders. Strike patrols have been instructed to observe every detail of the picket line, he said.

## DANCE TONIGHT AT GIRLS' CITY CLUB

The dancing party which is to be held this evening at the Girls' City club is under the auspices of the "Buds." This group of members will conduct a regular dance for the other members and their gentlemanly friends. Appropriate decorations have been arranged by Miss Anna C. Leary.

Wallace Reid and Mary Pickford will star in the moving pictures at the club Saturday evening. These "gentlemen's nights" at the club are proving very popular.

Great enthusiasm is being manifested over the club lounge, which is to be held on Monday evening in the club rooms. Surprises and entertainment of various kinds are being arranged for all those who make their reservations this week. Miss Miles, president of the Massachusetts League of Girls' clubs, will be the guest of honor.

## MONEY IN GOLF

Old Race Track Earns \$61,000 as Golf Course

CHICAGO, March 17.—How to make a race track pay after racing has been legally abolished, has been demonstrated by the owners of the old Harrier track which turned into a golf course last year, earned \$61,000, it was announced today.

## BOOTLEGGERS IN PLOT TO NATIONAL LEAGUE HEAD

### CORRUPT OFFICERS

BANGOR, Me., March 17.—A conspiracy of local bootleggers to corrupt federal officials was disclosed here today by a Michigan district judge arraigned before Commissioner C. H. Reid, charged with attempting to bribe Robert H. Jack, federal prohibition enforcement officer for the northern district of Maine.

Caught by prearrangement in the act of offering the officer an income of \$1000 a month for telling him when raids were to be conducted in Bangor, Driscoll made the statement that he was acting for other parties, mentioning names of several prominent citizens. Indictments for conspiracy to bribe an officer will be sought from the federal grand jury at the June term of the district court, Mr. Jack stated.

Driscoll was released on \$2000 bail until Monday afternoon, when a hearing will be held. He was arrested by E. R. Burnard, special intelligence officer of the bureau of internal revenue.

## VIRGIN MARY PATRON SAINT OF FRANCE

PARIS, March 17.—The Virgin Mary is declared the patron saint of France and Joan of Arc, now Saint Joan, the secondary patron saint, in Pope Pius' first order concerning France, published today.

The order was in response to a request from the French ecclesiastics submitted to Pope Benedict, who did not act upon it, his death intervening, but which was taken up and granted by the new pontiff.

## OFFICER TESTIFIES AT D'ASSUNCAO INQUEST

PAVUTUCKET, R. I., March 17.—Patrolman George Hinchcliffe was the first witness called today when Coroner Thomas E. Vance resumed the inquest into the death of Jose, d'Assuncao, the Portuguese national who was killed during the riot near the mills of the Jencks Spinning company, on the morning of February 21. The witness testified that when he reached the scene there were about 400 or 500 people present. He considered they were on the verge of mob rule. He heard two shots fired but did not know who fired them. He assisted in taking two prisoners to the police station.

## TREND OF TIMES

Girls Now Indulge in Game of Marbles

BOSTON, March 17.—Woman's invasion of man's spheres has extended to young Miss America. The boys of greater Boston are making a losing stand against feminine assault on a sport hitherto almost exclusively their own—the game of marbles.

The sisters play for keeps, too, and often with a skill that has sent their own and other brothers home marbled. As a result, the girls also nowadays go home with hands soiled and knees muddy and mothers find cause to lament the trend of the times.

Another change in the conditions of the game as played by the new generation is the substitution of pennies for agates and glassies that were the objects of shot and roll in the old days.

## FATHER TIME PLAYS HAVOC WITH STARS

BY HILLY EVANS

What position in baseball is most directly affected by the age of the player?

It is my opinion that age hits an infielder harder than any other player. Then comes the outfielder, followed by the catcher, with the pitcher bringing up the rear.

All of which means that it is harder for Father Time to land a knockout punch on the pitcher than on any other player.

Age hits the legs of an athlete, the ball player in particular, much quicker and harder than the arms.

Slowness of foot drives many a player out of the majors when his arm is as good as it ever was.

When Bobby Wallace departed from the majors his wonderful throwing arm was as strong as ever. His legs, however, had gone back on him. He had slowed up terribly fast.

Only a few years ago, after Wallace had been out of the game for a couple of years, I watched him work out in practice with the St. Louis Browns.

His old "sonper," as the ball players affectionately refer to their throwing arm, was as good as ever. The ball crossed the infield with the same speed and accuracy that made Wallace one of the most talked about players of his day.

Age is a destroyer of the motive power of the legs. Since infielders must move quickly on hard hit balls and have only a given space in which to move they suffer first as a result of the ravages of Father Time.

Slowing Up Is Fatal

The slowing up of a step or two often marks the passing of a player from the majors. The outfielders also have to cover considerable territory. However, they have more time to act and can play their field to suit the tendencies of the batters.

It is a rarity in baseball to get a catcher who is fast of foot even in the youngsters. This is explained by the unusual amount of squatting a catcher is forced to do in giving the signals. Flexibility of foot doesn't mean much to a catcher.

The pitcher, however, of all players is the one least affected by lack of speed of foot. He doesn't have a great deal of fielding.

With the pitcher the arm is the thing, just as long as the "sonper" is plucky and he can just "em through, he is able to get by.

Cy Young was in the forties when he retired. Babe Adams, at 32, is still one of the most valuable pitchers in the National league.

These two great stars of the majors, Walter Johnson and Grover Alexander, are 35 and older, who was the sensation of the American league last season, is 31.

There are possibly 30 major league pitchers who have passed the 30 mark and all of them are regarded as the regulars.

## BANK OF ENGLAND DIVIDEND

NEW YORK, March 17.—The Bank of England, which has distributed a five per cent. dividend semi-annually since 1914, has increased the rate to 6 per cent., a change from a financial agency here said today. A dividend at an annual rate of 12 per cent. has not been paid by the Bank of England for a whole year since 1906.

JULIAN SAMARR DEAD

NEW YORK, March 17.—Julian S. Karr, president of the Durham Hosiery mills of Durham, N. C., died at a hotel here today.

## TALKS ON HOLDOUTS

BY BOB DORMAN

NEW YORK, March 17.—There are no holdouts in either league at present, says John Heydler, head of the National league.

Further a strange statement, yet President Heydler means every word of it.

"Not until the ball rings, and a play-

PRESIDENT JOHN HEYDLER

er has failed to report can he be classed as a holdout," continued President Heydler.

"Too much is made of the so-called holdout."

"Many players who are dubbed holdouts are merely lax in answering their correspondence."

"Other players are away from home, hunting or fishing, and fail to get the contract promptly."

"As for the fellow who asks for a change in the contract submitted to him for his signature, why should so much ado be made about it?"

"Ball players are no different from anyone else. They have their services for sale, the same as a lawyer."

"They have the same right to put a value on their work and to bargain with their employers in order to obtain that price."

"In any business the man whose salary demands are unreasonable will soon find himself out of a job, that goes for baseball. Some players have an exaggerated idea of the profits made in baseball."

"Any club owner will tell you that the profits of the last two years, which have been the banner years of baseball, have not wiped out the deficits incurred from 1913 to 1919."

"As for admission prices, a little thought will convince anyone that they are eminently fair, as compared with that of other amusement enterprises."

"Regarding the outlook for the present season I am through making predictions. They're the bunk. I would

have to issue a favorable statement no matter what I thought.

"I am hoping that baseball will not suffer as a result of business conditions as they now exist."

"It seems that all over amusement have felt the pinch. Baseball is peculiar, however, it seems to weather a financial crisis better than any other amusement enterprise."

"Baseball is played under ideal weather conditions most of the season. That is one of its best assets in weathering a tight money market."

"Everyone likes to get out in the open. A ball game affords such opportunity. Incidentally one gets the thrills that are furnished by the great national pastime."

"For that reason, no matter how low one's finances are, they manage to dig up enough to enable them to gain admission to the ball park."

"Being a winner in the National league is beyond me. Perhaps I have

a pretty definite opinion, but I am not going to express it. That wouldn't be diplomatic."

"I might say, however, that the New York Giants won the pennant and World's Series last year. The Giants are certainly no wimp. Heine Groh at third gives the team additional power."

"There are seven other clubs in the National league, however, and I am not merely handing out flattery when I say that I believe each and every one is stronger than it was last season."

"St. Louis has a great team. It was going better than any club in the league at the close of the 1921 campaign. Gibson is sure to have the Pittsburgh team up there."

"I look for keen competition and a great race."

"Halley's comet travels about 248 miles a second."

# THE LOWELL TEXTILE STRIKE

Nothing New in the Local  
Strike Situation—Strikers  
Remain Firm

Lowell Labor Leaders File  
Protest Against Bill to Re-  
peal 48-Hour Law

John Hanley, president of the Lowell Textile Council and a member of the executive board of the United Textile Workers of America, who with General Organizer Thomas J. Reagan and Frank N. Stimpson, the latter secretary of the Trades and Labor Council, attended the legislative hearing in Boston yesterday on the proposed amendment to repeal the 48-hour law in this state, stated today that he firmly believes an adverse report on the bill will be made by the committee to the house of representatives.

The Lowell men did not have a chance to be heard against the proposed measure, for the time allowed the opponents of the bill was but one hour and that was consumed by labor representatives from Boston, Fall River and New Bedford. "Nevertheless," said Mr. Hanley, "the Lowell delegates filed a written protest with the committee in behalf of the thousands of mill operatives in this city."

The bill should be reported favorably and the legislature should vote to repeal the act, it would mean a fight to the finish between the thousands of United Textile Workers' members in this state and the manufacturers. Under no consideration will we go back to slavery days. For years we have conducted a strenuous fight for the 48-hour law and after many hardships and struggles we have succeeded in having the law placed on the statute books, this law having gone into effect Feb. 3, 1919, and you can rest assured that we will not let any legislator or manufacturer get away with it. The legislature has the right to repeal the act, but there is nothing that will force us to work more than 48 hours."

Mr. Hanley believes that the manufacturers are behind the movement and he said their sole ambition is to have the operatives work five days and a half and pay them for but four days. "It is true," he said, "that Massachusetts is the only state in the union that has adopted the 48-hour law, but that is no reason why the law should be repealed. Massachusetts has always been known to protect its women and children and I see no reason why it should not keep up its good name. I may say that in the event of the law being repealed, a bitter fight will be carried on against the manufacturers not only by organized labor, but by unorganized operatives as well."

**Loomfixers' Meeting**

The loomfixers who are on strike at the Ray State Cotton Corp. and the Hamilton Mfg. Co. held their roll call this morning in their quarters and every striker responded to his name. Reports were given out to the effect that everything is going along smoothly and that the strikers are still firm in their determination to win their fight. It was stated at strike headquarters this morning that as soon as the permit is granted, the strikers will go to work. A mass meeting for all the members of the city will be held this evening in Trades and Labor hall in Central street for the purpose of organizing the members of the United Textile Workers of America. Tomorrow evening at 7 o'clock a meeting of the general strike committee will be held in Trades and Labor hall and it is hoped all will be present, for matters of great importance will be brought to their attention.

**Barbers' Strike**

It was learned today that only four members of the Journeymen Barbers' union, who have been out on strike for several weeks are out of work. Some of the strikers have gone back to their old jobs after their demands had been granted, while others have secured work elsewhere.

## THE WIDENING OF FIRST STREET

The city engineer has ruled, in an opinion given to the board of public service, that no portion of Yarmouth park at the junction of Bridge and First streets can be taken for the widening of First street without the consent and approval of the park commission. The engineer states further that he recommends the usual eminent domain formalities be followed in the matter of private takings.

**MERRIMACK RIVER**

There has been no appreciable change in the height of the water in the Merrimack river locally during the past 24 hours. Today's reading on the Mount mill gauge was 43, practically the same as was taken yesterday. The present low temperature will have a tendency to postpone a general breaking up of ice or a prolonged thaw.

## FIND 44 BARS OF SILVER

Real Bullion Worth \$3500  
Dug Up On East Bank of  
Niagara River

BUFFALO, N. Y., March 17.—The police and the sheriff's office today were trying to solve the problem of how bar silver worth between \$3500 and \$4000 came to be buried on the farm of Lewis Salmon, on the east bank of the Niagara river, near La Salle.

Salmon called on a Buffalo jeweler yesterday with a sample of the metal which he had turned up with a spade. Learning that it was real bullion, Salmon reported his find to the police and, accompanied by an officer, returned to the farm.

They dug up 44 bars, each six inches long, three inches wide and half an inch thick. The soil showed no sign that the bullion had been recently buried. The bars were found at varying depths, from one to four feet below the ground level.

Representatives of the William A. Rogers company, of Niagara Falls, N. Y., and the Ontario Community company, of Niagara Falls, Ont., are expected here today to examine the bullion. The Rogers company was robbed of the same amount of silver two years ago, and in June 1921, the Ontario Community company lost a similar amount through theft. Most of the silver was from the Ontario Community company was recovered in New York.

## PASSES EXAMINATION FOR NAVAL ACADEMY

James Francis Byrne, son of Mrs. Mary F. Byrne of 60 Plummer avenue, received notification yesterday from Congressman John Jacob Rogers that he had successfully passed the mental examination for entrance to the U. S. Naval academy at Annapolis, Md. That he would be notified later when to report for the physical examination, sometime in the middle of June. If he is found to be physically qualified he will be appointed a midshipman at once. Congressman Rogers congratulated him on his success and wished him the best of luck in the one remaining test.

As a result of a special examination in this city early this year, four young men, including Byrne, were ordered to report for a mental examination on Feb. 15. Of the four who took the examination, young Byrne was the only one to receive a qualifying mark, achieving the excellent rank of 3.15 out of a possible 4 points, an average of 84.4 per cent, it marked on the percentage basis. As he passed the physical test easily at the preliminary examination, little doubt is felt of his admission to the naval academy.

Young Byrne was born in Lowell on Dec. 1, 1903. He received his early training in the Immaculate Conception parochial school, entering high school upon completing his preliminary studies. In high school he prepared for the Massachusetts Institute of Technology, and graduated with the class of 1921. A brief illness prevented his entrance to Technology, however, and when he heard of the competitive examination to be conducted some time ago for appointment to Annapolis he decided to try his luck. Upon receiving the appointment as principal, with three other boys as alternates, he went to Annapolis to attend the army and navy preparatory school in that city. After one month's study he took the examination in which he so successfully passed.

## DEATHS

**JANTZEN**—Mrs. A. Jantzen died March 14 at her home, 78 West 25th street, New York city. She leaves one sister, Mrs. Mary A. Jantzen of New York city, brother, James W. Jantzen of Lowell, and five nieces and five nephews.

## FLETCHER STREET LEDGE

Street Department Men Are  
Assorting Old Paving  
Blocks to Be Recut

Street department men are at work on the Fletcher street ledge, cutting paving blocks piled there in an effort to ascertain just what the department has on hand for this year's paving work. Four-inch, six-inch and old blocks that may be recut are being sorted for easy counting.

A large range of men are working throughout the city, filling in washouts in cinder sidewalks. All the walks adjacent to the isolation hospital were in bad condition as the result of recent heavy rains and these have been placed in good shape. Cinder sidewalk repaving also is going on in Centralville and in the Highlands.

The department is conducting a general house cleaning at the ledges, sand banks and stables and yard, getting ready for the summer's program of work.

**Roberts**, burial was in the family lot in Westlawn cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

**McALPIN**—The funeral services of William F. McAlpin were held yesterday afternoon at Saunders' Funeral home, 217 Appleton street. Rev. Arthur G. Lyon, pastor of the Unitarian Congregational church, officiated. The burial was in the receiving tomb at Forestlawn cemetery, Chelsea. The funeral was read by Rev. Mr. Lyon.

## MEMORIAL AUDITORIUM

Mayor Brown Gives Out  
Schedule of Items Included  
in Loan Order

It was learned today just what is covered in the item of \$30,000 for "original equipment," included in the \$70,000 loan order submitted to the city council last night for work on the Memorial auditorium.

According to a detailed statement of the items included in the \$30,000 given to Mayor George H. Brown by the building architect, the following schedule was given out by the mayor today:

Curtains, \$3000; shades, \$1000; linoleum, \$5000; moving picture machine, \$1000; motor generator, \$5000; two aerocens, \$2000; kitchen equipment, \$3000; two extinguishers, \$500; miscellaneous furniture, \$5000; ticket rack, \$1000; painting walls of veterans' wing, \$1000; soap machines, toilet paper, etc., \$500; stage rigging, \$3000; furniture for reception rooms, \$1000. Total, \$28,500.

The remaining \$1,500 of the total \$30,000 loan, is divided as follows: Grading, \$10,000; walks, \$8000; seeding, \$1000; planing, \$2000; river wall, \$2000; fence on river wall, \$3000; changing bridge, \$5000; two flag poles, \$1000; light, \$1000; \$1500; six electric chandeliers, \$1500; six brackets, \$1000; electrical work, \$2000; spot lighting, \$1500; grading Brown street, \$10,000; sidewalks, \$5000; miscellaneous, \$3500.

## SUDDEN DEATH OF MRS. LOUISE RICIN

Mrs. Louise Ricin, aged about 50 years, dropped dead in her room in the rear of 318 Moody street, last evening. The body was viewed by Medical Examiner T. B. Smith, who stated that death was due to natural causes. The body was later removed to the funeral parlors of Undertaker Joseph Albert in Alken street.

Mrs. Ricin seemed to be in the best of health all day. Light polling at about 9 o'clock, she went to her room to retire, but a few minutes later she was found lying on the floor, apparently unconscious. A physician was summoned, but upon his arrival he found that the woman had passed away. Deceased is believed to have brothers and sisters living in Manchester, N. H.

## APPROPRIATION FOR MEMORIAL DAY

The disabled war veterans have requested Mayor Brown for a separate appropriation of \$500 for use by them on Memorial day and the mayor said today the request would be granted.

He is in receipt of a letter from Commander Harry F. O'Sullivan of Lowell Chapter No. 4 Disabled American Veterans of the World War, stating that the chapter recently voted to turn out on Memorial day and that inasmuch as expenses would be incurred, an appropriation of \$500 would be appreciated.

star who has been in Lowell visiting the Strand theatre, called at the high school today, and addressed the various English classes on the plays of Shakespeare. This morning he addressed three classes and gave a reading of "Macbeth" and during the noon hour he read "Othello" to four other classes. The Mayor Harris introduced the visitor to the assembled classes.

**GARD OF THANKS**

We, the undersigned wish to express to our friends, neighbors and relatives, our sincere thanks for their acts of kindness, expressions of sympathy, and offerings of floral and spiritual bouquets, in the death of our beloved son and brother, to the members of the Buffalo club and Billerica car shops who were especially grateful.
